LOCAL AND MISCELLANEOUS.

The Odd Fellows' Lodge meets at 7 o'clock instead of 8 as published in the advertisement.
 Mr. Myers, the Jeweller, is moving into the building formerly occupied by the Tionesta Savings Bank.
 Remember that next Tuesday is the time appointed for holding the election to decide the fate of the New Constitution.
 Somebody has discovered a tree—the "Eucalyptus globulus"—which has property of dispelling malaria wherever it is planted.
 Huge freight trains pass over the railroad every day, but what they carry beyond our comprehension. Tank cars make up a good portion of each train.
 Local Option did not do half as much good toward suppressing the traffic as the hard times have. It is now a rarity to see an inebriated individual on our streets.
 Samuel Canuel and Rolcob are looking out for some heavy contracts, by which they expect to realize much currency, which the same will be put where it will do the most good.
 Robinson & Bonner have procured a new safe in which to deposit their county orders, book accounts and promises to pay. The safe is burglar proof and will stand any amount of fire, famine or pestilence.
 A certain Democratic candidate for office in Kentucky thus cogently sets forth his claims to consideration: "Having served three and a half years in the Confederate army, I consider it sufficient evidence of my fealty to the party."
 Geo. Hunter is getting out some timber to build a protection on the abutment on the other side of the river. That abutment was left from the wreck of the old bridge, and is not as perfect as the rest of the stone-work, hence this extra precaution.
 The Proof Sheet, a monthly publication, issued by Collins & McLeester, of Philadelphia, comes to us with three parts, for September, October and November bound together. The Proof Sheet is one of the best of its class of publications.
 After this week our columns will be lightened of their stress of advertisements, and we shall present our usual amount of reading matter. Such times will come and must be expected. As it is likely to pay us for our trouble this time, we won't grumble if our subscribers don't.
 The Bowen-Beecher-Tilton scandal is still agitating Plymouth Church, the latest thing being charges preferred against Bowen. This Church recently declared itself independent of all authority in such cases made and provided, and there is no appeal from its decision. Woodhull & Claflin first set the ball in motion.
 On Monday last we received a copy of *The Fireside Friend*, a weekly journal devoted to literature, entertaining serial stories and short sketches, published at Chicago, by Waters & Co., 100 Sixteenth St. Terms \$3 per annum, each subscriber receiving a copy of the Chromo "Cute."
 Election comes on the 16th inst.; Court week on the 21st, Christmas on the 25th. After that comes New Years, and then, we hope better times will make their appearance. Oil will then rise; oil men will prosper; lumber will advance; lumbermen will rejoice, and business will brighten up amazingly. Then will the hearts of the people expand with pleasure and benevolence, and everybody will be comparatively happy.

Supt. Rohrer informs us that he has on hand at the County Surveyor's office, Teachers' Report Books, and School Laws, just received. Teachers can procure the same by calling at said office.
 Prof. Hull gave an entertainment in the Presbyterian church, on Thursday evening of last week, which was well attended, and gave satisfaction to all who attended. Some of his delineations were said to be excellent, filled with humor, interspersed with pathos. When he comes again he will be greeted by a full house.
 Capt. Knox has shut down his mill to wait until better times make their appearance. He finds no difficulty whatever in disposing of his lumber as fast as he makes it, but currency doesn't change hands with such alacrity as to make such sales desirable. He will probably start up again in the course of a month or two.
 Warren has contracted for a Silby steam fire engine, to cost \$5,000, and are now agitating the subject of placing reservoirs at intervals through the town, to facilitate putting out fires on streets back some distance from the river. Our place is yet destitute of means with which to fight fire, if we except one or two old ladders, and a number of pails.
 The Forty-third Congress is remarkable for three peculiarities: It is the largest legislative body that ever assembled in the capitol; it contains the greatest number of new members, and it has the strongest representation of ex-Confederates. Let us hope it may also develop the equally important peculiarities of inflexible honesty, and strict attention to the people's business.
 Thus far, this has been a month to set Old Prob. to thinking. Nearly, if not quite every day of this month the rain has descended more or less copiously. Such weather in December is rare, and but for the difficulty in hauling coal and supplies to and from our place, would be rather pleasant than otherwise. The timber business is in such a state that a very little snow will suffice to do the business this year.
 Now that the legitimate business of this region is not proceeding with its usual velocity, why do not some of our amateur geologists institute a search for those extensive copper and silver mines which tradition says exist somewhere in Forest county? Should those mines be discovered even in these hard times, it would give our town an impetus which would cover our hills with palatial residences and our streets with mammoth business establishments. By all means search for the treasure.
 A friend informs us that S. H. Haslet recently killed a doe with one horn on its head, and that horn was in the velvet. It is indeed a rarity to see a doe with horns on, but, we understand that this is the only case of a deer's horns being in the velvet in the winter, that peculiarity always being noticed in the spring, and at no other time. In addition to these peculiarities the deer had no tail! Such a freak of nature has never before transpired in this or any other region. A fawn was with the doe when it was killed.
 The salary bill is to be forthwith repealed by Congress. It comes up in a report from the Special Committee to-day. The points involved are as follows: The bill provides, first, for the repeal of the present law; re-enacts the old law, making the salary five thousand dollars per annum; third, provides that back pay turned into the Treasury shall not be subject to be drawn out by those who turned it in; fourth, the bill is not retroactive, and takes effect only after its passage; fifth, there is nothing in the bill about back pay, or the money drawn under the present law since the 4th of March last. The bill further provides that the President's salary shall be twenty-five thousand dollars per annum, after the expiration of Grant's present term of office.
 Ladies' trimmed hats for sale very cheap at Robinson & Bonner's.

