26,000 Republican Majority!!

# **GRANT AND VICTORY !!**

The news from Vermont does not change the figures to any great extent, the majority for the Republican candidate for Governor being conceded at 26,000, with every probability of an increase when the interior towns are heard from. The fact that Greeley has absolutely developed no strength among the Republicans greatly surprises his whilom supporters. BURLINGTON, Vt., Sept. 4. - Returns from 169 towns give the following figures:

lican majority in 169 towns, 20,392 .-A Republican gain of 3,412 over the vote of 1870. The remaining towns, in 1870, gave a Bepublican majority of 4,325. The Republican majority this year will be about 26,000.

MONTPELIER, Vt., Sept. 4.-Suffi-cient returns are received to indicate that the Senate will be entirely Republican, while the House of Representatives will be ten to one Republican. The returns from over 100 towns show that the combined opposition to the Republicans will be in a smaller minority than in 1870. The returns from 100 towns give Converse a majority over Garduer larger by 1,500 than Stewart had over Heaton in 1870. The towns to be heard from will probably give a larger increase of Republican majority than those already received, and the total majority in the State will not be less than 25,000. BURLINGTON, Sept. 4 .- The Free Press of this morning says: "In the towns thus far heard from in this county, the Republican ticket has 1,777

votes, against 1,775 in 1870. The Democrats increase their vote in this city, but the county towns give Republican gains over the vote in 1870, which will undoubtedly increase the majority of two years ago-1,673. The temperance vote was not productive of large results, as Mr. Bigelow will probably fall short of his ticket not over 300

votes. BURLINGTON, Sept. 4 .- The Free Press of this morning comments as follows upon the results of yesterday's the horse thief who escaped a few days election in this State: "Our oppo- ago from the jail and was captured, nents have been bragging that they tried and sentenced to four years in would reduce the Republican majority the penitentiary, succeeded in getting of our State to from 12,000 to 15,000. out again on last Tuesday morning, They have claimed a coalition vote of between one and two o'clock, with at least 22,000, and from that to 25,000. John Youl, another prisoner. The The figures show a very handsome inescape was through Clinton's ingenuicrease on the Republican vote of 1870. ty. He had for a short time been and give promise that our majority will fall little short of our magnificent majority of over 27,000 in 1868. We judge that the total vote polled will which, upon his removal, he gave to Youl. The key was made of wood reach 60,000, and that the Chappaquacks have polled from 17,000 to 17,500, giving us a total Republican and knitting needles, and would unlock the padlock as easily as the jailor's key. Youl let himself out of his majority of from 25,000 to 26,000 .--The Senate will be unanimously Recell, went to Clinton's, broke the lock publican, and the House will have not with some heavy instrument, and let Clinton out. rything in readiness for the exhibition at an early day. At present is the roost favorable time for making a good and true showing of the products of our county.

Mr. Wm. S. Green died at his residence in Reynoldsville, on Monday of last week, of mania a potu. He had been suffering for about two weeks previous to his death, and his last hours were miserable heyond description. Another warning and unan-swerable temperance lecture.

On Friday morning last Mr. Samvel Nulph, of Pine Creek township, while employed on the log job of Jackson, Carrier & Co., in Pine Creek township, was accidentally struck by a falling tree and almost instantly killed. A tree had been cut and lodged, the party leaving it and proceeding to saw

up another log near by, and while in the act of taking out the saw, the lodged tree fell, striking Mr. Nulph on the head, with the result above stated.

# The Receding Tide.

The Tribune of Saturday has an article shricking for help. No one can read it without perceiving that to prevent Grant's election is next to impossiblie. It is the cry of despair .---We quote :

"There are no doubt Liberals and Democrats enough in the United States to elect Mr. Greeley President in November. Whether they will do it or not is another question, the answer to which depends almost as much upon the manner in which they conduct the campaign as upon their nnmerical strength. It is certain that the Liberals and Conservatives, for instance, have a large majority in North Carolina; but their opponents there were admirably organized, and brought their whole strength to bear so effectively that if they could not secure a genuine victory they at least saved themselves from rout. Elsewhere the preparations of the administration party have been equally thorough, and they have the great ad-vantage of controlling all the patronage and other influences of the government. On our side too much trust has been placed upon the "popular uprising" and "enthusiasm" for Greeley, and the "generous impulse for peace and fraternity, and "revolt" against rings and corruptioa ; and our friends seem to imagine that they can sit still and let the Liberal movement sweep the country. They must under-stand that the administration is not going to be changed by an earthquake. They must work for success. It is in politics as in war; the battle is not always to the biggest army, but rather to the best drilled. Our campaigu is too short and sharp, and we are likely to be beaten unless we do more than we are doing now to get our men in

the field and secure recruits from among the wavering and dissatisfied." The remainder of the article is devoted to pointing out how things ought to be done, which if not done, the article concludes by saying, "the prize will be suatched from our hands."
