Announcements.

ASSEMBLY.

We are authorized to announce the name of DANIEL HARRINGTON, of Kingsley, as an independent candidate for Assembly. He elected he promises to represent the whole people, and not any party or faction.

GEORGE A. JENKS.

The Forest Press quotes the extract from Jenks' speech, published in this paper last week, and, with bristling mane and fiery eyes, demands our authority in the following "numerous" question:

"In the first place, did Jenks ever actually utter the above? Did you hear him yourself? from what publication did you extract it? who was the phonographer? or did Jenks tell you himself? Who or what is your authority?"

In the first place, Jenks uttered the above. In the second place, we didn't hear him ourselves. In the third place, we didn't extract it from any publication. In the fourth place, if there was a phonographer present we are not aware of the fact. In the fifth place, Jenks did not, or is not liable to tell us himself. In the sixth place, our authority is Robert McClosky, of Farmington township, Clarion county, who heard Mr. Jenks make the speech. Mr. M. is what we call a war Democrat, and don't propose to support Mr. Jenks on account of the speech quoted from, and others of a like tenor which he heard Mr. Jenks make.

Now we believe we have answered the questions as they were put, but cannot help thinking that the sixth question was all that was called for, and that the answer to that would have answered all the rest.

The Press continues, "suppose he did say what you ascribe to him, what harm was there in it?" That question will be answered at the polls; you can read it when the returns are published. You understand thoroughly, that none of that wing of your party called "War Democrats," will support a man whom they know to have been guilty of such utterances. Next:

"There were some noble men in those days who dared to stand up and express their conscientious convictions of right while facing the gibbet reared for their intimidation by an unreasoning intolerant majority." Thank God for such men, and we are proud to number George A. Jenks with that noble band.

What class of men had to "face the gibbet reared for their intimidation by an unreasoning, intolerant majority?" Every man in this country, or in the State, or in the nation, knows that the only class threatened in that manner was the one which mourned when the rebels were defeated; rejoiced when they were victorious; resisted drafts; discouraged enlistments; talked treason, and lacked nothing of being rebels except the fortitude and courage to go South and enlist in the rebel army. And the Press says, "we are proud to number George A. Jenks with that noble band." Thank you for the frank confession; it saves argument.

Now who and what was that "unreasoning, intolerant majority?" It was composed of that class of men who gave their aid and comfort; their fortunes and their lives, when necessa-

ry, that the Union might be preserved, who put their hand to the plow and looked not back until treason was conquered, and victory purchased upon our banners. Was it not enough to stir the blood of such men to hear the treasonable utterances of the men who were, in that terrible time, in full sympathy with the traitorous elements of the South? If you "thank God for such men," why did you place yourself in opposition to them? why did you enroll yourself in that great army whose mission it was to defeat the very traitors these men helped, strengthened and encouraged? If you were in earnest then, you did not during the battles you participated in "thank God for such men;" had they been within reach, just after such battles, for instance, we are very much afraid that you would have been one among the foremost of that "intolerant majority" to not only threaten with the gibbet, but to see that their heels swung clear of the ground.

More: "If you are compelled to waive the issues of the day and fall back on the old dead and gone, loyal and disloyal and copperhead and traitor scoundrels of over ten years ago, we'll endeavor to humor you."

These issues, old, and dead, and gone, as you try to make them, are live enough for us, and too lively for you; you know they are bearing their fruit, and would draw us away from them. We choose to stay by them and see that they are properly circulated. If Republicans or War Democrats in this county vote for Geo. A. Jenks, we propose they shall do so knowing his record. We shall then have the proud consciousness of having done our duty; if others neglect theirs it is their own fault.

The Potter Enterprise, the Democratic paper printed at Coudersport, the home of Judge Olmsted, the Republican nominee for Lieutenant Governor, thus warmly commends his nomination:

Judge Olmsted won the first prize in the Republican State Convention. He was nominated for Lieutenant Governor, and in our judgement his nomination was the only redeeming feature in the proceedings. Designating at all times to treat our political opponents with candor and fairness, it is with pleasure we record the fact that the people learned of Judge Olmsted's nomination with much seeming satisfaction. We regard it as a compliment to the county as well as to the nominee. His age, character, habits, ability and legislative experience well qualify him for the duties of presiding officer of the Senate of the Commonwealth of Pennsylvania.

In the election 1872, the Republicans of New York and Pennsylvania elected their candidates for Governor, and both of them have proved the best Governors those States have ever had. Dix, in New York, and Hartranft, in Pennsylvania, have more than filled the measure of confidence given them, and both have earned grand reputations for honor, honesty and integrity. The financial affairs of both States have been economically and honestly managed, and each now finds itself, under Republican administration, in a sound, healthy and flourishing condition. The State debt of Pennsylvania is undergoing a steady reduction, and the Sinking fund of New York, which Governor Dix found had been robbed by his Democratic predecessors, of nearly all that it contained, has had its credit and its funds re-established, so that it now contains over \$15,000,000 applicable to the reduction of the State debt. Such results as these show the wisdom and safety of Republican rule; and as New York will stand by Dix in maintaining her public credit, by re-electing him, Pennsylvania will also sustain Governor Hartranft by electing a State ticket in harmony with him.

