LOCAL AND MISCELLANEOUS.

-Look out for another rise iu-the

-Our ice cream biders will be rather short next summer, unless things close up pretty soon.

-Quite an extensive revival is in progress at East Hickory, and another at Stewart's Run.

-Mr. Ross Freeman and lady returned vesterday from their wedding journey, looking hale, hearty and pleased.

-Alex. Henage, although not altogether whole since his mishap, is now able to sling his usual amount of putay and paint. .

-Warren Mercilliott borrowed our skates the other day and promised to return them within twenty-four hours, and did so. Fact.

-The nomination of H. B. Swoope as U. S. Attorney for the Western District of Pennsylvania, has lately been confirmed.

-J.m. Fones had a \$20 sleigh ride one day last week. The horse is yet alive, and he didn't altogether spoil the sleighing.

-Callie Curtis, the champion skater of America, and Eugene Pratt, the champion of the west, are to be at the Titusville rink before long.

-The Derrick of last week publishes the list of creditors of Collins Bros., bankrupts, Titusville. Their liabilities exceed \$000,000.

-It's almost time for those who have stuck to their new year resolutions to break over. Keep the "new leaf" clean two weeks, can't you?

-Z T. Shriver has been quite low with quinsy, at S. J. Wolcott's where be has been bearding for some time, For several days he was unable to speak, but is up and around again.

-Our "go-nhead" butcher Mr Swaggart, brought to town one of finest pieces of live beef steak, and roast, the other day that has ever caised yearnings in the breasts of hungry

-The thin scam of ice went out of the Creek Tuesday morning early. The witnesses of the grand spectacle were an old brindle cow, a dog blind in one eye, and a dissipated hen and helpmate.

-When a thought'ess person leaves pieces plank extending over a low fence across the side walk, at about the height of a mans eyes, he sohuld he the first person to undertake to push it off with his head, on some dark

night. -Jim. Huling was "sick" last Sunday, and "the boys" had to remain unshaven and unshorn. They wandered around, (some of them) in a kind of sem.-censeious state, a sort of a trance, seeking relief by mutual the surrounding real estate.

-We understand a petition is in circulation, originating in Clarington, praying the Legislature to annex Barnett Township of this County to Jefferson County. How this can be done is more than we can at present discov-er, since the new Constitution has become the law of the land. Forest county at present has less than four hundred square miles of territory, and only about four thousand inhabitants. Like most other petitions, our good citizens in that frontier town have possibly signed this without due reflection, and we can hardly think that the peop'e of Barnett township would seriously contemplate such a movement, after the expense and outlay in curred by the erection of three bridges for their own particular benefit, and when they reflect that the loss of the taxes of that township would embarrass our financial concerns to an alarming extent.

-Hope! Like faith this word has a very weighty significance in the religious world. After the theological investigators have used up all their faith in Faith as a subject for essays &c., (and the same concerning serious young people) they both take he rt. choosing hape for their theme. Preachers losing faith in their other sermons of course take their hopeful discours? instead. Now these times hope seems to be below par, although it is commonly so firm a commodity. We formerly remarked that the major portion of this particular locality lived on faith. We here deem it our duty he hope that others will be faithful to their promises. And thus we perambulate our daily pathway trying to be faithfully and terribly hopeful.

-Yesterday about noon, Walter Wright, a cousin of Mrs. D.thridge. fell from the second story of Dithridge's mill, a distance of about 15 f et, striking on his head and shoulder. No bones were broken, although the shock was so severe that in the evening he became very flighty. We could not learn further particulars of the accident, however we trust he will not be confined long from its effects.

-It is rumored that we are soon to lost Mr. S. J. Wolcott from among our citizens. Mr. Wolcott is one of those steady, straight forward men that make friends in any community, by the,r quiet, unussuming attention to their own business. We hope in behalf of the friends of himself and we can't afford to lose so good a member of society.

-For months the people have been suffering the want of a bridge over the creek at Lacytown. The stone work on the bridge was completed some weeks ago, and has since been work will probably be commenced to- are tired out and nodding." day, and carried on without further

-A few days before the election in December, on the new constitution, an individual of this place said he wasn't decided yet as to whether he would vote for or against the instrument, as he hadn't read it yet. Somebody handed of nature wonderfully. him a paper containing the election proclamation, which he perused very carefully, and then remarked, "Wall, I don't see much of a change, unless it's in the places of holding elections, so I guess I'll support 'er."

-There is talk of taking a part of the school house of this place down to the Centennial celebration in '76, as an interesting relic of bye-gone times. It is expected enough will be realized from this to hire a plan drawn for a new house. Many think it a wild, hair-brained scheme to rob the people of their edifice. Thus is popular prejudice always oppose I to energetic, stiring deads.

-Calrb Cushing was appointed by the President for Chief Justice, but the nomination was not confirmed by Congress. The reason for this was not a lack of legal lore and ability, but it appears his course during the little trouble we had with Jeff. Davis didn't bare inspection. It is sad to think that this high seat must remain Cushin'-less probably forever.

