The forest Republican. W. R. DUNN EDITOR. WEDNESDAY MORNING, MARCH 19, 1873.

-Clarisn is not dead yet. The following is a list of improvements contemplated during the coming summer according to the Democrat. If the County sent should be moved before they are built, we suppose they will not he quite so extensive as they would otherwise be.

built this spring and summer. Among those who are building or preparing to build houses, are Jacob Hahn, M. A. K. Weidner, J. W. Long, Jehn cial duty as is possible for a man to be, Lomer, J. F. Andres, John Goble, Her- and that if he errs, he is always will-Brosius contemplates erecting a town December. Several other gentleman specting the appointments in their sevcontemplates building houses as soon eral districts, would best secure proper as suitable lots can be obtained. A appointments. That this coulidence planing mill and other manufacturing establishments are talked of.— The oil developments are rapidly drawing nearer, and a railroad is becoming a necessity and will certainly be built soon. Our mechanics and men of moderate means are making improvements. Now let our capitalists take hold and give us a railroad, tical fortunes were the people had a and then Clarion will enter a new era, word to say about it, and infinite damand become one of the most wealhy, thriving and prosperous towns in the State.

-Mr. Jacob Ehrhart's dwelling house, in Plum township, was totally destroyed by fire on Saturday afternoon, 8th. Mr. E's family consists of himself, son-in-law, and daughter. The daughter was absent at the time, leaving the old gentleman and his sonin law alone at home. Mr. Ehrhart took some fire on a shovel from the house to his blaksmith shop, a short distance away, and the day being very windy it is likely that sparks were blown from the shovel back into the house. The two had been in the shop but a few minutes when they saw the house on fire. On account of the high wind they were unable to control the flames, and they began to save what furniture they could. They succeeded in carrying out most of the goods down stairs, but saved nothing in the upper story, where the bedding and clothes of the family were stored. Their wearing apparel in the house was all distroyed. Loss about \$2,000 --no insurance.-Spectator.

THE LIQUOR QUESTION.

What is undertsood as the liquor question cannot be dodged. It must ultimately be met face to face, however it may for the time being be evaded. It is a question that will play the mischeif with the politicians who attemp" either to dodge it, or to straddle it Public opinion is crystalizing on that for saying "Oh, Corry I where has thy subject. Prohibition is not gaining ground, for this is impracticable. Law cannot be made to control man's petite. But all over the country the principle that liquor sellers shall he responsible for their troffic, is finding lodgement; and when we use the word liquor we mean a liquid that produces intoxication. Ultimately there is to be no quibble about this or that kind of liquor. The man who sells a liquid that steals away the brains will be held to answer for that larceuy. The priciple is a correct one and is recognized in every business other than dram selling. The evil of intemperance all admit to be the grievions curse of the land. Our cities may nut be improving in temperance morals, but the rural districts have the power in our legislatures, and it as sure as that time rells on that there will be no step backward on that question. There may be temporary checks to the advance of public sentiment, but take the years by decades and the principle of responsibility for dram selling will surely grow stronger and stronger, un-til the laws are made so stringent as to shut up nine out of ten of the drunkard manufactories that now make so many women and children mourn their very existence. - Cleveland Herald. -President Grant's inaugural address is treated with a commandable spirit of fairness by the press of the country at large; the exceptions being, of course, those papers to whose jaundiced and oblique vision all things seem distempered and out of place. This is a good sign; inasmuch as it indicates that the day of captious opposition to the administration for mere opposition's sake has nearly gone by. President Grant stands nearer the popular beart in this country to day than any other living man. A Boston pa-per says that fifteen months ago a ma-jority of the Republican journals of New England were ranged in opposi-tion to his renomination; and that now every one of them concedes that his four years' administration has been a success. Now let his past traducers try to do him justice, and second his efforts to weld the nation into an united and harmonious whole.

-One by one the honest opponents of President Grant's re-election are coming in and advocating a harty support to his administration. Hon James Lyons, a veteran Virginia politicino, who acted with the Democrats up to and during the last campaign, has just published a letter in which he advises all honest Democrats to rally round the administration of President Grant and give him a manly support. He says the coalition party has given the very worst govern-ment that Viaginia has had within

his knowledge." As expected, President Grant has President would otherwire be. The town of Clarion is taking a new start in the way of improvements. Over twenty new houses are to be will do as long as humanity helds the office; but that his mistakes have been much fewer than the average of his man Sandt, Wm. L. Dowling, John T. Davis, Jas. Watkins, Wm. Kelley, A. Bonnet and Thos, M'Intire. C. C. know personally all applicants for official appointments, it becomes neceshall. The M. E. congregation is put-ting up a parsonage. S. C. Hoover will erect a brick house near town. The new jail is to be under reof again reposed in Congressmen has been betrayed, and the President deceived. there are numbers of examples to demonstrate. Men have been foisted upon the party as Postmasters and in others positions, whose popularity with their party was at such a low sob that they never dared trust their poliage has been done thereby to the Republican party. We can look over the election returns, by the diminish-ed Republican majorities, as easily as the withered limb of the tree reveals the borer at its root.

The President assures us he will benifit by his four years experience, giving us to understand that mistakes, such as we have alluded to, will be corrected. That he be enabled to correct them, it is necessary that they be pointed out and the Republicans of every locality, represented in its government appointments, by these leeches and borers, who hang on to the politi-cial tree only to suck its life, owe it, not ouly to themselves and the party, but to the deceived Executive, to make known their wants and wishes. If they do so, we are sure they will be heard.

It don't seem more than a month ago that Jamestown had the offer of an Alpaca Factory, if she would fur-nish \$20,000 toward building it. She called a meeting, sent an application to the legislature for leave to bond the city ; it was refused. They called another meeting : appointed a commit-tee to solicit subscriptions; and in three days had the money raised. Now, the Journal says, the plans for the factory have been received from England, and a second piece of land purchased adjoining the first. That's business. Compare it with Corry's procedure ; and we may be pardoned

CHOPS

George S. Boutwell was elected United States Senator from Massachusetts, to fill the vacancy caused by the resignation of Vice President Wilson. Connected as it has been with the question of the future occupancy of the Secretaryship of the Treasury, this Senatorial election has attracted national attention. Senator Boutwell is a man of conscience and courageous convictions, and will, in his new position, doubtless win an enviable repu-tation for himself and his State.

-Dont hawk, hawk, spit, spit, blow, blow, and disgust everybody with your Catarrh and its offensive odor, when Dr. Sage's Catarrh Remedy will speedily distroy all odor, arrest the discharge and cure you. 614.

CROVER & BAKER SEWING MACHINES.

The following are selected from thousands of testimonials of similar character. as expressing the reasons for the preferance of the Grover & Baker Machines over all others.

* "I like the Grover & Baker Ma-chine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker it answers the purpose of all the rest. It does a greater variety of work and is easier to searn than any other,"-Mrs. J. C. Cro-ly (Conny June)

* * 'I have had soveral years' expe-rience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and leas liable to get out of order. I prefer the Grover & Baker de-cidedly."-Mrs. Br. Watts, New York.

"I have had one in my family for some two years; and from what I know some two years; and from what I know of its workings, and from the testimony of many of my friends who use the same. I can hardly see how anything could be more complete or give better satisfaction."----Mrs. Grant.