The Teachers' Institute, held last week was middling well attended, and, as we learn, was quite interesting. Supt. Rohrer had secured the services of Prof. Hull, of Pittsburgh, and Asst. State Supt. Curry, both of whom put forth their best endeavors to make the institute a success. Prof. Sloan, of the Pennsylvania School Journal, and Supt. Wood, of Clarion county, were also present, and helped materially to make the sessions interesting. As for as instructors go, this institute has been better supplied than any other since the new county was organized. Taken altogether, the institute was a success, and we look for much good to accrue from it.
 When a Democratic Congress at Washington, speaks out against the back-pay grab, the rest charge him with having ratted to the Republicans. In their late caucus, because Mr. Holman, of Indiana, wished to commit the party against the back-pay, Mr. Eldridge, of Wisconsin, called him the most arrant demagogue of the House. Mr. Holman, finding this reflection clinched by the caucus declaring his resolution out of order, withdrew from the room, one of the members remarking as he went, "You had better go and join the Republicans."
 Peterson's Magazine for January is already out, and a magnificent number it is! The principal steel engraving, "Good Morning, Mama," is one of the most beautiful we ever saw. It and its companion, "The Trailing Arbutus," which illustrates a story by Frank Lee Benedict, are alone worth the price of the number. The terms are two dollars a year, with great reductions to clubs, viz: 5 copies for \$8.00, or 8 copies for \$12.00, with both an extra copy and a superb premium engraving to the person getting up the club. Specimens are sent gratis to those wishing to get up clubs. Address Chas. J. Peterson, 306 Chestnut Street, Philadelphia.
 Few sections of the country are so favored as our vicinity. Here lives unostentatiously a highly respected man, connected to old Prob. by close ties of consanguinity. People can tell by a glance at his general appearance, the existing state of the atmosphere,—a walking barometer in fact. You see he wears woolen knit suspenders. When the air is damp they shrink and his pants are exalted, and when it is wet they aspire still higher. The more moist the air the higher hoist has his pants. Sometimes in warm weather he can't be depended on because he perspires, but in cold weather he would be a blessing to any community.
 As we looked across the way which winds through our beautiful village, neatly paved with natures own cement, we saw what we have seen on so many occasions,—the old Presbyterian Church standing in solitude and almost neglected on its foundation, as we sat and gazed, stood and gazed, changed our position variously and meditated. In heathen countries they have few churches and any quantity of missionaries of all sects. But in midst of a civilized land, a Christian land, here we see any quantity of churches, neat and pretty but excepting Rev. Lusher, who holds services bi-weekly in the M. E. Church, not the consumptive ghost of a preacher. With what gusto, then do we sing, when the rare opportunity offers, that old missionary hymn which stirs us up to deeds of charity, to enable the missionary societies to send missionaries "to all the world to preach the gospel," while at the same time our churches are vacant and the dust gathers thickly o'er pews and pulpit, only to be disturbed by an annual teachers' institute or blind man's concert.