-One of our merchants the other compassion. Then the bravest thought- morning was seen from the bay window fully walked home to shave themselves, of this office, rushing frantically and shower blessings upon the heardless aslown the side walk. At first we mambers of the family because that- thought he sought a medical man, but ble sed razor had been used by the finally it was found that he expected c ok-to raze or corns to the level of a man to visit his store during the foremoon.

-The Franklin Spectator says:

"Edgar Cowan, of the Warren Mail; Migazine is remarkable for its variety, W. A. Rupert, of the Conneautville and the amount of reading matter Courier; Ed. W. Smiley, of the Ve-Forest Republican, have been appointed transcribing clerks at Harrisburg-Cowan and Rupert in the Senate, and the others in the House. All these gentlemen, except Mr. Smiley, opposed the new Constitution."

Now see here! Don't he so envious, Stick to the truth, Mr. Spectator. In fact don't deviate etc. in so small a matter. The REPUBLICAN was never known to go back on the new consti-

a large piece of nicely roasted cheese; & Talbot, 36 Bromfield street, Buston, fasten it firmly to the smaller end of a Mass. knitting needle; then insert this into the floor of the room frequented by mice. The smell attracts them and awakens in their tiny hearts the wildest bome and expectation. But of course all their efforts to get the cheese are vain and futile, and the effect of happiness "so near and yet so far," is to break their trobbing hearts, and then and there they lie down and die. Caution-grease well the knitting needle lest thou faileth.

-- No little children have as yet been swallowed by the elongated apertures which continue to exist in our side walks. It has been a source of 39 4 profound theorizing on our part to ex plain this wonderful freedom from accidents. We have found out that the bovine species of growth promanade upon these walks continually, and the to state that the minor part live on little timorous lads and lasses are afraid, and therefore, keep the street which is safer.

-The financial question is being variously discussed at Washington. The question is far from settled. The end desired to be gained is to make a dollar greenback good as gold, and convertable at any time. Slow resumption of specie, and gradual redemption of notes in coin, as promised by the government is recomme, ided.

-The Centennial has failed as yet in getting any of the State Trensury for itself. The Philadelphiaus are working for it in the Legislature, and they may get something from the State if there is an abundance of funds. The latter is not very probable how

-The Venango Citizen says: "Our people should be on the look out for petty thieves. We have heard of several cases where clothes lines have family, that the report is unfounded; lately been robbed, and articles such as shoes, muffs and spoons taken." These are certainly the most accomplashed thieves we have ever heard of.

-An elongated specimen of young Physiology, fearfully and wonderfully made, explains the general lissitude of his movement thus: "You see it takes waiting for the super structure, which till noon to get those parts of my sys has at last arrived together with the farthest removed awake, and by that tools necessary for its creetion. The time the parts which were awake first,

-Some where out west the boys are getting maple sap from those trees that are accustomed to "waste their sweetness." Here, investigation would probably show all the hemlocks and pines were out in full blossom. Thus spring in winter has turned the course

-Peterson's Magazine for February has arrived with its usual amount of good reading and entertainment. Every department is replete as usual with its information and pleasure. Address Chas. J. Peterson, 306 Chestnut St., Philadelphia. Terms \$200 a year, invariably in advance.

-The Tionesta Repudiator has con-cluded not to "crush" the Derrick, it says. Thanks! Now if its publishers will conclude not to waste any more white paper, "the world will be the better for it." - Derrick.

What a fresh, bright, sparkling, original bit of Spray this is, consider-

-The snow, after a very short stay has again yielded to the mild weather, leaving the roads in a splendid condition for waggoning. In fact the teamsters declare it impossible that it should he better, as they are smooth and solid as covered with Nicholson in all parts.

-Sunday night as the clock struck twelve, the cock crew, the wind blew, and the weather changed. On Monday night the same phenomena occurred. But it is needless to say that the cock was sought after by the chraged

populace and his neck wrung again. -The lightest running Machine in the world is the Grover & Baker, at and be knows.

-The February number of Ballou's which it affords for the low price of 15 cents single copies and only \$1.50 per year. Some of the best stories of the season are to be found in this really meritorious magazine. It gives so much for the money that we do not wonder its circulation now exceeds 50, 000 per month, so we have the satisfaction of knowing that the public appreciate good lierary merit. A nice little Chromo is given to each subscriber of Ballou's Magazine, and no one has to wait months for the picture -To get rid of vermin, take quite as sometimes happens. Address Thomes

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the uso of Alcohol. The question is aimest daily asked. "What is the cause of the unparalicled success of Vinegan Bit-TERS?" Our answer is, that they remove the cause of disease, and the patient re-envers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been continued possessing the remarkable quanties of Vinedan Birricus in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic. relieving congestion or Inflammation of the Liver and Viscoral Organs in Billions

The properties of Dr. WALKER'S Viskoan Brytens are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diaretic, Sedative, Counter-Pritant Sudorific, Alterstive and Anti-Bilions

Grateful Thousands proclaim VIX-EGAR BITTERS the most wonderful Ingerant that ever sustained the sinking

Colorado, Brazos, Rio Grando, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dayness, are invariably accompanied by extensive de-rangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walken's Vinkoar Bretens. as they will speedily remove the dark colored viscid natter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs

Fortify the body against disease by purifying all its fluids with VINSOAR BITTERS. No epidemic can take hold system thus fore-armed.
