...... Time of Trains

At TIONESTA STATION, on and after Monday, November 4th, 1872: NOUTHWARD. 3:23 p. m. 10:16 a. m. 5:50 p. m. Train 2 1 29 ROTTEWARD. 6:54 p. m. 2:05 p. m. 8:33 a. m. Train 1 . 19 Passengers will have to understand that

"Northward," in the table is down the river, and "Southward" is ap the river. Trains 19 and 20 are mixed freight and accommodation; the others are passenger trains.

LOCAL AND MISCELLANEOUS.

-Go to Carrier Seminary for good ndvantages.

-Severe cold is what ails almost all of our acquaintances. Sudden changes of the weather are blamed for the prevalence of this form of the epizoo.

-Splendid Music Department at the Carrier Seminary.

-J. Kepler has moved into his new house at the upper end of town. His goods were brought neross the first good ferrying and he is now settled permanently in Tionesta.

-A good and thorough school-Carrier Seminary.

-It will be seen by reference to the "Time of Trains," that a material change has been made in the same. gent jury can always be had on shert We suppose the change is made to notice, and the expenses of all trials connect more closely with trains on materially cut down. the A. V. R. R.

-Spring term of Carrier Seminary opens March 21st.

-A horse belonging to D. Black died on Saturday last. Mr. Black prevalence of the epizootic. As stock a horse dies it is generally a "dead" loss.

-The place to get an education-

looking at our bare streets last week, that the sleighing was about played out in this part of the country, but we understand that the sleighing is good all over the county, the snow in the woods being over two feet deep. Should it come off with a rain, there will be such a flood as has not been seen in this part of the lumber country for several years.

-On Friday evening of this week a bible, which has been purchased principally by the wives and daughters of the members, will be presented by them to Tionesta Lodge No. 369, I. O. O. F. The wives and daughters of members are invited, and all those who have subscribed to the bible, are invited present and bring along their husbands. Good speakers have been secured for the occasion, and a good time will undoubtedly be had by all.

VA petition is now in circulation praying our Legislature to pass a bill pro'ibiting strangers from fishing in that part of the Allegheny River and its tributaries which are situated in Forest county, for some years. The object is to prevent fishermen from Pittsburgh and elsewhere, from coming up here and scooping all the fish out of the waters about here with seines. Were it not for the wholesale taking of fish by strangers, our citizens might be able to have a mess themselves, once in a while.

-Myers' Mill, formerly Lightaer's, was blown up one morning last week while the hands were at breakfast, consequently no one was hurt. We understand the mill was almost entirely demolished. The boiler used in this mill was a very old one, and was probably worn clear out. It was indeed lucky that the explosion did not occur while the hands were at work, else there might have been several lives lost. The mill is to be rebuilt soon.

-Judge Beardman has rendered his opinion denying the application for a new trial for Stokes. This decision renders the hopes for Stokes escaping justice of no avail. This is made a test case in New York, and society at large will rejoice that coldblooded murder shall not hereafter go unpunished. Now before another murderer who has influential friends is tried it would be a pious plan to so amend the jury laws that an intelli-

-Mr. A. Mealy, living in the Hud-dleson settlement, about six miles south of this place, met with an acci-dent on Thursday night of last week, by which one of his legs was broken. Hearing a noise ameng the horses, he went out to his barn and found one of them had broken through the fleor, and was fast there. He was going in-to the stall, when the horse made an effort to release itself, and got about half are stall. A mean going in-the fleore is of the lands are situated within four interest of the lands are situated within four miles of Ciarington, on the Clarion River, and would be a fine site for an extensive tannery and saw mills. Map and terms at this effice. 23 tf W. R. DUNN. -Mr. A. Mealy, living in the Hudalso lost a horse last fall, during the Hearing a noise among the horses, he is seldom insured in this region, when them had broken through the floor, River, and would be a fine site for an

effort to release itself, and got about 23 if

-It might have been supposed, by Jury List for February Term 1873.

Carrier Seminary.

ory Station has been purchased by readinees to take passengers, teams, freight &c., across the river at all hours of the day or night.

-Dr. Pershing and Dr. Burt are to assist in the Closing Exercises of Carrier Seminary, March 6th.

-There is no further news on the bridge question here, except that we are told that Geo. Hunter says he will have a new bridge over the river by the first of August next. We fervently hope that George will prove a true prophet.

-The Carrier Seminary closes is present term March 6th ; opens spring term March 21. Send to President Steadman for a chialogue.

- Land coal has been such a scarcity in our town since the bridge went down, that several of our citizens have sheen burning soft coal in their hard coal stoves. Rut since the ferry beat commenced running this has been gremedied, and now hard coal abounds.

-Last week the ice stopped just above the remains of the piers of the bridge, and left a clear space of river below, sufficient to run the new ferry boat through, and since that time business has been lively at the depot and on the boat. At each passage of the boat two teams and wagons were taken across. And the call is not yet; it looks as though this state of things would keep up for the next six weeks if the ferrying keeps good. We don't observe, however, that money is get ting any pleotier because of the in-arcase of business.

CROVER & BAKER SEWING MACHINES The following are selected from thous-

ands of testimonials of similar character, as expressing the reasons for the preference of the Grover & Baker Machines over all others.

* "I like the Grover & Baker Machine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker it answers the purpose of all the rest. It does a greater variety of work and iscasier to icarn than any other,"-Mrs. J. C. Cro-ly (Jenny June)

* * "I have had several years' experience with a Grover & Baker Machine which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker de-cidediv."--Mrs. Dr. Watts, New York.

"I have had one in my family for some two years; and from what I know of its workings, and from the testimony of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."— Mrs dien, dirant Mrs. Gen. Grant.

"I believe it to be the best, all things considered, of any that I have known It is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the sitteh is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order.--Mrs. A. M Spooner, 36 Bond St. Brooklyn.

The Grover and Baker Sewing Machine Company manufacture both the Elastic and Lock Stitch Machines, and offer the public a choice of the best machines of both kinds, at their establishments in all the large cities, and through agencies in nearly all towns throughout the country. Price lists and samples of sewing in both stitches furnished on application to
