LOCAL AND MISCELLANEOUS.

No Paper Next Week.

As our subscribers have by this time become accustomed to the practice of country papers...

The Sunday School Basket Picnic Committees meet in M. E. Church Thursday afternoon at 3 o'clock.

Remember the Sunday School Picnic on Saturday next, and help to make the little ones enjoy it.

The regular meeting of the Tionesta Literary Society will take place at the residence of P. O. Conyer, this evening.

Only the large saw in Dithridges mill is shut down. Most of the hands are engaged on the dam just below the mill.

Remember the dance and picnic to be held at Ross Run on Friday next, July 3d. A good time is anticipated.

A 150 barrel well was struck at Macksburg, Ohio recently. Perhaps the belt has gone over for a fourth of July flow.

P. M. General Cresswell has resigned that position, and the President has appointed Hon. Eugene Hale of Maine to fill the position.

We call attention to the card of Mrs. Heath, Dressmaker, which appears in this issue. Mrs. H. is well known here and will give satisfaction.

John Reck has built a portico on three sides of the front part of his house, which have the effect of making the house look longer and pleasanter.

We are under obligations to Gov. Hartranft for a copy of the General Laws of 1874. Pennsylvania never had a better Governor than J. F. Hartranft has proved himself.

Dr. Borland, Dentist, of Franklin, will visit Tionesta on Thursday, July 9, 1874. Office at Central House.

Golden was beaten for the Democratic nomination for Judge in Armstrong county. Brown of the Clarion Democrat is willing to share the honors with Sam Young.

We this week publish a marriage notice which should have appeared in our last issue, but as Mr. Dittweller says, it "slipped our memorandum."

We will add to the notice the wish that the couple may "live long and prosper."

Sunday School Basket Picnic.

The Programme adopted last Sabbath for the Basket Picnic, on the Fourth of July is as follows:

1st. The scholars, teachers and friends, bringing their baskets will meet at the M. E. Church, at 9:30 o'clock, A. M., upon the ringing of the second bell.

2d. The classes will be arranged in order, and headed by their respective teachers, will then be marched to the ground.

3d. After arriving upon the ground, singing, under the direction of the committee on music.

All are invited to join with the school, as it is the intention to have the occasion as informal and enjoyable as possible.

All the committees will meet at the M. E. Church building to-morrow (Thursday) afternoon, at 3 o'clock to hand in their final report, and make any further arrangements that may be thought necessary.

P. M. CLARK, Sec'y.

Workmen are busily engaged in framing the new and large mill of Collins & Holbrook, which is to be erected at Lacytown this season.

From one of the men engaged on the work we have the following facts in regard to the structure: The dimensions of the mill will be 85x125 feet, and will have all the newest and best machinery for manufacturing and finishing lumber of all sizes and grades.

The dam will be run by water, and to this end the dam will be rebuilt in a permanent manner. It is not to be supposed that all the machinery of the mill will be kept constantly running, but the proprietors propose to be prepared to do all kinds of sawing and manufacturing that may be required on short notice.

A good portion of the lumber made by this mill will be bill-stuff, and will probably be hauled to this point and shipped by rail. In this connection, we have understood that Messrs. Collins & Holbrook are to build a road to follow the Creek from the mouth to Lacytown.

To do this there will have to be about two miles of road made, commencing at the property now occupied by Miss S. A. Dale, and coming out at the Oldtown school house.

When this is done a perfectly level road will be had to and from the mills. The building of the mill is under the superintendence of Jas. Gillfillan who is said to be one of the best mill-wrights in the country.

The proprietors intend having the mill ready for business before winter sets in. They have a very large tract of timber land, and the probabilities are that their investment will prove a profitable one, especially as both the proprietors are old and successful lumbermen.

The President has signed the Compromise Finance Bill, which provides for a redistribution of the National Bank currency, and releases the reserve currency which National Banks have heretofore been required by law to keep in their vaults.

The act provides that \$55,000,000 national bank currency shall be withdrawn from those States having a surplus over the amount provided in the National Bank Act, and redistributed to those States and Territories which have not their proper share.

Of this amount \$30,000,000 only can be withdrawn during the year ending July 1, 1875. The New England States and New York will lose nearly the total amount to be redistributed, and all the Western and Southern States will receive the benefit thereof.

The release of the reserve heretofore held by the National Banks will be the only increase of the currency.

The Library Festival passed off as announced in last week's issue. Contrary to the general anticipations of all concerned, the attendance was not very large.

However, most of those who attended express themselves as having enjoyed the occasion extensively. The result, financially, was a fund clear of all expenses, of nearly \$55, which was ordered to be invested until enough more is added to purchase the first installment of books.

At the called meeting of the Society on Saturday evening last, a vote of thanks was tendered to the Commissioners for the use of the Court House; also to Mr. Robinson, and others outside of the society who aided in getting up the festival and making it a success.

Horses and Cows for sale. Orders from a distance solicited.

Titusville Letter.

TITUSVILLE, June 30th '74.

ED. REPUBLICAN:—Methinks I hear you whisper "how's times?" And methinks I to myself "hard times," at Titusville, as well as other metropolitan resorts.

Yes, no one pretends otherwise; everybody realizes that things are dull, even barbers and confidence-men. But I suppose there goes on about as much business here as in the average town.

