-The case of D. D. Williams, Cashier of the First National Bank of Conneautville, was tried last week in the U. S. District Court, at Pittsburgh, for misapplying the funds of the bank, and complicity in the robbery of the same. The best of legal talent was secured, and every effort made to clear Williams of the charges, but on Monday the Jury brought in a verdict of "guilty," on the first count of the indictment, and he was remanded to jail to await sentence. This is indeed a and case. Mr. Williams held the position of cashier of that bank from the time its was organized until he was arrested in February last, and was always looked upon as an honorable, straightforward business man. Indeed, so popular was he, that in 1870 he, although a democrat, was elected a Member of Assembly, in the strong Republican county of Crawford. Up section was more trusted and esteemed than he. But he lived beyond his means, and, according to the evidence, own private expenses. This is a lesson for all, and one which a great many must learn, to live within their means, and if they will not learn it by or later, learn it as Williams is now

-Geo. Bush, of this place, last week commenced work for M. J. Bond, of Bear Creek. On Thursday last, he was bringing a log to the mill on a car, himself riding on the log, when the track gave way, throwing George off, and the log on him, across his breast. Charles Gayetty was at once sent here for medical assistance and Dr. Blaine started imediately to see what could be done for the injured man. It was reported that both his legs and expected to live half an hour. The Dr. came back the same evening, and -Recks have not yet got their mill reported no bones broken, and that eyes nearly out of their sockets, and -Alex. Wilson has painted his they were badly bloodshot, and were

-One of the most interesting features of the county Institute in session in this city was the presentation of a beautiful gold headed cane to Sup't McClure, by a number of the teachers of the county. The cane has the fol-lowing inscription engraved upon it: Presented to Supt. McClure by a number of the teachers of Venango county, Pa., 1874." Prof. A. C. Porter, of Emlenton, Pa., made the presention speech, which was able and to the point, meriting the encomiums it re-ceived. The teachers unanimously requested a copy of the address for publication. Sup't McClure accepted the cane in few well timed remarks.— Venango Otizen.

The Prof. above referred to is "Cam." formerly of the Jacksonian, who "folded his tent like the Arab, and as silently stole away," some time since. He is a good man at an institute. Wonder if Rohrer couldn't prevail upon basket of the chiocest of his fruit. him to be present at the institute here Perhaps his spirit still clings around

-Go to the Hat Store-sign of the week, for a famous still hunt. The Big Red Hat-Tidioute, for hest asold gentleman although upward of sortment bats, caps and furs. Also seventy years of age, is about as good neckwear, underwear, hosiery and now at killing deer as the younger gloves for men, women and children, at lowest cash prices.

-At the suggestion of Capt. Grace, of Co. G, 83d P. V. a re-union of that company will be held at the Lawrence House on the 1st of January next. It is especially requested that all the surviving members of this company be present during the day, to "fight their battles over again," and enjoy for the first time in nearly ten years, the pleasures of each others company. The ladies of the members are also cor- ning last, and left on Saturday morndially invited to be present. A good brass band will be on hand, and a including banquet, speeches, etc. In the evening a grand ball will be given, and the best of music will be in attenmember of the company who lives in this vicinity, will be present.

-In all human probability, we are going to have a natural skating park this winter, which will lay over any artificial one in the country. We have dead water, from the Tionesta creek bridge to Dithridge's dam, and all the back channel, up to the old Holmes House property. If this freezes smooth, as all the juvenile portion of and one-fourth pounds for every day the community hope it will, the skat- of its existence. Can any man, or ing will be glorious. The probability any county, or any place beat this ing the greater part of the week. is strong enough, at any rate, to call for drafts on the pocket-books of the fathers of the boys about here, to procure skates with. The merchant who brings on a good assortment of skates will probably have a brisk trade from now until spring.

-The elections are over, the results announced, and everybody silent or satisfied, and we are now ready to give our readers all the local news we can get hold of. In order to facilitate matters in this direction, we would be obliged to any of our subscribers if, when any thing of generali nterest occurs in their vicinity, they would send us a short description of the same. Write on one side of the paper, never to be built several feet higher, and use a long word where a short one will answer, and write only news. A little help in this direction will add to the time of his arrest, no one in that greatly to our local columns, and make things more lively. Don't wait for neighbors to write; do it yourselves, and you will know it is rightly done.

