LOCAL AND MISCELLANEOUS.

Squirrels seem more plenty than usual this fall, and are being slaughtered in accordance with the game law. Good eating too.
Einstein has purchased a new show case, a fancy one, in which he displays his new assortment of jewelry and fancy articles, which will be sold cheap.
J. D. W. Reck and wife are back at Erie, having concluded, we believe, not to make their home in the west. He will probably keep us posted in regard to his movements.
The Derrick publishes the time table of the A. V. R. R., or in other words, throws up the sponge. There was only one elephant engaged in that fight, and that wasn't the Derrick.
We understand that Mr. H. H. May and Judge Proper, who were appointed by Geo. Hunter to accept or reject the bridge from the hands of the contractor, have accepted the job.
Prof. McCollin's entertainment was not so well attended on Thursday evening last as it was on a former occasion, on account of the rain, which made it very disagreeable stirring out.
Mr. West, ye local of the Clarion Jacksonian favored us with a little jab last week. On account of his youth we refrain from replying, but another time and he's a cooked goose.
Mr. Graves, the artist, and lady are at present visiting Judge Dale. Mr. Graves has been practicing his profession in Warren during the past few months.
Ed. Culleton, formerly cutter for the Superior Lumber Co. Store, has accepted a position in Pleasantville, where he will fit the people of that burgh in good shape. His family will stay in town this winter.
Judge Proper wishes us to state that if the town council will build a trestle over the place where the poor sidewalk is, to which we called attention last week, he will plank it over. This should be attended to at once.
Two of the four boilers of Dithridge's new mill are set, and all will be in place by the end of this week. We are not informed as to when the establishment will be in running order, but not before spring anyway.
We call the attention of our readers to a description of the new building which has been put up as a part of the Beaver Seminary, on the first page of this paper. Several of our citizens have patronized this school and can testify of its merits.
A shooting match is to come off in Tionesta on Friday next, the 31st inst. Prizes will be given to the best marksmen, but of what nature or value we are not informed. It will undoubtedly be an interesting match, as we have some good shootists in Forest county.

The time table on the A. V. R. R. was changed on the 20th inst., and we note the changes as far as concerns the travel from this section.
Robinson & Bonner last week had a head of cabbage in their store which weighed seventeen pounds. This is the boss cabbage head in this county now, but we wouldn't bet on it if the Jacksonian was published here.
It is estimated that a number of deer will bite the dust to-day, that is if they can get down under the snow and mud. This is the first regular deer snow, and will be utilized by all hunters who are able to shoulder a gun.
The gravel train has been taken off the river division of the O. C. & A. R. Ry. and the hands discharged. The road has been graveled to such an extent, that it is as solid as skill and gravel can make it.
Gov. Hartranft has designated Thursday, November 6th, between the hours of 10 a. m. and 3 p. m., the time for the execution of Nelson E. Wade, the murderer of John and Isabella McBride, near Williamsport, on the 22d of July last.
Rev. Lusher has made arrangements to preach regularly at Lacetown, once in two weeks. That region has been without this means of grace for a number of years, and this arrangement will doubtless be agreeable to all.
The Stokes trial drags its weary length along, and no one is able to tell what the result will be. The trial of the murderer has, by one pretext or another, been delayed so long that the public has lost the interest which the first trial awakened.
Mike Ittel run a five platform piece out of the mouth of the creek to the big rocks below Dithridge's mill, and got off with a line to tie it up. The line broke, the piece got away, carrying with it Mike's hat, coat and vest. A bad investment.
Grove & Wolcott, the irrepressible oil drillers have offered to put down a well inside the boro limits if the sum of \$500 is raised to assist them in the undertaking. Should our land-owners take the interest it is expected they will, the well will be put down.
Mr. Breckenridge has disposed of one of his boats, used in the construction of the bridge, to a Franklin man, who intends to run a ferry across French Creek with it. The other boat, we understand, was sold to Mr. Martin, the picture man, who will move his gallery down the river in the same.
T. V. West, the superintendent of iron work on the creek bridge, had some bad luck at Irvineton, where he is putting up the iron on a bridge over Brokenstraw. His gin pole was too short, and the arch got a swing on him and now lays on the abutments inverted, or bottom up. He will soon make it all right.
Arabs, not the Bedouins, nor those who "fold their tents and silently steal away," but chaps who pick up floating timber, boards &c., during freshets, have been doing a thriving business during this rise. There is a little something in it when the owner comes around and claims the spoil, but when he don't come, the profits are handsome.
Tionesta Lodge No. 309, recently voted \$50 to aid the Memphis sufferers, and the same has been sent to its destination. For an organization just through its first year this is a big offering to the cause of charity. When started, the organization consisted of twelve members, and has grown in numbers until its membership is now upwards of sixty.
The official vote of Clarion county gives Williams, democratic candidate for Assembly a majority of 1280. Deduct Allison's majority in this county of 140, and it leaves Williams a clear majority of 1140, which is a pretty big majority. We wish him joy of his conquest, and hope he will live to see this "might makes right" theory played on him, he being the weaker party.
We recently had the pleasure of meeting Samuel Sinclair, Esq., for many years publisher of the New York Tribune, which position he resigned on the 1st of January last. He is a brother of Mrs. T. B. Cobb, of this place, and was here from Saturday until Monday, on a visit. All the family, consisting of Mrs. Sinclair, the mother, three sons and four or five daughters, met here on Saturday, being the first time the family had all been together for a number of years.

