Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my most matured appreciation of its value, hased upon actual and witnessed realities. As a close observer, I have while witnessing its positive results in the few apecial diseases incident to the separate organism of woman, anglied it out as the closure or expressing gene of my medical career. On its merits as a positive, safe, and effectual remedy for this class of diseases, and one that will at all times and under all circumstances act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident and that it will not disappoint the most sanguine expectations of a single invalid lady who employs it for any of the allments for which I recommend it, that I offer and tell it under A POSITIVE GUAR. ANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on the return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, resembly refund the money read for it. the time two-thards of the contents of the bottle are used, I will, on the return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money past for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases. I feel surranded and perfectly safe in risking beth my rejudation and my meany on its merit.

The following are among those diseases in which my Famerite Prescription has worked cures—as if by magic and with a certainty never before attained by any medicine: Leucorthous, Excessive Flowing, Pain-Ind Monthly Periods, Suppressions when from minatural causes, Irregularities, Weak Back, Frolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Uteration of the Uterus, and very many other chronic diseases peculiar to woman not mentioned here, in which, as well as in the cases which I have mentioned, my Favorite Prescription works cures—the marvel of the world. This medicine I do not extol as a cure-all, but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases of the seemal system of woman. DR. SAGE'S OATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all peris of the affected nassi passages, and the chambers or cavities communicating therewith, in which seres and ulcers frequently exist, and from which the catarrhal discharge gouerally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight, (no snuffing, forcing or pumping being required,) up one mostril in a full gently flowing stream to the highest pertion of the nassi passages, passes into and thoroughly cleanse all the tubes and chambers connected therewith. Now, reader, self-abuse, venereals; dcases badly cured, and sexual excesses, are both kinds, at their establishments in all all capable of producing a weakness of the the large cities, and through agencies in generative organs. The organs of generanearly all towns throughout the country. tion, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they arealways. polite and pleasant in the company of ladies, and look you and them right in the face-none of your downcast looks or any meanness about them. I do nat mean tnose who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

> How many men, from badly cured discases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the geneal system so much as to produce almost every other disease-idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.
