Notice.

There will be a meeting of the Republican County Committee at my office Saturday, the 20th of July, at 2 o'clock, P. M. A full attendance of members is desired, as the Congressional Conference will be chosen at this meeting. MILES W. TATE, Chairman.

—Here it is in a nutshell. An administration which has reduced the national debt \$332,000,000 during the past thirty-nine months and at the same time reduced taxation to the enormous amount of \$149,000,000 and also made the peace expenses of the Government less per capita in currency than they were under any former Administration in gold, is the Administration which the people will continue four years longer by electing President Grant.

—The Erie Dispatch comes to us with the following paragraph marked: "Information has been received that one or two counties in this district have not yet appointed Congressional Delegates, and it is doubtful if they will do so prior to the 24th inst. That date, therefore, which had been fixed on for holding the Conference Convention has been changed to the 31st inst., the place of meeting being Ridgway, and the hour 2 p. m.

It will be seen by reference to our columns that a meeting of the County Committee has been called, and our conferees will be on hands at the appointed time. —It has been feared that Allegheny county was going back on the Republican party during the coming contest, but the following from the Leader, independent, assures us that the "State of Allegheny" will be all right in the coming contest: Political feeling here is rapidly settling down within the old party limits. The Democrats of Allegheny county, though with considerable grumbling, are falling into line for Greeley, while the Republicans are nearly all for Grant. There has been no Republican bolt, that we can hear of, from the regular Philadelphia candidates, and there is no prospect of any. On the other hand, while many of the older Democrats find Greeley a bitter pill, they swallow him as they would any other medicine which they should expect to make them strong and healthy. A few still stick out against the philosopher, who in olden times has given them so many bitter words, but eventually they will nearly all come into the ranks again.

—If you desire rosy cheeks and a complexion fair and free from pimples, blotches and eruptions, purify your blood by taking Dr. Pierce's Golden Medical Discovery. It has no equal for this purpose.

"DEMOCRATIC" NOMINATIONS.

HORACE GREELEY AND GRANT BROWN ENDORSED BY THE DEMOCRATIC NATIONAL CONVENTION.

It has been done. Greeley and Brown were nominated by the Baltimore Convention, on the first ballot. The Democracy have swallowed Horace, soul, body, breeches and old white hat. One of the most common remarks we have heard since the nomination, by members of both parties, is the exclamation point expressed in words, thus: "It beats the d—!" And about as near as we can find out, that expression defines the feeling of most voters, Democratic and Republican, throughout the land. That it "beats the d—!" is generally conceded; but if the succotash party expect it to beat Grant, we are afraid they are building upon the sand, and that when the floods of November come, and the fall rains descend and beat upon that house, it will fall, and great will be the fall of it.

Horace Greeley has been a big man in the Republican party, and has written much and well against the Democracy; and, moreover, has said meaner things of them than most other editors of prominent papers could think of. But behold the magnanimity of the deluded Democracy!—kissing the hand that has become calloused smiting them! And Horace—receiving their worship with as much pride, apparently, as if it came from parties he had always commended, instead of those whom he has spent the best years of his life in villifying, abusing and exposing! Alas for consistency! Alas for the Democracy! Alas for Horace! He has been laboring assiduously for the past two years to convince the Republican party that the one-term principle is the correct thing, and that the Farmer of Chappagna is the right man to occupy the White House next term. He has piped unto them, and they have not danced; he has mourned unto them and they have not lamented. H. G. is not their choice and they refuse to bow the knee to this Baal (of Cotton) regarding him as the choice of the South.

Shakespeare says that "man in his life plays many parts." This is true of Horace. He is now engaged as the principal character in a broad farce. The last scene will take place in November, and Horace will make his exit, sans office, sans influence, sans honor, sans everything for which he was once respected.

We cannot help asking, "Is Horace Greeley honest?" But now that he is at the feet of Democracy, begging for political aid in his work of rule or ruin, doing his best to prove that his past life has been a miserable sham, a career of deceit and hypocrisy, in the interest of his free-trade friends, let us permit Horace to speak for himself, lest our words might do him injustice. Speaking of the Democratic party and its policy, he not long ago said it the following compliment: "Point whenever you please to an election district which you will pronounce morally rotten—given up in great part to debauchery and vice—and that district will be found at nearly or every election to give a large majority for that which styles itself the Democratic party."

