CROVER & BAKER SEWING MACHINES

The following are selected from thousinds of testimonials of similar character. s expressing the reasons for the prefernce of the Grover & Baker Machines over all others.

* * "Hike the Grover & Baker Machine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker it answers the purpose of all the rest. It does a greater variety of work and is easier to learn than any other,"—Mrs. J. C. Cro-(Jonny June)

* "I have had several years' expe-lence with a Grover & Baker Machine which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker de-eidedly,"—Mrs. Dr. Watts, New York. "I have had one in my family for some two years; and from the testimony of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."— Mrs. Gen. "I believe it to be the best, all things considered of any that I have known It is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to set out of order—Mrs. A.M. not liable to get out of order.—Mrs. A.