To the Republicans of Forest County.
 The time for submitting the New Constitution to a vote of the people is fixed for Dec. 16, 1873. I heartily and cordially commend it to the favorable vote of our people. No party can claim the merit of its production. It is the triumph of the people of the Commonwealth through their best representatives of both parties, over political and public corruption.
 I therefore earnestly urge our Committeemen in the respective precincts, to secure a full attendance at the polls, and our people generally to turn out and cast their vote as one man for the adoption of the New Constitution.
MILES W. TATE,
 Chairman Republican Co. Com.
 The Cuban imbroglio seems to have its ebb and flow, with nearly as much regularity as the tides of the sea. At one time we are on the verge of war; at another, the difficulty is about adjusted, the "Virginus" is to be given up, and our relations with Spain made lovely. There is possibly an undercurrent to the affair, of which the public has but little knowledge. It is said that Secretary Fish and the Gladstone cabinet are maneuvering to gain their ends, the one by involving the other in war. England wants us to pull her chestnuts out of the fire, and we wish England to do the same for us. Which will succeed is the question. We would be gratified if the perplexity could be disposed of without the necessity for war; and while there is considerable war sentiment among the members of the Administration, we have every confidence that the several phases of the question will be carefully watched, and the interest of the country protected, by peaceful means if possible, but protected, at all events.—Pittsburgh Gazette.
 PHILADELPHIA, Dec. 5, 73.
 Special to the Pittsburgh Gazette.
 The Supreme Court met at noon to-day, when Chief Justice Agnew delivered the opinion of the Court, that the ordinance submitting the Constitution to a vote of the people, so far as relates to the city of Philadelphia, is void. This takes the election out of the hands of the Commissioners appointed by the Constitution to hold the election, and leaves it with the regular election board. All our good and law-abiding citizens feel disappointed at the decision.
 A meeting of the citizens will be called at an early day to appoint vigilance committees to watch the ballot boxes on the day of election, as it is well known that the corruptionists intend importing from New York and other cities all the repeaters they can find, and vote down the new Constitution. A meeting of the Executive Committee appointed by the Constitutional Convention has been called to meet at the Lochiel House, in Harrisburg, to-morrow (Saturday) evening, at 8 o'clock. President Walker has been telegraphed for, and will be there.

THE COMPANION aims to be a favorite in
 every family—looked for eagerly by

 sible; and to have really permanent worth,
 while it attracts for the hour.
 It is handsomely illustrated, and has for

THE SUN.
 WEEKLY, SEMI-WEEKLY, & DAILY.

THE WEEKLY SUN is too widely
 known to require any extended recom-
 mendation; but the reasons which have
 already given it fifty thousand subscribers
 and which will, we hope, give it many
 thousands more, are briefly as follows:
 It is a first-rate newspaper. All the
 news of the day will be found in it, con-
 densed when unimportant, at full length
 when of moment, and always presented
 in a clear, intelligent and interesting man-
 ner.
 It is a first-rate family paper, full of en-
 tertaining and instructive reading of ev-
 ery kind, but containing nothing that can
 offend the most delicate and scrupulous
 taste.
 It is a first-rate story paper. The best
 tales and romances of current literature
 are carefully selected and legibly printed
 in its pages.
 It is a first-rate agricultural paper. The
 most fresh and instructive articles on agri-
 cultural topics regularly appear in this de-
 partment.
 It is an independent political paper, be-
 longing to no party and wearing no collar.
 It fights for the election of the best men to
 office. It especially devotes its energies to
 the exposure of the great corruptions that
 now weaken and disgrace our country, and
 threaten to undermine republican institu-
 tions altogether. It has no fear of knives,
 and asks no favors from the supporters.
 It reports the fashions for the ladies and
 the markets for the men, especially the
 cattle-markets, to which it pays particular
 attention.
 Finally, it is the cheapest paper publish-
 ed. One dollar a year will secure it for
 any subscriber. It is not necessary to get
 up a club in order to have THE WEEK-
 LY SUN at this rate. Any one who sends
 a single dollar will get the paper for a year.

THE WEEKLY SUN.—Eight pages,
 fifty-six columns. Only \$1.00 a year. No
 discounts from this rate.
 THE SEMI-WEEKLY SUN.—Same
 size as the Daily Sun. \$2.00 a year. A dis-
 count of 20 per cent. to clubs of 100 or over.
 THE DAILY SUN.—A large four-page
 newspaper of twenty-eight columns. Daily
 circulation over 100,000. All the news for
 2 cents. Subscription price 50 cents a
 month, or \$3.00 a year. 25 cents of 10 or
 over, a discount of 20 per cent.