"Take all the haunts of debauchery in the land and you will find nine-tenths of their master-spirits active participants of that same Democracy. "May it be written on my grave that I never was its follower, and lived and died in nothing its debtor."

Was he honest then? If he was, he is dishonest now. The Democratic party has not changed, for the same element rules it to-day that ruled it when Greeley wrote the above. But Horace is not himself. He has caught that terrible malady which has carried so many leading men to untimely graves—the presidential fever. He has a very severe attack; it has turned his brain, and out of charity we are willing to forget the wrong he has done his party, and leave to his own conscience the future realization of the greater wrong he has done himself.

—The following items are from the Corry Republican.

Last week Monday, Mr. T. F. Barton, an old man about sixty years of age, engaged in drawing stone for Mr. Ober was run away with. He was thrown from the wagon, thigh broken and otherwise injured. Dr. Kibler set the fractured limb, and the patient is in a fair way to recover.

One day last week, Mr. Edward Brown, of this city, employed as brakeman on the A. & G. W. R. Y had his foot badly smashed between two car bumpers. Four bones were fractured and the sole of the foot lacerated to quite an extent. Dr. Kibler rendered the necessary surgical aid, and Mr. Brown is rapidly recovering. The accident occurred near Venango.

A week ago last Sunday Mr. Derby, an employee of the Oil Creek shops in this city, hired a livery team of Mr. Bills for the purpose of taking a ride into the country. He had with him

his wife, four of his children, and an elderly lady by the name of Mrs. Coleman. While descending a hill near Wrightville, in Warren county, the horses became frightened and ran away. The carriage was overturned, and the whole party thrown out. One little boy had his thigh broken, and they all sustained more or less serious injuries, though none are likely to prove fatal.

The Present-Taking Slander.

The Meadville Republican says that the charge against President Grant of having received large sums of money and valuable property during his Presidency, has been made so persistently that it has been accepted as true by the greater part of the American people, without question. It is now about time to look into the matter, and we invite any person, without regard to age, sex, race, color, politics, religion, or previous condition of servitude, to point out a single authenticated case that will controvert any statement made in the following letter written to Hon. R. C. Kirk, of Mt. Vernon, O., by B. R. Cowen, assistant Secretary of the Interior:

DEPARTMENT OF THE INTERIOR, WASHINGTON, June 15, 1872. "DEAR GOVERNOR:—The Secretary has referred your letter of the 10th inst., to me, with directions to reply for him to the interrogatories therein. Relative to the receipt of valuable presents by the President: Since he became President—and in fact since his nomination for President in May, 1868, has never received a single valuable present from any person whatever. This you may rely on as being literally and strictly true. The Long Branch cottage he bought and paid for himself, and furnished it at his own expense.

Before the first nomination he did receive some valuable presents, as did also McClellan and Sherman, and which I presume no one will find fault with. Since that time any charge to the contrary is malicious and unfounded. Very truly yours, B. R. COWEN. Hon. R. C. KIRK, Mt. Vernon, O.

FREAK OF LIGHTNING.—Day before yesterday, during the prevalence of the heavy thunder shower, Messrs. Keffler, Hoppins, Burgess and Havill, who were engaged in lowering the tubing into the Banner well, on the Dalzell farm, experienced a severe shock of electricity. Mr. Hoppins was up in the derrick guiding the swivel and rope; Capt. Keffler stood on the derrick holding the rope, and Messrs. Burgess and Havill were using the gas tongs on the tubing. The flash of lightning was so severe as to partially numb the arms of all four men, and cause them to drop the iron and rope as if it had been hot shot. The electric fluid passed down the rope and completely numbed Capt. Keffler's hands and arms as if he had received a shock from an electric battery. They did not fully recover from the effects of the electricity for several hours after. Had the bolt struck the derrick with full force, undoubtedly all four men would have been killed. As it is they do not desire any more electricity for some time to come.—Pet. Cen. Record.