Assistant Deputy State Superintendent R. Curry will be with us during the greater part of the week.
Prof. W. N. Hull, of Pittsburgh will be present during the entire session, and will give instruction in Elocution, Penmanship, Drawing, English Grammar, Geography, Arithmetic, and in other branches.
Teachers are requested to make all necessary arrangements to give full and prompt attendance. Let no ordinary circumstance keep you away, but come prepared to take part in the exercises.
The Committee on Permanent Certificates will be elected on Wednesday afternoon.
Directors' Do on Thursday, 4th. Examinations will be held at Tionesta on Saturday, and on Monday the 6th and 8th of December, commencing at 9 o'clock A. M.
S. F. ROHRER, Co. Sup't. Oct. 24, 1873.
Postal cards are not to be advertised or returned to the dead letter office. If not called for at the expiration of six weeks, they are to be burned.
This morning the ground is covered with snow to the depth of about six inches, and it still snows. This is a pretty early commencement for winter, and very few are prepared to welcome it for a few weeks yet. The roads have been quite muddy for some time, and don't present a good foundation for sleighing.
A bird was found about 300 rods up the hill across the river, this morning, which the amateur ornithologists are having a discussion over. It is about the size of a half grown chicken of the common breed, has web feet, long neck, small head and pointed bill. Some persist in calling it the common "dipper" found on large streams, and others maintain that it is a young loon. It cannot walk, nor apparently fly, but pushes itself along the ground as if it were swimming. The curiosity of the matter is, how did it get so far from water, under the circumstances?

This work is printed from full-size music plates, and gives every month several songs, duets, choruses, and piano pieces, to the amount of at least \$4; and yet all the Publisher asks is the modest sum of 30 cents per copy. GROVER & BAKER SEWING MACHINES.
The following are selected from thousands of testimonials of similar character, as expressing the reasons for the preference of the Grover & Baker Machines over all others.
"I like the Grover & Baker Machine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker I answers the purpose of all the rest. It does a greater variety of work and easier to learn than any other."—Mrs. J. C. Croly (Jenny June)
"I have had several years' experience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker decidedly."—Mrs. Dr. Watts, New York.
"I have had one in my family for some two years; and from what I know of its workings, and from the testimony of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."—Mrs. Gen. Grant.
