Announcements.

ASSEMBLY. Ed. REPUBLICAN: Please announce the name of D. S. KNOX, of Tionesta, as an independent candidate for Assembly.

We are authorized to announce the name of DANIEL HARRINGTON, of Kingsley, as an independent candidate for Assembly. If elected he promises to represent the whole people, and not any party or faction.

JENKS EVADES.

"It is the government of Lincoln I have to deal with. As to the government of Jefferson Davis, I have nothing to say."

The speech from which the above extract is taken, was made in Clarion, during the war. The occasion, we believe, was a Democratic political meeting.—Forest Republican.

We have the authority of Mr. Jenks himself for stating that he never made use of the above language in the manner and form charged.—Forest Press.

This seemingly frank disavowal of the language given above, is nothing more nor less than a skillful evasion, of the question, which, however, won't avail him. Suppose one word in the above extract is misplaced; suppose Mr. Jenks uttered the same sentiment with a slight change of the words!

Why "he never made use of the above language in the manner and form charged!" Why didn't Mr. Jenks say, "I never made use of any such language, nor promulgated any such sentiments!" Because he dare not do it; there was too much proof to the contrary, which could have been brought to face him if necessary, and disprove such assertion. Such evasion won't answer. Let Mr. Jenks disavow the utterance of such sentiments as are contained in the above extract, and the whole county of Jefferson would rise up as one man to deny his assertions. The manner and form charged are not of so much importance as the holding and expressing of such sentiments. Election day will prove our words true.

A Home Opinion of Gen. Beath.

That the confidence reposed in him by the people when they elected him to this important position was worthily bestowed, the high character which the office sustains to-day, as attested by the legal profession and all who are acquainted with the very satisfactory manner in which the duties thereof have been discharged, is the sure guarantee. And not only have the duties enjoined by law been faithfully performed, but the experience gained during his term of office has enabled Gen. Beath to discern many of the wants of our peculiar land system and to suggest and secure such legislation as will hereafter render the land interests more secure from the adventures who made a business of taking out land warrants for the purpose of making money out of the equitable owners.

Such is the man whom the Republican party, through their convention of 250 delegates, many of them the ablest and best men of the State, have unanimously presented to the people as their candidate for the office of Secretary of Internal Affairs, under the new Constitution. That all who know General Beath, his rare worth, his high moral character, his private life unspotted, his whole official career unstained, will, we feel assured, agree with us that this honor was well merited, while it was thus gracefully bestowed. And we congratulate the people of this State

next November, be confined to this faithful, experienced and tried public servant.—Miners' Journal.

—Here's something that throws a little light on the State of things in Alabama. And these outrages are justified by Democratic papers throughout the North:

WASHINGTON, October 5. The following letter has been received at the Postoffice Department from a special agent sent to investigate the murder of a colored route agent in Alabama about a month ago: I have just had warrants issued against nine of the murderers of Thomas Gray, including the Sheriff of this county, and will proceed to make arrests immediately. The reign of terror existing in this county far exceeds anything of the kind I have ever seen. Armed bodies of men are riding over the country and colored people are afraid to go into the field to save their crops from waste and ruin. The right of free speech is denied them and many desire to return to slavery. The foregoing letter is dated, "In the woods near Livingston, Sumter county, Ala., Sept. 29th."

—The Mauch Chunk Coal Gazette is of the opinion that "Mr. Latta, the Democratic candidate for Lieutenant Governor, is not much a friend of the farmers. While he was a member of the Legislature he introduced a bill to tax all sheep over two months old at ten cents per head. He failed to get the bill through, but he limited its workings to his own county and reduced the rate to five cents per head, and the bill passed. It is not likely the farmers will support a man whose only public act was an attempt to impose an unjust tax upon them. Don't vote for Latta, the sheep-taxer of the Southwest."

Samuel Duff vs. James W. Guthrie. In Common Pleas of Forest County, A. D. No. 17, May Term, 1874. And now, September 28th, 1874, on motion of plaintiff's Attorney J. J. Reid, in open Court, rule granted on defendant in above action of judgment for 1075 acres of land situate in Jenks Township, Forest County, Pa. Bounded north by warrants Nos. 3670 and 3660, east by the Elk county line, south by warrant No. 2775, and west by warrants Nos. 4129 and 4130, warranted in the name of Nelson Strong, to appear and plead on or before the first day of next term or judgment, &c. Per Curiam.

From the record, J. B. AGNEW, Prothonotary.

