LOCAL AND MISCELLANEOUS.

-- The Literary Society meets at the residence of M. W. Tate, Esq.

-The swallows are flitting in the rare atmosphere above us, and not a few swallows are flitting downward, indoors.

-The leaves are making their appearance, to the satisfaction of all who love nature in her dress suit. "Nature unadorned" does not apply to the woods.

-Young ladies are around getting subscriptions to buy books for the library of the Union Sunday School. They appear to be having success in their endeavors.

-At least two great men now living, are in favor of a resumption of specie payments: One is President Grant, and the other is Brown, the modest editor of the Clarion Democrat.

-Geo. Rhodes recently speard 12-pound-pike, just below the dam at fortune in bracing up the roads he Lacytown. This is the second large controlled. one that has been captured there this reason, beside several small ones.

-In the U. S. District Court, on Wednesday last, a true bill was found by the grand jury in the case of D. D. Thursday last, in Philedelphia, where Williams, Cashier of the Conneaut- he had gone for the p rpose of sumville National Bank, for embezzling mitting to a surgical operation. Genand misapplying the funds.

-There were two attempts made by incendiaries to burn the town of Warren, on Sunday morning last. The first fire broke out about 1 a. m., which burned the Episcopal church; Mrs. Morrison's building; a coal office and yard ; A. Mechan's building and stock; house and barn of John Hanhart; Fred. Baltzinger.

After the first fire had been subdued, and the people generally had retired again to bed, there was another alarm of fire. The fire this time was on the same street, nearly two blocks away, end showed unmisinkable signs of incendiarism. The losses by the second fire were as follows : J. Stable & Co., market; Henry Owens, billiard tables saved, and insured, but no place to put them ; John N. Schnur, building ; Russell House, owned by Allen Bros.; Jacob Gray & Son, furniture; Mr. Beman, who occupied the second story of Meehan's building lost all his household furniture.

The losses, as estimated by the Warren Ledger, amount to \$25,000 to \$30,-000, partially insured.

The Ledger put out an extra on Sunday, containing a full discription of the fire. Such enterprise will always be appreciated by the subscribers of any paper. After a full account of all the incidents of the night the Extra sums up as foliows :

Perhaps there were never two greater fires with such portentious results, where the loss was so light, and so few cases of distress following. But no thanks are due the incendiary or incendiaries. The purpose was wicked, malignant, develish. Let them be traced, caught, tried and punished.

The steamer paid for itself ten, or it may be a hundred times over. Its purchase was timely, and the boys managed it beautifully after once getting started.

-Somebody wants to know why all

railroad officials die millionaires, and the Clarion Democrat proceeds to mystify the inquirer to the best of its ability, and compares the R. R. Officials to a cat who follows the bent of her inclinations where the milk house door is left open. In the first place, the premises are wrong : Railroad officials do not all die millionaires, nor do a majority of them. In the second place a man who has brains enough to run a railroad and do it right, can command a salary as great as the President of the United States. Wm. Phillips, who furnishes the "terrible example," made his money outside of his official position, and the supposition is that he sank part of his private

-Gen, A. B. McCalmont, one of the representative men of Pennsylvania, a resident of Franklin, where he had a large law practice, died on eral McCalmont was Assistant U. S. -Broad-brimmed straw hats are Attorney General during Buchanan's administration, and served in the late war. All the older inhabitants of this nights are coming love," and everyone section were well acquainted with him, and all speak of him in the highest terms. -The Clarion Presbytery met at Leatherwood on the 29th of April. A very full meeting was had, and supup the river this far, and trying all none for Tionesta. Perhaps it is just as well; as the supply appointed for this place last winter fiailed to put in an appearance. It might be well for the Presbyterians of this place to make an application to be attached to the Erie Presbytery, as the Clarion Presbytery has too much ou hands to sttend to us. -The chaps who girdled the fruit trees of John E. Kaster, at Corllsville, on the 13th of February last, namely, Jeff. T. Lee, who was fined \$100 and ses cannot he surpassed for range and sentenced to undergo an imprisonment in the county jail for six months, and Geo. Lee, who was fined \$50, and sentenced to four months in jail were punished very well as far as it goes, but Kaster paid \$500 for their arrest, and should they suffer less than he?

