MARRIED

RECK-NEATA-At the residence of Mr. C. D. Mabie, March 18, 1873, by Rev. -Brown, of Rouseville, Mr. J. D. W. Rock and Miss Alms N. Neal, both of Tionesth. Pn.

This young couple entered into the state of matrimony accompanied by the best wishes of a large circle of friends. Personally we wish them a happy and useful life. In the words of Rip Van Winkle, "may they live long and prosper."

-Monday afternoon last, Hunter, having become tired "paddling his own cance" to and fro across the river, concluded to launch the ferry-boat. Now this useful craft had been tied high up the bank, during the recent break-up. and when the waters rolled back to their proper channel, the boat was left high and dry on the bank and shore ice. Several men and boys devoted their energies for a couple of hours to the business of shoving the boat into the water. Props were set, levers rigged, and power in several shapes applied, all to no purpose; the craft refused to budge. At length some one procured an oar-stem, which was about seven inches through, at the butt, and twenty feet long ; they got a huge pry with this, and all together give a big lift, and started the boat. But the oarstem went, too, taking a side sweep. Bill Killmer held on the oar-stem, for an instant, and was deposited in the mud about twenty feet from the starting point. The oar-stem next took Jo. Saul alongside the head, causing him to embrace his mother earth, then struck George Hunter just above the heels, whereat he described a half circle, alighting on his head and shoulders. The boat was launched, nobody was

seriously hurt, and the boys all declared they hadn't seen so much fun since last camp-meeting. -The Harrisburgh Correspondent

of the Pittsburgh Commercial makes out an apportionment of the State into Congressional Districts, which he says, will not differ materially from that to be reported to the Legislature soon. This apportionment puts Forest in with Centre, Union Clearfield and Elk Counties, and will, according to the vote on President in '68, make the the operation. District hopelessly Democratic. We

have been subjected to the tender mercies of a Democrtaic Assemblyman and State Senator for many years enough to elect a State Senator; and a Republican Congressman was the onest has gone on giving Republican umn. majorities with a pateince that is to be wondered at. And now they propose to put us into a Democratic Congres-

sional District. We hope Senator Mcfrom this calamity.

-W. J. Roberts has built an addition to his house, recently, which will probably be part of a new residence, to be built during the summar.

-After the morning services in the M. E. on Sunday, the 30th inst., a meeting will be held by the members and others interested, for the purpose of organizing a Sabhath School for the coming summer. All interested can consider themselves invited.

-A good deal of the shore ice in the river has gone out within a few days past, but enough remains to cause considerable disturbance, should it all start together. A few more days of such weather as we are now enjoying. however, will render the ice comparatively harmless.

-On Friday next the voters of Oil City will vote on the local option question. It is uncertain which side will carry. Both parties have been straining overy nerve for some time past, and doing their utmost, each to defeat the other. The clergy is arrayed on the anti-license side.

-A meeting of the stockholders of the Pennsylvania Petroleum Railroad was held in Titusville, yesterday, at the following gentlemen were chosen directors : A. H. Steele, J. D. Barton, R. E. O'Brien, Thomas Warnoch, W. B. Shattue, John D. Dynes, John T. Waup. The following were the officers elected : President, Jas. B. Hodgskin ; Vice President, A. H. Steele ; Secretary, J. T. Blair ; Auditor, F. A. Gondard; Chief Engineer, R. E. O'Brien. It was decided to move the offices of the company to Meadville, which will be done forthwith.

-D. S. Knox is very busy just now, manufacturing stoves for rafts. He will have pleuty of them on hand by the time they are wanted, and will supply them at low rates.

-We have been blessed with a few days of rainy weather, which, have set jobbers to working like beavers to get their lumber in shape to run on the first water. The busy season will soon be here.

-Quite a number of fish were taken from the river last week, and we think that nearly every family in town had a "mess." The fish were mostly suckers, however, and as full of bones as ever.

-Our town is fast filling up with raftsmen, who come in anticipation of an early flood. The hotels each have their share, and can yet accommedate more. These are the times that it is a pleasure to keep a hotel in Tionesta.

-We were not informed that there were to be services in the Methodist church on Sunday last, and consequently gave no notice of the fact. If any one will keep us posted, we will make the aunouncements free gratis.

-The treuting season is at hand, and as soon as the first flood is gone the atreams will be fished high and low fondly hope that they may be as plencould wish.

-Work was commenced on T. B. comfortable residence.

-Franklin has lately been the scene morning last, Thomas F. Anderson, Cashier of Lamberton's Bank, after mutilating the books of the bank, and setting on fire \$500,000 worth of government bonds, committed suicide. The burning bonds were discovered by of John Cobb & Son. a daughter of Mr. Luaberton's who promptly dashed a quantity of water

upon them, extinguishing the fire. Mr. Anderson had been in the employ of Mr. Lamberton for twelve years past, and had his employer's confidence to the last. The deed, which was accomplished by means of a pistol, was committed in the presence of his wife, who has not yet, and may never fully recover from the shock. Several theorics are afloat as regards the cause of the rash act, the mest charitable of which is that Mr. Anderson was insane. The coroner's jury are still at work on the evidence in the case, holding their meetings with closed doors. The bank

will not suffer materially, as the fire had not time to nearly destroy the bonds.

-At last we believe that spring has arrived. It has had a tedious journey 39-1y. and a great many difficulties to contend with, but has overcome all and is now with us. We welcome it with for this, the daintiest of fish. We gladness, alloyed only by the thought that "spring fever" will soon begin to tiful as the most enthusiastic fisherman claim its victime, and we're afraid we will get it.
