By an immense practice, extending through a period of many years, having within that time treated over nine thousand cases of those diseases peculiar to woman, I have been enabled to perfect amoust potent and agreeable medicine that meets the indicationa presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription. Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my most matured appreciation of its value, based upon actual and witnessed realities. As a close observer, I have while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climas or erwaving geme of my medical correct. On its merits as a positive, safe, and effectual remedy for this class of diseases, and one that will at all times and under all circumstances act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so combedent am I that it will not disappoint the most sanguine expectations of a single invalid lady who employs it for any of the aliments for which I recommend it, that I offer and sell it under A POSITIVE GUAR.

Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, I feel tearranted and privately agle in risking beth my reputation and my meany on its merits.

The following are among those diseases in which my Famorite Prescription has worked cures—as if by magic and with a certainty never before attained by any medicine: Leavenrhate, Excessive Flowing, Paisfull Monthly Periods, Suppressions what from unnatural causes, Irregularities. Weak Back, Prolapsus, or failing of the Uterus, Anteversion and Retroversion, Bearing Down Senations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Infammation and Ulceration of the Uterus, and very many other chronic diseases peculiar to woman not mentioned here, in which, as well as in the cases which I have mentioned, my Favorite Prescription works cures—the marvel of the world. This medicine I do not extol as cure-all, but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases therefore the medicine I do not extol as cure-all, but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases therefore the prescription works cures—the marvel of the world. vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VECET-ABLE KINGDOM. It restores GREY HAIR TO ITS ORIGINAL YOUTH-FUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a If AIR D RESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.

than three bottles of any other preparation.

It is recommended and used by the First Medical Authority.

The Wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to nurchase their compounds, they induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Furchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

DR. SACE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and there frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight, (no mulfing, forcing or pumping being required, up one nostril in a full gently flowing stream to the highest pertion of the masal passages, passes into and thoroughly cleanseall the tubes and chambers connected therewith, and flows out of the opposite nestril. Itsuse is pleasant, and so simple that a child can materstand it. Full and explicit directions accompany each instrument. CROVER & BAKER SEWING MACHINES.

The following are selected from thousands of testimonials of similar character, as expressing the reasons for the preference of the Grover & Baker Machines over

all others. * "I like the Grover & Baker Ma-chine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker it answers the purpose of all the rest. It does a greater variety of work and is easier to learn than any other,"—Mrs. J. C. Cro-ly (Jenny June)

* "I have had several years' experience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover & Baker Machine is more easily mnnaged, and less liable to get out of order. I prefer the Grover & Baker decidedly."—Mrs. Dr. Watta, New York.

"I have had one in my family for some two years; and from what I know of its workings, and from the testimony of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."—Mrs. Gen. Grant. "I believe it to be the best, all things considered, of any that I have known It is very simple and easily learned; the sewing from the ordinary spoots is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order—Mrs. A.M.

not liable to get out of order,—Mrs. A. M Spooner, 36 Bond St. Brooklyn. . . "I am acquainted with the work of the principal machines, and I prefer the Grover & Baker to them all, because I con-sider the stitch more elastic. I have work in the house which was done nine years ago which is still good."—Mrs. Dr. Mc-Cready, No. 43 East 23d street, N. Y.

* "More than two-thirds of all the sewing done in my family for the last two years has been done by Grover & Raker's Machine, and I never had a garment rip or need mending, except those rents which trollesome boys will make in whole cloth. It is, in my opinion, by far the most valuable of any I have tried."—Mrs. Henry Ward Beecher.

. . "The Grover & Baker Sewing Machine has rendered in every respect, the most perfect satisfaction. It combines so many advantages with beauty of execution and economy in price that it is a ne-cestly in every household,"—Mrs. Gover-nor Geary, Harrisburg, Pa.

WHOSE sufferings have been protract cases require prompt treatment to render existence desirable:

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, er urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick skum' rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dispepsia? Are your bowels constipated? Do you have spells of frainting, or rushes of blood te the head? Is your mentory impared? Is your mind constantly dwelling on this subject? Doyou feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? De you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in youself? Are your spirits dull and flag. ging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia, Have you restless nights? Your back weak, your knees weak, and have but listle appetite, and you attribute this to dys pepsia or liver-complaint?

Now, reader, self-abuse, venerealer de eases badly cured, and sexual excesses, are both kinds, at their establishments in all all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? Yes never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they arealways polite and pleasant in the company of ladies, and look you and them right in the face-none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also these they do business with or for.

> How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the geneal system so much as to produce almost every other disease-Idiocy, lunsey, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have dectored for all but the right one.

> Diseases of these organs require the use of a Diuretie.