Suppose the General Government had been in the hands of the Democracy when the riots broke out in New Orleans! The bare idea makes one shudder. The McEnery rebels would have been recognized; the Colfax massacre and Coushatta murders have been repeated, and the highways and byways leading to loyal Northern settlements would have been crowded ere this with refugees fleeing the wrath of the White Leagues. Hundreds of thousands of negroes would have been sacrificed, and the property of Republicans of both colors would have been destroyed. Anarchy would have reigned supreme in nearly half the settled territory of the Union.—National Republican.

Andy Johnson, speaking at Gallatin, Tenn., last week, made formal announcement of his candidacy for the United States Senate. He said he had vetoed the Reconstruction bills, the Freedmen's Bureau bills, and the Military Districts bill, and had brought upon himself the impeachment trial, in consequence of his devotion to the Southern people. He felt that, from his knowledge of men at Washington, he could serve the people as well as any man in the State.

IMPORTANT ANNOUNCEMENT.

Inventor and secured letters-patent for an Improvement in Wash Boilers, A simple arrangement by which steam was applied to the washing of clothing. I have heretofore sold this under the name of

Steam Washer, or, Woman's Friend,

For such it is in fact. I have advertised it in nearly every Religious Newspaper in the United States and Canada, also in the leading Secular papers, using double-column advertisements. The readers of this paper may remember seeing my card in the various papers of the country during the past year. Extracts from letters received from my customers, in another column, will indicate how it has been received by the people throughout the country.

300,000

Have been sold already. It is sufficient for my purpose to say that I am satisfied that nothing heretofore advertised ever rendered so general satisfaction. Yet, my first invention was not quite perfect, and for the last two years I have applied myself to the study of constructing and perfecting a

NEW STEAM WASHER.

And as the result of my efforts I feel every assurance that I have been entirely successful. My new Steam Washer, patented in 1873, is absolutely faultless; so much so that I never knew a single person, who had seen it work, fail to be delighted with it. It has rendered, thus far, perfect and universal satisfaction, and such must be the result, for it works like a wonder—never failing to do all claimed for it. In conclusion, let me say, that should any one say that he has seen a Steam Washer, ask him if he has seen the new Steam

WASHER

Of 1873, now being advertised so extensively in whole and double-page advertisements. If he answers in the negative, request him to suspend judgment until a sample can be procured and fully tested. I will send one as

A SAMPLE FOR \$5.

—Just half the retail price,—and I fully warrant it. After a person buys a sample he can get them of me at cost.

\$60 Profit can be Made on a Single Dozen.

And I have known agents to take orders for

A DOZEN IN AN HOUR.

There is no way to make money faster. Send for a sample and secure your territory. Make money while you can. Reader, please calculate the cost of my two-page advertisement in the "CHRISTIAN UNION." It consists of 1,480 lines at regular rates amounted to

\$1,750 Each Insertion.

I repeated this "Card" four times because my first insertion (Oct. 8) paid me

500 PER CENT.

During the last eighteen months I have inserted my advertisement, occupying one to two pages, in

HUNDREDS OF 1st-CLASS PAPERS.

All of which paid well for the outlay; but the "Christian Union" ("the largest circulation of any religious newspaper in the world") pays me better than any, and the

INTER-OCEAN

PAYS BETTER THAN Any Other Secular Paper.

I mention this fact, for all can see how extensively I advertise my invention; and taking into consideration the fact that I sell it entirely on its merits, and must concede that it sells well, for no expensive advertising without real merits. If I get a sample introduced into a neighborhood it often sells

AN HUNDRED MORE.

Such a splendid chance to make money selling this invention may never occur again. On the receipt of Five Dollars, I will ship you a complete Washer as usual, copy of the chronicle, together with a Certificate of Agency, with full instructions how to conduct the business, and upon the receipt of the Washer you may have time to test it, and if you find it not as represented I will refund your money. The Washer retails at \$10. After I send you a sample I will hold your county a reasonable time for you to decide whether you wish to purchase or not. I will furnish blank deeds, also blanks for taking orders, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or your choice of territory may be taken by some one else. Address,

J. C. TILTON,

101 Sixth St., Pittsburgh, Pa.

P. S.—Cut this card out and preserve it for future reference. Persons writing me from seeing this card will please say they saw it in the Forest Republican, with it

FARMERS

Money Saved is Money Earned

The undersigned are about introducing in Western Pennsylvania the celebrated Randall Farming Mill, Grain Separator and Grader Combined, which has attracted marked attention in the Western States wherever exhibited among the farmers. As a Farming Mill it cannot be surpassed, and it is the only real separator and grader in the U. S.

It is simple, rapid and complete, and gives you perfect control in chaffing, separating or grading your grain. The use of the Randall Mill will improve the condition of your grain, enhance the price from five to fifteen cents per bushel; and besides will largely increase the yield per acre, by the higher grade of seed you are enabled to obtain.

With the Randall Separator you can also clean your own Grass Seed, thus saving a large annual expense for grass seeds. This mill works on an entirely new principle as applied to Farming Mills, and does its work to perfection.

Canvassers will exhibit it during the season, when you will be able to judge for yourself of its merits.

Do not buy until you see it work. For information, address

McCLINTOCK & CO., Meadville, Pa. One or two good agents wanted in every county. 11-3m
