The Congressional Conference.

Taking up this subject where we last week left it, we will resume by repeating that, on the seventh ballot Judge Campbell withdrew from the contest, leaving Gen. White, of Indiana, Col. Marlin, of Jefferson, and Capt. Beale, of Armstrong in the field. The balloting continued until Friday morning last, when Gen. White was nominated on the 11th ballot, the Clarion Delegation coming over to his support. The candidates and conferees all seemed satisfied with the choice of the convention, and all pledged their hearty support to the nominee. The convention is said to have been a pleasant one, and the conferees parted with expressions of mutual good-will.

General White is a man we should be proud to support; his record, both military and political being without a stain. During the war he was in the army, and rose by reason of merit to the rank of Brevet Brigadier General. As a party man, he has always been a straight Republican, ever since the organization of the party, and has been a prominent and leading man from the start. That the people have reposed the greatest confidence in him, is shown by the fact that he has for twelve years represented in the State Senate the district in which he has resided. Now that we are apportioned with Indiana in a Congressional District, it is meet that we should do honor to her greatest statesman, especially, as we have been instrumental, to a great extent in giving to him the nomination for Congress.

It may be that we shall hereafter favor our readers with a biography of

Gen. White; at all events, we expect to have more or less to say about him during the canvass. We feel confident, that, notwithstanding a little internal difference in our own county, that the candidate of the District will receive our full Republican vote. We shall, when he is elected, have a Representative in Washington for whom we need not blush, and one who will faithfully attend to the interests of every county in his District.

Rules for the Forest County Republican Primary Election.

The voters belonging to the Republican party in each township or borough, shall meet on a day to be designated by the County Committee, at the usual place of holding spring elections, at 2 o'clock, P. 4. Any two or more persons having an equal number of votes for the same office the Judges shall proceed to ballot for a choice, the person having the highest number to be the nominee.

A SUCCESSFUL CONSPIRACY.

Apropos of the Beecher-Tilton story, now attracting general attention, a correspondent of the Meadville Republican relates how an innocent minister was convicted of crime in Oswego county, New York, some twenty-five years ago:

Elder B. was a preacher of good repute and standing and had some property, though not too much; enough, however, to tempt a conspiracy against him. Mr. D. was a man of low aspirations, vicious character, and vicious habits, and was well known as such. Mrs. D., his wife, was good looking, shrewd, and widely known, but not for her virtues. Their house had for years borne a bad reputation. During a religious revival in the place a bright idea dawned upon the mind of Mrs. D., and she attended the meeting and manifested a deep concern for her sins. She invited the preacher to visit her at her parlor, and advise with her. Innocently and without suspicion of evil he called upon Mrs. D. and they conversed alone in her parlor, but

without were witnesses. After a few passionate sobs of grief for herself (she threw herself into his lap and shrieked for help. Instantly the door was opened, and before the astounded preacher could recover from the shock, he was under the eyes of several witnesses, Mr. D. standing at their head. They all saw Mrs. D. in his lap, and heard her cries for help, and of course the poor man was at the mercy of the conspiracy and was easily convicted (legally) of a crime which he had never dreamed of.

None but the depraved and vicious (or those whose prejudice is equivalent to vice) desire to see H. W. Beecher convicted of the crime charged against him unless he is really guilty. It will become us to weigh well the evidence on both sides before rendering our verdict.

Those who are in any manner familiar with the subject of the troubles with Indians on our Western frontiers will doubtless remember that in nearly every instance where there has been anything approaching a general demonstration on the part of the savages, the cause was traced ultimately to some act of treachery or unlawful proceeding on the part of the whites, and the presence of the Comanches, Kiowas and Cheyennes upon the war path at this time is attributable to this same kind of provocation. It is shown in General Pope's orders that certain white traders had established trading posts among certain of the tribes in violation of the law, and not only had they invaded the territory of the Indians, but they had sold them liquor, cheated them and afforded support and shelter to "buffalo hunters and ruffians" who persistently prey upon the savages. General Pope holds these whites completely responsible for the uprising of the savages, and for the consequent murder of the innocent white settlers upon the frontier, and we have no doubt that his estimate is precisely correct. The Indians, of course, must be put down by force. When they are in a hostile position: it is too late to attempt any other course than that which aims at their suppression by the army. But there appears to be reason for believing that if a portion of the energy that is manifested in subduing the Indians after hostilities begin should be displayed in punishing their white assailants before the savages are goaded into frenzy, at least some of these terrible and costly demonstrations, the victims of which are unoffending people, might be avoided.—Gazette.

WASHINGTON, July 25.

A dangerous counterfeit has appeared on five dollar notes of the Traders' National Bank of Chicago. The Treasury offers one-half per cent. premium for the return of the genuine five dollar notes of that bank for destruction. The notes should be stopped separately and may be included in packages of National bank notes returned to the Treasury for redemption, and may be returned at the expense of the department. All genuine five dollar notes of this bank should hereafter be refused, and notes of that denomination thus driven out of circulation. No more of their notes will be issued hereafter by the Controller of the Currency to that bank. The attention of bank officers is specially called to the necessity of promptly returning these notes, which will entirely prevent the circulation of the counterfeit.

—Saturday forenoon a sad accident occurred a short distance below Scrubgrass. The train was making a switch when one of the brakemen, named Peter Coningham, who was standing on top of the cars fell and was run over by part of the train. His body was mangled, and before medical attendance which had been telegraphed for from Oil City could arrive, he expired. Coningham was a young man about eighteen years of age. His parents reside at Roberts' Run, where the remains were taken.—Derrick.

It is not claimed that the Republican party has all the honesty, any more than all the talents of the nation; but it is undoubted that no other party was ever so ready to expose and punish the corruption developed in its own ranks. This has retained it the confidence of the country, and will keep it in power till some other party can show not only better principles but a sterner integrity of self-discipline—a phenomenon not yet visible on the political horizon.

FARMERS Money Saved is Money Earned

The undersigned are about introducing in Western Pennsylvania the celebrated Randall Fanning Mill, Grain Separator and Grader Combined, which has attracted marked attention in the Western States wherever exhibited among the farmers.

As a Fanning Mill it cannot be surpassed, and it is the only real separator and grader in the U. S. It is simple, rapid and complete, and gives you perfect control in chaffing, separating or grading your grain.

The use of the Randall Mill will improve the condition of your grain, enhance the price from five to fifteen cents per bushel; and besides, will increase the yield per acre, by the higher grade of seed you are enabled to obtain.

With the Randall Separator you can also clean your own Grass Seed, thus saving a large annual expense for grass seeds.

This mill works on an entire new principle as applied to Fanning Mills, and does its work to perfection.

Canvassers will exhibit it during the season, when you will be able to judge for yourselves of its merits.

Do not buy until you see it work. For information, address M'CLINTOCK & CO., Meadville, Pa.
