PATROLD BY ALL DRUGGISTS AND DEALERS.

By an immense practice, extending through a period of many years, having within that time treated over nine thousand cases of those diseases peculial to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Or. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my most matured appreciation of its value, based upon actual and witnessed realities. As a close observer, I have white winnessing its positive results in the few special diseases incident to the separate organism of woman, singled if out as the classic organism of woman, singled if out as the classic organism of my materal career. On its morits as a positive, safe, and effectual remady for this class of diseases, and one that will at all times and under all circumstances act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who employs it for any of the ailments for which I recommend it, that I ofter and sell it under A POSITIVE, GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used. I will, on the return of the bottle, two-thirds of the moticine having been taken according to directions, and the case being one for which I recommend Dr. Pierce's Favorite Prescription.

It a beneficial effect is not experienced by the time two-thirds of the contents of the bottle, required in the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money pand for it. Had I not offer it as I do unider these conditions; but having winnessed its truly miraculous curses in thousands of cases, I feel marranted and perfectly age in riking both my regulation and my money on its merital both my Propulation and my money on its merital both my Propulation and my money on its merital by magic and with a certainty never before attained by any medicine: Leacourbea, Excessive Flowing, Painfull Monthly Periods, Suppressions when from unnatural causes, Irregularities, We ak Rack, Prolapsus, or falling of the Uterus, Anterversion and Retroversion, Hearing Down Sensations, Internal Hear, Nervens Depression, Debility, Despondency, Threatened Miscarriage, Chronic Cangestion, Inflammation and Ulceration of the Uterus, and very many other chronic diseases peculiar to woman not montioned here, in which, as well as in the cases which I have mentioned, my Favorice Prescription works cure—the marvel of the world. This medicine I do not extol as a cure-all, but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappent, nor will it do harm in any state or condition. It is a story Pownippel, Restouched, and prepares the system for particular procession, and can be taken in moderate doses with perfect specific in all chronic diseases of the most valuable nervine properties. Both the miscalar and nervous forces are strengthened and built up by its use. It will be found invaluable in diseases incident to pregnancy, and can be taken in moderate for the justice. vegetable Sicilian Hair Renewer

Has slood the test of seven years before the public; and no prepar-ation for the hair has yet been disation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery combining many of the most powerful and restorative agents in the VEGET-ABLE KINGDOM. It restores GREY HAIR TO ITS ORIGINAL YOUTH-FUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a II AI IL D RESSING. It is the chapest preparation ever offered chennest preparation ever offered to the public, as one bottle will ac-complish more and last longer than three bottles of any other preparation.
It is recommended and used by

the First Medical Authority.

The Wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under preparations for the Hair, under earious names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: It has never yet been chair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imilations.

This instrument is especially designed for the perfect application of DR. SAGE'S CATARRH REMEDY. It is the only form of instrument yet invented with which fluid medicine can be carried high sp and perfectly applied to all parts of the affected resal passages, and the chambers or cavities communicating therewith, in which sores and nicers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its ewn weight, (no snuffing, forcing or pumping being required,) up one mental in a full gently flowing stream to the highest portion of the massl passages, passes into and theroughly cleanses all the tubes and chambers connected therewith, and flows cut of the opposite nestric. Its use is pleasant, and so simple that a child can understand it. Full and explicit directions accomment each instrument. The following are selected from thousnds of testimonials of similar character, s expressing the reasons for the preferice of the Grover & Baker Machines over Il others.

"" "Ilke the Grover & Baker Mahine, in the first place, because if I had
any other, I should still want a Grover &
Baker; and having a Grover & Baker it
answers the purpose of all the rest. It
does a greater variety of work and is easier
to learn than any other,"—Mrs. J. C. Croiy (Jenny June) e * "I have had several years' expe-lence with a Grover & Baker Machine, thich has given me great satisfaction. I hink the Grover & Baker Machine is more asily managed, and less liable to get out of order. I prefer the Grover & Baker de-idedly."—Mrs. Dr. Watts, New York. "I have had one in my family for some two years; and from what I know of its workings, and from the testimony of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."—Mrs. Gen. Grant.

"I believe it to be the best, all things considered, of any that I have known it is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order.—Mrs. A. M. Spooner, 36 Bond St. Brooklyn.

* * "I am acquainted with the work of the principal machines, and I prefer the Grover & Baker to them all, because I con-sider the stitch more clastic. I have work in the house which was done nine years ago which is still good."—Mrs. Dr. Mc-Cready, No. 43 East 23d street, N. Y.

tion and economy in price that it is a necesity in every household."—Mrs. Governor Geary, Harrisburg, Pa.

"I have had the Grover & Baker Ma-chine for ten or twelve years in constant use in my house. I have seen and known every kind of Family sewing, both per-sonal and household, accomplished up the Grover & Baker Machine, to the enti-satisfaction of all concerned,—Rev. Stephen H. Teng.

The stitch will not break on bias seams, when siretched, as others do; and neither does it draw the work."—Mrs. Dr. Whiting, 4 East twen-ty-fourth street, N. Y.