IMPORTANT ANNOUNCEMENT.

In 1871 I invented and secured letters-patent for an Improvement in Wash Boilers,

A simple arrangement by which steam was applied to the washing of clothing, I have heretofore sold this under the name of

Steam Washer, or, Woman's Friend,

For such it is in fact. I have advertised it in nearly every Religious Newspaper in the United States and Canada, also in the leading Secular papers, using double-column advertisements. The readers of this paper may remember seeing my card in the various papers the country during the past year. Extracts from letters received from my customers, in another column, will indicate how it has been received by the people throughout the country.

300,000

Have been sold already. It is sufficient for my purpose to say that I am satisfied that nothing heretofore advertised ever rendered so general satisfaction. Yet this, my first invention, was not quite perfect, and for the last two years I have applied myself to the study of constructing and perfecting a

NEW STEAM WASHER.

And as the result of my efforts I feel every assurance that I have been entirely successful. My new Steam Washer, patented in 1873, is absolutely faultless; so much so that I never knew a single person who had seen it work, fail to be delighted with it. It has rendered, thus far, perfect and Universal satisfaction, and such must be the result, for it works like a wonder—never failing to do all claimed for it. In conclusion, let me say that should any one say that he has seen a Steam Washer, ask him if he has seen the new Steam

WASHER

Of 1873, now being advertised so extensively in whole and double-page advertisements. If he answer in the negative, request him to send judgment until a sample can be procured and fully tested. I will send one as

A SAMPLE FOR \$5.

—Just half the retail price, and I fully warrant it. After a person buys a sample he can get them of me at cost.

\$60 Profit can be Made on a Single Dozen.

And I have known agents to take orders for

A DOZEN IN AN HOUR.

There is no way to make money faster. Send for a sample and secure your territory. Make money while you can.

Reader, please calculate the cost of my two page advertisement in the "CHRISTIAN UNION." It consists of 1,450 lines at regular rates amounted to

\$1,750 Each Insertion.

I repeated this "Card" four times because my first insertion (Oct. 8) paid me

500 PER CENT.

During the last eighteen months I have inserted my advertisement, occupying one to two pages, in

HUNDREDS OF 1st-CLASS PAPERS,

All of which paid well for the outlay; but the "Christian Union" ("the largest circulation of any religious newspaper in the world") pays me better than any, and the

INTER-OCEAN

PAYS BETTER THAN Any Other Secular Paper.

I mention this fact, for all can see how extensively I advertise my invention; and taking into consideration the fact that I sell it but only on its merits, and must concede that it sells well, for no article will sell well enough to pay for so expensive advertising without real merit. If I get a sample introduced into a neighborhood it often sells

AN HUNDRED MORE.

Such a splendid chance to make money selling this invention may never occur again. On the receipt of Five Dollars, I will ship you a complete Washer as a sample, copy of the circular, together with a Certificate of Agency, with full instructions how to conduct the business. And upon the receipt of the Washer you may have time to test it, and if you find it not as represented I will refund your money. The Washer retails at \$10. After I send you a sample I will hold your county a reasonable time for you to decide whether you wish to purchase or not. I will furnish blank cards, also blanks for taking orders, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or your choice of territory may be taken by someone else. Address,

J. C. TILTON, 101 Sixth St., Pittsburg, Pa.

P. S.—Cut this card out and preserve it for future reference. Persons writing me from seeing this card will please say they saw it in the Forest Republican, 9-19-74

FARMERS

Money Saved is Money Earned

The undersigned are about introducing in Western Pennsylvania the celebrated Randell Fanning Mill, Grain Separator and Grader Combined, which has attracted marked attention in the Western States wherever exhibited among the farmers. As a Fanning Mill it cannot be surpassed, and it is the only real separator and grader in the U. S.

It is simple, rapid and complete, and gives you perfect control in chaffing, separating or grading your grain.

The use of the Randell Mill will improve the condition of your grain, enhance the price from five to fifteen cents per bushel; and besides will largely increase the yield per acre, by the higher grade of seed you are enabled to obtain.

With the Randell Separator you can also clean your own Grass Seed, thus saving a large annual expense for grass seeds.

This mill works on an entire new principle as applied to Fanning Mills, and does its work to perfection.

Carriers will exhibit it during the season, when you will be able to judge for yourselves of its merits.

Do not buy until you see it work. For information, address McCLINTOCK & CO., Meadville, Pa. One or two good agents wanted in every county. 11-3m
