#### Lieutenant Governor.

We clip the following in regard to the Lieutenant Governorship, from the Warren Mail of last week.

Our new Constitution makes the election of a Lieutenant Governor necessary in November next. Who that man shall be, is already a question among the politicians of both parties. That he should be a man of parties. That he should be a man of influence, ability and high character sufficient to fill the gubernatorial chair creditably in case of a "vacancy, is considered by all. That he should come directly from the people representing them in the largest sense, is also essential because his active duties are mainly to preside over the Senate composed of both political parties and coming from all quarters and all classes of our great State now almost an empire in itself. pire in itself.

While conceding the fitness of several geutlemen, we know of no one better fitted for the place or better calculated to add a strength to our ticket, than our old Congressman Hon. John Patton, of Clearfield countries of the calculation of th Hon. John Patton, of Clearness county. He represented the old 19th District two years in congress most acceptably and faithfully and declined a renomination. He is a gentleman in the truest sense of the word of practical strength of the word of the wor in the truest sense of the word of practical ability, high character, unsulfied integrity and great popularity wherever he is known. Though a sound Republican and true as steel to the party and the Country in every emergency, he is not offensive or bitter in his prejudices, and possesses that gentlemanly dignity and suavity of manner, promptness in decision and general fairness essential in a successful presiding officer. Living in that Demosiding officer. Living in that Demo-cratic sroughold, Clearfield County, he has of course not been in the line of local official promotion. But he has done much as a hard worker to sustain our organization and strength-en the combinations which bid fair to capture even that stronghold of the enemy, and it is fitting that such men should be recognized in State nomina-

We do not know that Gen. Patton desires this nomination. We are very sure that he will not unduly push his own claims for this or any other office. He believes in the good old doctrine that "the office should seek the man," and this is a good time to reinauger ate that doctrine especially for a high office hitherto unknown in the State. He is in no way mixed up with the conflicting cliques in our organization. He has no doubtful or blotted record in public life. He has no enemies to punish and would therefore be the better fitted for a place which requires complete impartiality and fairness toward all.

When our party more than a dozen years ago needed a candidate of great energy, zeal and liberality to perfect our organization and carry the 19th District, he responded promptly to the call and took the doubtful chances. Having conquered success and served us faithfully he voluntarily retired. We trust the old District and the whole Northwest will show a proper appreciation of his services by insisting that he shall step again to the front and again take the post of well-carned honor in the van of a party which knows how to reward a faithful and honest public servant.

### That Mysterious Robbery.

The following is the conclusion to which the Meadville Republican comes in regard to the Conneautville Bank robbery, after publishing the evidence in the case, taken before the U.S. Commissioner, at Erie:

It will be seen that Mr. Williams, charged with embezzlement of the funds of this bank, has been boun I in the sum of \$20,000 to appear at the next United States Court, at Erie, next July. Though the evidence is long, and has been carefully gleaned, it is unsatisfactory as a matter of direct proof of guilt. Though not convicting, yet the evidence is damaging to Mr. Williams. The testimony of S. B. Benson, U. S. Detective, was the only evidence which pointed directly at crime on the part of the cashier, and even this only went so far as to show that there were persons under surveillance, with warrants for arrest constantly at their elbows, who, when dragged before the court, may make the mystery of this strange robbery as plain as day.

Aside from the crime of the affair, the evidence discloses a carelessness of management on the part of officers and directors which must be perfectly appalling to depositors. When patrons could get no favors of any description, persons connected with the bank were using its funds with lavish bands. Balances in other banks stood against the Bank of Conneautville, of which no trace could be found in the books of the latter. Accounts with some banks had not been balanced for \* more than a year. Individual accounts ran loosely on, no one knowing how they stood. The accounts of the Power Bros, was overdrawn \$29,000. In

plain English, the bank had drifted deeply into the vanit even to magnifi-Into a private monopoly, a few individuals carrying the affairs with high hands, using the money of their patrons for carousals, gambling, private speculation. Mr. Williams dipping