-Jas, Fones, the Druggist has again moved into the Bonner & Agnew Building, but has taken the south room,-the one formerly occupied by the Post Office. We are glad to welcome James back to his old neighborhood, and hope he won't move again until he can make more money by the change. The next room north is to be made a part of the Central Hotel.

-D. W. Clark, who for some years past has been Commissioners' Clerk of Forest county, was again elected to that position for one year from May 4th. Mr. Clark has always performed the business in a manner satisfactory. to the Commissioners and the tax-payers, and will undoubtedly be continued in his present situation as long as he does his work so well and promptly.

-The new mill of Collins & Holbrook, at Lacytown, is to be erected this summer. Work will be furnished to a number of competent millwrights and carpenters, and business flourishing accordingly. The hotel, kept by Mr. Aruer, has been enlarged to meet the increasing demand for rooms, and everything is ready for business.

-Since the roads have dried up, those of our citizens who own horses have been coursing them over town in a manner that takes away the breath of the interested observer. Some astonishing bursts of speed reward the owners for their patient training. None of these horses have been entered for the Cleveland races.

-The work of raising canaries, both for the market, and to see whether you can or not, has commenced. Some few featherless specimens have made their appearance, and added to the anxiety of the owners, who now want to know how many of them will be mail on receipt of \$1.00 per dozen. singers. The human animal is never satisfied.

-The Clarion Democrat says "the radical aspirants for Congress in this district are becoming numerous." That may be the case, but the Republicans can't brgin with the Democrats when they think they have a sure thing. Why it's no secret that over one-half of the voting population of Clarion county ran for office last fall.

-C. F. Gillespie went down the river during the late rise with a small raft of "culls," or "horse boards," and up, at the Hat Store, Tidioute. one of good lumber. After looking around a little, he sold the culls for \$12 per thousand, and the good lumber for \$19. Chris. is not much of a salesman, or he could have got better prices.

-It is a satisfaction to do your whole duty by a Sabbeth School Class, at 9:30 a. m., and then see two or three of your pupils come in at 3 p. m. with a fine string of trout; it looks as if your bread had been cast upon the waters, and was coming back in the shape of fish.

-Croquet is being played, and therefore summer must be nigh. Not more sure are the swallows to an nounce the approach of warm weather | gor, Geo. Crispen, Frederick King, Marthan are the chronic players of croquet. It's a nice game where you Dawson, L. M. Range, Madison Church, play with parties you can beat without any trouble.

-For ladius' under vests, neck ties veils, faus, sun umbrellas, parasols, hosiery, corsets, from 75 cents up, bandkerchiefs, ruffles, double and single puffiing, Vandyke and standard trimmings and embroideries generally. go to the Hat Store, Tidioute, Pa. 7tf

Testimonials of Waters' Pianos and Organs,

"Waters' Concerte Parlor Organ pos-sesses a beautiful and peculiarly soft tone. The Concerto Stop is, without doubt, the best ever placed in any organ. It is preduced by an extra set of words, peculiarly voiced, from which the effect is most charming, and its imitation of the human voice is superb. For sweetness of tone and orchestral effects it has no equal."-Y. Times.

The Concerto Parlor Organ is something entirely new ; it is a heautiful parlor ornament, possesses a sweet and powar-ful tone is a most commundable inven-tion and holds a high place in public fa-vor."-N. Y. Evening Post.

AS ORCHESTRA IN THE PARLOR,-The orchestral organ is the name of a new reed organ recently announced by Horace Wa-ters & Son. The instrument takes this ters & Son. The instrument takes this name from its recently invented orches-tral sisp. The voicing of this is peculiar, producing the effect of a full sweet con-traito voice. Its timest effect is produced when the stops are drawn, so that an or-chestral effect is given. The case is unique and makes a handsome article of furni-ture.' -N. Y. Suz.

The Waters Pianos are known as among the very best. We are enabled to speak of these instruments with conlidence, from personal knowledge. - N. T. Evengelin. 2-17
