# WOMAN

By an immense practice, extending through a period of many years, having, within that time treated over nine thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have ramed it.

Dr. Pierce's Favorite Prescription.

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my most matured appreciation of its value, based upon actual and witnessed realistics. As a close observer, I have while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or crossing give of my midical carrier. On its merits as a positive, safe, and effectual remedy for this class of diseases, and one that will at all times and under all circumstances act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so could dent am I that it will not disappoint the most sangaine expectations of a single invalid lady who employs it for any of the ailments for which I recommend it, that I offer and sell it under A PUSITIVE GUAR-ANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on the return of the bottle, two-thirds of the medicine having been taken according to directions, and the cise being one for which I recommend

ANTRE. If a beneficial effect is not experienced by the time two-thrids of the contents of the bottle are used. I will, on the return of the bettle, two-thrids of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these confiditions; but having winnessed its truly minaculous cures in thousands of cases, I feel warranted and perfectly safe in risking both my repatation and my money on its meritt.

The following are among those diseases in which my Favorite Pracription has worked cures—as if by magic and with a certainty never before attained by any medicine: Leucorrheas, Excessive Flowing, Painfull Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarrings, Chronic Congestion, Inflanmation and Uteration of the Uterus, and very many other chonic diseases peculiar to woman not mentioned here, in which, as well as in the cases which I have mentioned, my Favorite Prescription works cures—the marvel of the world. This medicine I do not eatol as a circ-all, but it admirably Midlis a singleness of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not diseases included to pregnancy, and can be taken it is a Moster Powerfue, Restromarive Tostic to the general as well as the sexual system, also combining the most valuable nervone properties. Both the muscular and nervous forces are strengthened and built up by its use. It will be found invaluable in diseases includent to pregnancy, and can be taken in moderate does with perfect safety while in that state. Indeed, it is a Moster's Cordial, and so prepares the system for my Favorite Prescription to the Ladies of America with the america of the opera

# vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no prepar-ation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery combin-ing many of themost powerful and restorative agents in the VECET-ABLE KINGDOM. It restores GREY ABLE KINGDOM. It restores GREY HAIR TO ITS ORIGINAL YOUTH-FUL COLOR. It makes the scalp while and clean; cures dandruff and humors, and falling out of the hair; and will make it graw upon bald heads, except in very aged persons, as it farnishes the nutritive principle by which the hair is nowished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a glossy, and is unsurpassed as a cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other

than three bottles of any other preparation.

It is recommended and used by the First Medical Authority.

The Wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalted. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are initiations.

DR. SAGE'S CATARRH REMEDY. It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and olera frequently exist, and from which the catarrhal discharge generally proceeds. The wart of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting carres is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight, for saufling, forcing or feeting cures is entirely this instrument, the Fluid is carried by its own weight, (no snuffing, forcing or pumping being required.) up one nostril in a full gently flowing stream to the highest portion of the mosal passages, passes into and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the opposite nestril. Its use is pleasant, and so simple that a child can understand it. Full and explicit directions accommand each instrument. When used with his

WHOSE sufferings have been protract ed from hidden causes, and whose cases require prompt treatment to render existence desirable:

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? "I believe it to be the best, all things considered, of any that I have known it is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order.—Mrs. A. M Spooner, 36 Bond St. Brooklyn.

Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequentity details to get out of order? Do you feel as much confidence in youself? Are your spirits dull and flag. ging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsis, Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dys pepsia or liver-complaint?

> Now, reader, self-abuse, venereals; deases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are mover afraid they cannot succeed in business; they don't become sad and discouraged; they arealways polite and pleasant in the company of ladies, and look you and them right in the face-none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured discases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the geneal system so much as to produce almost every other disease-idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which to agents.