—A twenty-five horse power boiler exploded at Gillespie, near Fagundus, Friday, under the following circumstances: The engine house at Woodward's well took fire and burned down, and the heat from the fire created such a pressure as to burst the boiler. Mr. A. C. Trevelt was helping to tear down the wheel house to prevent the derrick from burning when the explosion occurred, and a piece of the boiler struck him on the head, inflicting a wound four or five inches long and fracturing his skull. He died in about an hour afterward. Deceased was formerly of Buffalo, N. Y., whither his remains were taken for burial.—Titoute Journal.

—On Monday, July 1st, at about 12 M., the dwelling house of Mr. John Dressler, in Union township was totally destroyed by fire, together with most of its contents. The family lost all their clothing, except what they had on. The exact cause of the fire is unknown, as it originated 12 or 15 feet from the stove pipe; but it is likely that some sparks were carried on to the roof by the wind, as a fire had been kindled in the stove a short time previous. The men were all absent at the time, only the women and children being about. Being very dry, and a high wind prevailing at the time, it was with difficulty the adjacent buildings were saved.—Clearfield Journal.

—A young man named Gearhart, was drowned in the Allegheny river just above town yesterday morning about 11 o'clock. His body was recovered about 4 o'clock p. m. He had been bathing in company with two or three others and getting beyond his depth and not knowing how to swim he soon met with that most sudden of deaths.—Emlenton Friend.

—We take the following items from the Clarion Democrat: On Sunday afternoon last, a boy named Miller, fell from a cherry tree, at Lineville, this county, and fractured his arm. Dr. Williams of Fryburg reduced the fracture.

A stable was burned at Myers' Mills on Tuesday afternoon of last week. A valuable horse was burned in the stable, the property of Charles Lewis. It caught from sparks from the engine.

A slight fire occurred about six o'clock, on Wednesday morning last. The house occupied by James Watkins on Liberty street, took fire while breakfast was being prepared. The prompt efforts of the citizens prevented any further damage than a part of the roof and a little of a partition, which were burned.

GROVER & BAKER SEWING MACHINES. The following are selected from thousands of testimonials of similar character, as expressing the reasons for the preference of the Grover & Baker Machines over all others. "I like the Grover & Baker Machine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker, I answers the purpose of all the rest. It does a greater variety of work and is easier to learn than any other."—Mrs. J. C. Croly (Janey) June.

"I have had several years' experience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker decidedly."—Mrs. Dr. Watts, New York.

"I believe it to be the best, all things considered, of any that I have known. It is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order."—Mrs. A. M. Spooner, 30 Bond St., Brooklyn.

"I am acquainted with the work of the principal machines, and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have worn in the house which was done nine years ago which is still good."—Mrs. Dr. McCready, No. 43 East 23d street, N. Y.

"More than two-thirds of all the sewing done in my family for the last two years has been done by Grover & Baker's Machine, and I never had a garment rip or need mending, except those rents which troublesome boys will make in whole cloth. It is, in my opinion, by far the most valuable of any I have tried."—Mrs. Henry Ward Beecher.

"The Grover & Baker Sewing Machine has rendered in every respect, the most perfect satisfaction. It combines so many advantages with beauty of execution and economy in price that it is a necessity in every household."—Mrs. Governor Geary, Harrisburg, Pa.

"I have had the Grover & Baker Machine for ten or twelve years in constant use in my house. I have seen and known every kind of Family sewing, both personal and household, accomplished by the Grover & Baker Machine, to the satisfaction of all concerned."—Rev. Stephen H. Tyng.

"I find the Grover & Baker Stitch will wear as long as the garments do—outwear the garment in fact. The stitch will not break on bias seams, when stretched, as others do; and neither does it draw the work."—Mrs. Dr. Whiting, 4 East twenty-fourth street, N. Y.

The Grover and Baker Sewing Machine Company manufacture both the Elastic and Lock Stitch Machines, and offer the public a choice of the best machines of both kinds, at their establishments in all the large cities, and through agencies in nearly all towns throughout the country.
