

BOROUGH OFFICERS.

Burgess—J. WINANS.
Committees—T. J. Van Gosen, Miles W. Tate, D. W. Clark, P. O. Conner, W. P. Merrelliott, L. L. Hackett.

FOREST COUNTY OFFICERS.

President Judge—W. P. JENKS.
Associate Judges—J. A. PROPER, ANDREW COOK.
Sheriff—E. L. DAVIS.

LOCAL AND MISCELLANEOUS.

—Mr. Smearbaugh, aged 85 years, died at the residence of his daughter in law, on Dutch Hill, last week.

—As will be seen by the programme in this issue, the Fourth of July is to be a large day in Tionesta. Let everybody turn out, and make things as lively as possible.

—Dr. Winans and family are absent from town at present, on a visit in the West. We have not learned definitely when they expect to return, but will give our readers due notice of their arrival.

—We have actually heard of three Greeley men living in Forest county. All of them are Democrats, and the one we talked with was quite enthusiastic in his support of "the great and good Horace."

—The only change to be made in our report of the Democratic nominees, last week, is in the office of Commissioner, T. J. Bowman having received the nomination instead of Daniel Harrington.

—The Tidouite Journal says that the Commercial ceased publication on Thursday last. The former which has heretofore been a morning paper will hereafter appear in the evening.

—During last week we had some of the warmest weather it has been our misfortune to experience for many years. We heard a man solemnly state that the thermometer at Jamison's indicated 108° in the shade, on Friday afternoon last, and we don't doubt it a bit. It was awful hot, anyway.

—Harper's Weekly abounds in caricatures of H.G., carefully preserving his old coat, hat, rolled-up breeches and features. Nast does the business, and does it well. This week the paper contains a caricature of the Peace Jubilee, which is side-splitting. Terms \$4.00 a year. Address Harper Bros., Franklin Square, N. Y.

—S. J. Butterfield saved the life of a woman over at the depot on Friday last, by pulling her off the track where she was standing directly in the way of the freight. He spoke to her and tried to persuade her to get out of the way, but as she refused to stir he pulled her out of the way just in time to keep her from being run over. The woman, we understand was insane.

—The game of ball on Saturday last between the Pastimes, of Tidouite, and the White Pines, of Tionesta, was an occurrence which interested many. As will be seen by the score elsewhere the White Pines came out ahead. A return game will be played at Tidouite on Saturday next, at which time we hope that our chaps may keep the laurels they have won here. It is probable that a large delegation from this place will be present to witness the game.

—Peterson's Magazine for July more than maintains its pre-eminence. Its principal engraving is a steel-plate, "Mother's Darling," one that will go to every woman's heart. The stories are unusually good, even for "Peterson." The fashions in this magazine are always the latest, and what is as necessary, the prettiest. "Peterson" is the only lady's book left that gives colored steel fashion-plates, and the one in the July number is a miracle of beauty. Every lady ought to have this magazine on her centre-table. The price is only two dollars a year, with great deductions to clubs; it is, in every sense, the cheapest and best. Now is a good time to subscribe as a new volume begins with the July number. Address Chas. J. Peterson, 306 Chestnut street, Phila.

Base Ball.

WHITE PINES VS. PASTIMES.
The first match game of the season between the Pastimes, of Tidouite and the White Pines, of Tionesta, on the grounds of the latter club, on Saturday, June 22d. W. P. Merrelliott, Esq., was chosen umpire, and E. E. Hutton and W. H. Crosby, scorers. The White Pines winning the toss sent the Pastimes to the bat. The following is the score:

Table with 4 columns: Team, Player, Runs, Hits, Errors. Rows include White Pines and Pastimes players like Roberts, G., Brady, P. L., Dale, 1st b., etc.

—We have noticed for some time that Mr. Collins was to put up a large building in Oil City, but never dreamed until last Thursday that it was our T. D. Collins of East Hickory. He is business, clear through. The Derrick says the plans for the new brick block of Mr. T. D. Collins are nearly ready and the work will be commenced in a short time. The building will extend from the corner of Sycamore one hundred and thirty-five feet on Seneca street and will be four stories in height. That portion of the building on the corner forty-five feet on Seneca street will extend back one hundred and ten feet, and from a point forty-five feet on Seneca street it will be ninety feet square. A portion of the first and second floors on the corner will be occupied by the Oil City Trust Company's bank and the office of Vandegrift & Forman. The first floor of the balance of the block will be finished into stores, Oil Exchange rooms and telegraph offices. The three upper stories of this and the two upper stories of the corner will comprise the hotel. This block will be the largest in the Oil Regions and will add largely to the value of real estate in the business portion of the city.