> -By reference to notice in another column, it will be seen that the Teacher's Institute holds its annual session next week, commencing on Monday next. Supt. Robrer always takes pains to make the institute interesting, and do those in attendance the good which they are designed for. The attendance is generally good, and the exercises enteresting to teachers and others. It will be seen that Mr. Rohrer has procured the services of some gentlemen celebrated for their experience, to assist him in making the Institute a success.

-On Saturday night we were out spearing in company with some of the best spearsmen in town. Individwas interesting to notice the other felows haul them in. In spearing a fish, we learned that night, you don't want a foot or eighteen inches on one side of it, or you'll never hit a scale. Next time we'll know how to do it.

-Not having the requisite amount of time and money, immediately after the election to make the grand tour up Salt River, we have concluded to make amends so far as we can, and go up Tionesta creek, to some of the salt licks, this week, to sup sorrow and scare deer. If we happen to kill one, we assure our readers it will be an ac-

-J. P. Siggins, ex-Treasurer of this county, met with a painful accoident about two weeks ago, which has caused him considerable inconvenience. He was working on a pumping well, at Modoc, and the boiler bursted, scalding one of his legs from the knee to the hip. He bears his affliction with becoming resignation, and will soon be on his taps again.

-Mrs. C. M. Heath has our thanks for a basket of delicious apples, from the old Shriver place, where she resides. This reminds us of the old gentleman, Jacob Shriver, now gone to his rest, who used, as regularly as the fall would come, to bring us up a the old homestead.

-In S. H. Haslet's store can be seen a turnip, raised by Geo. Haslet, which weighs nine pounds, and is twenty-eight inches in circumference. It was raised about two miles up the creek, on the old Sam'l Hunter place. It is of the field variety, we believe.

-Geo. Hindman, of Whig Hill, killed a pig, or a hog, one day last week, which was seven months and one week old, which dressed 286 pounds, or lacking four pounds of one specimen?

-Those Republicans who lost bets on the late elections have all paid them as fast as called for, thereby even in their hour of defeat rebuking the Democrats, who never pretended to pay an election bet. They, however, will soon have an opportunity to follow the example set them by honest, though unfortunate Republicans.

-The Trustees of M. E. Church have concluded to follow the lead of Wm. Hunter Sr, and put a wall along the entire front of the church yard. The stone is on the ground, and workmen are cutting it preparatory to laying. The chimneys of the church are other small improvements are to be made.

-The Democratic party bave a great chance of getting into power in the national government two years hence; but in order to make that chance a certainty, they should conduct themselves with wisdom in the meantime .- St. Mary's Gazette.

"Conduct themselves with wisdom!" Now Brandon, that's asking too much. Don't get excited, just because you were successful at the late elections, and ask impossibilities. You can't get blood out of a turnip. Be reasonable. Just request them not to expose themselves, and it will be a better policy than to ask them to display what they haven't got. Verily, "they are void of wisdom though they know it not."

-Latest styles of winter hats and caps just received and for sale cheap at Robinson & Bonner's. 33tf.

-The December number of Ballou's charming magazine is issued, and corually we didn't spear any fish, but it tains such a large variety of stories and poems that its patrons will be more in love with it than ever. There are Christmas tales and verses, rich ento strike where the fish is; but about gravings of interesting localities, a thrilling sea yarn, a wild adventure. and some of the best domestic tales that ever appeared in print. Published by Thomes & Talbot, 36 Bromfield St., Boston, at \$1.60 per year, including postage and premium.

-Peterson's Magazine for December, a magnificent number, is before us, fully vindicating its claim to be "the best and cheapest." It has two superb steel plates, a mammoth colored fashion plate, and a Berlin pattern in colors that is alone worth the price of the number. "Peterson" gets better and better; and always keeps its promises. It contains, every year, 14 steel plates, 12 double-size colored fashion plates, 12 Berlin patterns, 24 pages of music, 800 wood engravings. and more than 100 original stories; and all this for only two dollars a year, the postage pre-paid by the Publisher.
