PANTHER ROCK, Dec. 14, '74. ED.FOREST REPUBLICAN-Dear Sir:

In a lite issue of your paper you explain what you know concerning the charge against the Road Commissioners in allowing Wheeler & Dusenbury \$4.75 per day for man and team on road.

[Here our correspondent gives the substance of our article on the same subject.]

I have been road commissioner in Kingsley Township for two years. In 1873 we allowed twenty cents per hour for man, and the same for team, or, in other words, four dollars per day for man and team. The price was written on each duplicate. Wm. A. Dusenbury worked his own duplicate. When presented for payment he answered the usual questions, that he had worked his duplicate out according to the rules laid down by the commissioners, and at the figures marked on duplicate. The highest price paid for team and man has been four dollars per day, and if Mr. Dusenbury got any more than that sum it was without the knowledge or consent of the commissioners, for certainly we never allowed it, knowingly. In conclusion ; Mr. Duscnbury must have a very bad memory, or he must have imagined times were much better this year than in years past, when he was charging it up at four dollars and seventy-five conts per day.

Respectfully yours, NELSON COLE.

-The following in regard to our place is taken from Prof. Curtis' letter to the M'Kenn Miner, while he was here attending the Institute :

Though Forest county has a small population, Tionesta is a pleasant borough, of several hundred inhabitants, with a fine Court House, some elegant private residences, good hotels, one Bank, a graded school, and two newspapers, and pleasantly situated on the Allegheny river. The river is crossed by an iron bridge costing nearly \$30,-000.

slaying more deer this winter than novelets, poetry, &c. This Magazine any one man we know of. Recently he was watching a crossing, when two does and two fawns came within gunshot of him, all at the same time. The Judge pointed his Winchester rifle at them, and killed the whole four without moving out of his tracks. This we consider hunting. If any one suc- gratis, if written for, to persons wishceeds in beating this record we will ing to get up clubs. We advise would like to see the Judge taken til they have seen a copy of "Peterdown a peg.

-Hunters are coming in grutabling of the poor hunting weather. There seems to be no scarcity of game, but there has really been no tracking snow, which is very necessary to still hunting. The best and oldest hunters have failed thus far, to get any game Sallie Knox, Ella Davis, Hattie Ittel, to speak of. Only those who get in a good place, get thoroughly acquainted missed a day during the term up to with it, and watch the crossings, are successful. Among those who follow this plan may be named Judge Proper and Daniel Black, each of whom have killed about a dozen deer this season.

Big Invention.

Lloyd, the famous map man, who made all the maps for General Grant and the Union army, certificates of which he published, has just invented a way of getting a relief plate from steel so as to print Lloyd's Map of American Continent-showing from ocean to ocean-op one entire sheet of bank note paper, 40x50 inches large, on a lightning press, and colored, sized and varnished for the wall so as to stand washing, and mailing anywhere in the world for 25 cents, or unvarnished for 10 cents. This map shows the whole United States and Territories in a group, from surveys to

1874, with a million places on it, such as towns, cities, villages, mountains, lakes, rivers, streams, gold mines, railway stations, &c. This map should be in every house. Send 25 cents to the Lloyd Map Company, Philadelohia, and you will get a copy by return mail.

THE PITTSBURGH GAZETTE.

Those who are arranging for their home papers for the next year, will do wisely to send for sample copies of the Pittsburgh Gazette, Daily or Weekly, as it will be seen to be the best paper published in Pittsburgh. It is the oldest, being nearly 89 years old, and has kept pace with all phases of modern newspaper progress. It is printed with new type, and on clean, white, handsome paper. Its news is specially full, and accurate. It receives cable news from Europe, and dispatches from all parts of the country. It has special correspondents in Washington, during the session of Congress, and at Harrisburg during the session of the Legislature, and will give full reports of all that is interesting in the pro-ceedings. Its local news is complete and varied, yet chaste and pure. Its pently with all the issues of the hour. of warning because we understand but holds that the party is superior to cliques and rings. Its market reports are specially full and complete, and have a reputation that is wide-spread, for accuracy and reliability. In frequent instances, parties in the country have saved or made considerable sums by following the accurate reports of prices, given in the Gazette, in selling their produce. It also contains agricultural, household, and family reading, carefully selected. Thus it is a family paper of great excellence and rare cheapness, as to price. Its circulation is the largest of the Pittsburgh press. This year the postage on pa-pers is prepaid at the Pittsburgh office, thus necessitating the addition of this item to the rates. For this reason, we present amended rates, and claim that they afford the cheapest newspaper published, when the size and quality of the paper are considered.