—We have received a book entitled Principles on Elocution, designed for the use of teachers, schools and students. It is published by Miss Emma Garfield, Busti, N. Y., and is well calculated for the place it is designed to occupy. Copies may be had by enclosing \$1 to the publisher.

—What the Graphic is among English magazines, the Aldine is among American magazines, the difference in point of artistic excellence being generally in favor of the Aldine. It is certainly so in the July number of the latter, the illustrations of which are of a more varied character than any hitherto published. The subscription price is \$5.00 per annum, which includes a superb oil chromo, and the publishers are James Sutton & Co., 23 Liberty street, N. Y.

—The Brookville Jeffersonian says: During last week four hundred and seventy rafts were taken out of Red-bank on natural water and by the help of brackets. We learn that the Clarion river has been about cleared out as they had eight days good running on that stream. The lumbermen on the Mahoning have not been so fortunate, however, as but few rafts have reached the river from that stream.

—We have received a book entitled Principles on Elocution, designed for the use of teachers, schools and students. It is published by Miss Emma Garfield, Busti, N. Y., and is well calculated for the place it is designed to occupy. Copies may be had by enclosing \$1 to the publisher.

Means What He Says.
Though "confirmations strong as proofs of Holy Writ" and as numerous as the sands on the sea shore, were produced to prove that Dr. Pierce, the proprietor of Dr. Sage's Catarrh Remedy, is in earnest and means what he says when he offers \$500 reward for any case of Catarrh which he can not cure, yet there would be some skeptics and fogies who would continue to shout, "humbug!" "humbug."

It cannot be because Dr. Homespun says Catarrh cannot be cured. Now, this Dr. Homespun is the identical, good natured old fellow who honestly believes and persists in declaring that this earth is not round or spherical, but flat as a "flap-jack" and does not turn over, otherwise the water would all be spilled out of Deacon Bascom's mill pond. But astronomical science has positively demonstrated and proven that Dr. Homespun is wrong in supposing this earth to be flat and stationary, and medical science is daily proving the fact that he is no less mistaken and behind the times in regard to the curability of Catarrh.

In short, it has been positively proven that this world moves and that medical science is progressive—the opinion of Dr. Homespun to the contrary notwithstanding. That Dr. Sage's Catarrh Remedy will cure Catarrh, thousands who have used it attest. Then buy it, and use it, in doubt do not stand.

You will find it in drug stores all over the land.

Iowa, Nebraska, Kansas, California.

Advertising alone does not produce success. The thing which is advertised must have intrinsic merit, or else large advertising will eventually do it more harm than good. If you have anything which you know to be good, advertise it thoroughly, and you will be sure to succeed; if it is poor, don't praise it, for people will soon discover you are lying.

Such is the policy of the "Burlington Route," which runs to three great regions in the West: 1st, To Omaha, connecting with the great Pacific Roads. 2d, To Lincoln, the capital of Nebraska, and all that beautiful region south of the Platte, filled with R. R. lands and homesteads. 3d, To St. Joseph, Kansas City and all Kansas points.

The roads are splendidly built, have the best bridges, finest cars, the Miller platform and coupler, and the safety air brake (to prevent the loss of life that is every where else happening); Pullman's sleepers, Pullman dining cars, large and powerful engines (to make quick time and good connections), and are in a word the best equipped roads in the West. So that if you desire to go safely, surely, quickly and comfortably to any point in Southern Iowa, Nebraska, Kansas, or on the Pacific Roads, sure be that you go "By Way of Burlington."

All who wish particular information, and a large map, showing correctly the Great West, and all its railroad connections, can obtain them, and any other knowledge, by addressing General Passenger Agent, B. & Mo. R. R. R., Burlington, Iowa.

WOOL! WOOL! WOOL!
10,000 lbs. of wool wanted at the store of Hilbrunner & Co., Water St., Tionesta, Pa., for which the highest price will be paid in cash or goods. This firm has the agency of a New York House for the purchase of the entire production of this region. Remember, we pay the highest price!
