The Auburn News is responsible for the following:

A singular and exciting incident occured recently on the Cryuga Lake Railroad. Engineer Hicks Hilliker was hauling a load of iron from Ithaca to near Ludlowville. When near Mc-Kinney's, where it will be remembered, perpendicular rocks begin to rise from the water, a fine fox leaped upon the track some distance ahead of the locomotive, and started Northward. A few leads took him beyond the point where it was posssible for him to leave the track and escape, except by climbing the high walls of rocks or tumbling into the lake. The engineer seeing the situation pulled out the threttle and gave chase. The locomotive took advantage of the smooth rails, and soon made considerable advance on the fox. An occasional screech from the whistle would renew the courage of the fex, and cause him to gather himself up quicker after a tumble. Now he would jump off and make a few leaps on the road-bed, thereby putting more distance betwen himself and his ferocious persuer, then he would spring between the bars again and lose ground. The locomotive con tinued to gain on him. Finally, becoming disgusted with the rough way between the rails the fugitive sprang on one of the rails and made off at a wonderful speed, never tottering or missing a step for over ten rads. this movement the engineer who had been wrought up to a high state of excitement, opened his throttle wider, determined to overhaul that fox or tear every tire off from his drivers. Soon the fleet animal left the rail again, and went stumbling over the ties for some distance when he jumped clear of the road on the lake side. At this the engineer let go a succesion of outrageous screams from the whistle, which frightened the panting fox out of his wits, for he jumped back on the track just in time to be struck by the cowcatcher and crushed beneath the merciless wheels.

A Jamestown lover thought he saw his sweetheart talking over the gate to a rival the other night. Lover gathered a boulder and hurled it with true aim at rival. Rival's head proved to be a nicely-turned globe on the gate-post. Boulder caromed on the head of sweetness. Father gave lover a dose of shot. Fido bit him. The splinters were picked out of sweetness' head, but she declares she will never marry a man who is jealous a gate-post.

Fretting is both useless and unnecessary, it does no good and a great deal of harm; yet it is almost a universal sin. More or less we are all given to it. We fret over almost everything. In summer because it is too hot, and in winter because it is too cold; we fret when it rains because it is wet, and when it doesen't rain because it is too dry; when we are sick, or when any body else is sick.

In Buffalo, Scott county, at a New Year party where they had been "takin' suthin'," a man asserted that he could whip anybody in the room. When he found himself lying on his back and saw his antagonist compla cently chewing the end of the nose he had colored with so much care and expense, he began to suspect that he had slightly overrated his powers.

A Rochester women has been three times married. Her first husband was Robb, the second Robbins, and the third Robbinson. The same door-plate has served for the whole three, and the question now is, what extended name can be procured to fill out the remaining space on it.

An enterprising tradesman in Paris in order to circulate his advertisement, has been pasting them upon the backs of the currency of the realm. This is a novel way to make advertising pay.

Look not upon the newspaper when it is read, unless you have paid for it for if you do you may be bitten by a serpent and stung by the adder who foots up your subscription account.

An astute Irishman reading the horrifying particulars of the interment of of a living person, exclamed: "It makes a man afraid to die at all for fear he should be buried alive!"

The Fairbanks, scale manufacturers. borrowed five dollars to make their first scale, and are now worth \$3,000,-000. Go and borrow five dollars, young man,

The keeper of a New York groggery advertises, in conspicuous characters: "The biggest hot whiskey in the city for 10 cents."

A South Main street lady forgot to to wear her ear-rings to the entertainment Friday night, and froze her ears in consequence.

An old Danbury gentleman used to say that any young man with good health and a poor appetite could save

up money. A wag said of an egotistical writer,

"Somebody should take pity on his readers, and put out his I's." There is a time for all things. The

time to leave is when a young lady asks you how the walking is.

Massachusetts liquor dealers, whilst exading the letter of the prohibitory law, still keep the spirit. SHIPPING TAGS, &c.

WOMAN

By an immense practice, extending through a period of many years, having within that time treated over nine thousand cases of those diseases peculia to woman, I have been enabled to perfect a most potent and agreeable medicine that ascens the indications presented by that class of diseases with positive cereainty and exactors.

To designate this natural specific corepound, I have

Dr. Pierce's Favorite Prescription.

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my most matured appreciation of its value, based upon actual and witnessing its positive results in the few special diseases incident to the separate corganism of woman, ungled it out as the chest of corganism of my mail matured and witnessing its positive results in the few special diseases incident to the separate corganism of woman, ungled it out as the chest of corganism of my mail and career. On its perits as a positive, sife, and effectual remedy for the class of diseases, and one that will set all times and under all circumstances set knotly and in harmony with the law which govern the female system, I am willing to stake my reputation and physician. Nay, even more, so ceind deut am I that it will not disappoint the most sanguine expectations of a single invalid lady who employs it for any of the allmints for which I recommend it, that I offer and tell it under A POSITIVE GUAR.

ANTEE. If a beneficial effect is not experienced by the time two-threls of the contents of the bottle are used, I will, on the return of the lattle, two-thirds of the medicine has ing been taken according to directions, and the case being one to which I recommend it, promptly refund the money pad for it. Had I not the most perfect combinence in as virtues. I could not offer it as I do under these conditions, that having winnessed its truly mirrail-bux clares in thousands of cases, I feel warranted and perfectly after virking beat my refundation and my money as its merits.

The following are among those diseases in which my Favorite Prescription has worked clares: as if by majic and with a certainty never helice attained by any medicine it Leucorrhota, Excessive Flowing, Painfully Periods, Suppressions when from uncarriage, Chronic Congestion, Infammation and Ulceration of the Uterus, Anticerbon and Retrieversion, Bearing Down Schaatons, Infammation and Ulceration of the Uterus, and very many other chronic diseases peculiar to woman not mentioned

valuable advice in regard to their management.
