## vegotable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery combining many of the most powerful and restorative agents in the VECET-ABLERINGDOM. It restores GREY HAIR TO ITS ORIGINAL YOUTH-FUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon balch heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, saft, and olossy, and is unstropssed as a glossy, and to unsurpassed as a

It is the only form of instrument yet invented with which fluid modeline can be carried high up and perfectly applied to all parts of the affected rasal passages, and the chambers or cavities communicating therewith, in which sores and afters frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting curvels entirely overcame by the invention of the Douche. In using this instrument, the fluid is carried by its own weight, (no southing forcing or pumping being required, up one noutril in a full genity flowing stream to the highest portion of the masal passages, passes little and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the appeals mostil.