The only thing that bothers Titusvillians, is that they are so far away from Oil City that little benefits arise from that new world, London. Oil City is the largest city in the world; there is no doubt of it, and its mammoth growth is owing, probably, to that elegant and polite sheet, the Derrick.

Still we manage to keep happy by seeing some of the city-bred once in a while.

As I said before we are moderately prosperous; having many of the advantages of a large city, and all the natural pleasures of country life. We escape the imprisonment of brick walls, and the solitude of country farm-houses—a happy medium.

Everybody could enjoy themselves in a quiet way (which is the best weather) here if any where. For the romantic we have some interesting scenery and cool groves; and Oil Creek, above the city is filled with lovely islands, and affords passable fishing.

For the scientific we have an interesting Flora; plenty native animals for the Zoologist, and, of course, the geologist has abundant opportunity for research in the petroleum country.

For the gay and pleasure-loving there is a proper intersprinkling of theatre, lectures, and music, with picnics, balls, excursions, &c. In fact, hardly a pleasanter stopping place than Titusville can be found in the oil country, or, perhaps, in the western section of the State.

If I feel as good natured I may send you another short letter, but I fear this has been longer than interesting, short as it is.

Yours, YENROTTA.

Cemetery Society Meeting.

The Board met at the Central House pursuant to a notice published in the REPUBLICAN. Present, J. A. Proper, P. D. Thomas, Capt. Knox, Jacob Wenk, and S. D. Irwin.

The plan and specifications of a substantial and suitable fence were then provided, shown and read. The fence to be 4 feet high, chestnut posts 6 1/2 feet long, to be sunk 2 1/2 feet in ground, 8 feet apart, 4 nails and cap-piece. Gate 8 feet long, and a stile over fence with 10 ft. platform; the same to be constructed and built in good, workman-like manner.

The plan as drawn by Col. Thomas was adopted. The secretary to receive proposals for furnishing material and building fence until the time of next meeting, and receive bids.

On motion adjourned to meet at Central House at 7 o'clock p. m., Monday, July 6, 1874.

On Tuesday evening of last week, a terrible accident occurred at Syracuse, N. Y., by which fourteen persons lost their lives and nearly two hundred were injured, some of them fatally.

A strawberry festival was being held in the Baptist Church, on the second floor, which was crowded with people, when suddenly the floor gave way, precipitating the crowd into the story below, and pulling the roof in on them.

The church was comparatively a new one.

The Clarion Republican office printed the pamphlet for the Clarion Co. Agricultural Society, and thinks it is the neatest book ever printed for the society in that county, and insinuates that those heretofore issued from the Democrat office look as if they had been printed with apple-butter.

If Alexander will send us one of the pamphlets we will be better able to judge of its merits.

People who pretend to be versed in the ways of the potato bug say that their sudden disappearance should not be taken as a permanent relief from their presence. They have laid their eggs—a sort of yellowish larva—which may have been discovered at the time on the potato tops, and which will soon produce myriads of bugs for the mid-summer campaign.

Martin Williams and J. H. Wilson were last week nominated as Democratic candidates for Assembly in Clarion county. If they must have Democratic Assemblymen in that county, we know of no better man for the position than Martin Williams.

The Jackonian publishes their names as candidates, "subject to the decision of the District Conference." Please explain.

The Clarion Democrat tells of several persons who got roped in on three card monte, on circus day, in that place last week. It's a good lesson for those who lost their script. We suppose they are now complaining of "hard times."

The Derrick man, Oil City, is happy once again. The crusaders have come forth, and on the streets, decorated by saloons, he hopes to pick up an item or two every day. "It's an ill wind that blows nobody any good."

Some trout are being caught by those who are brave enough to fish during this extremely warm weather. Some few bass are being shot by those who are willing to stand on the banks of the river and sweat and watch for them.

P. O. Conyer has withdrawn from the field as a Democratic candidate for the nomination for Associate Judge, and Geo. S. Siggins, Esq., of Hickory is announced in the Press of last week in his place.

The irrepressible Geo. S. Hunter is on the track for the Democratic nomination for Commissioner, under the impression that the people want a "good" sponsonable man to look after things.

Miss Globe, the school mistress at Hahns school house, killed a large rattlesnake one day last week. She had more pluck than most of the young ladies in this section.—Clarion Republican.

"WE AND OUR NEIGHBORS,"

is the latest and rarest work by

Hriet Beecher Stowe,

Author of "Uncle Tom's Cabin," "The Minister's Wooing," "My Wife and I," and other powerful stories, each the literary equivalent of the period; and this story promises a like genuine and wholesome sensation. It bears directly on social topics of interest, endures the romance of youthful companionship, the brightness of happy home-life, the spicy complications of neighborhood associations, and such afflic and profound domestic miseries as have led to the widespread Temperance movement of the day.

Mrs. Stowe is now in the prime of that genius which wrote "Uncle Tom," ripened by years of study and observation. Her novels are immensely popular, "Uncle Tom's Cabin" alone out-selling by hundreds of thousands any edition of any original work ever published—save the Bible. Her book two years ago, "My Wife and I," outsold every contemporary. Such a pure and ennobling story as "We and Our Neighbors" should be read in every home. This new Serial is now running exclusively in the
