LOCAL AND MISCELLANEOUS.

Announcement.

We are authorized to announce the name of George Scott as a candidate for Constable of Tionesta Boro.

We are authorized to announce the name of Henry Swaggart as a candidate for Constable of Tionesta Boro.

Bills have been sent out by M. W. Tate, Esq., for subscriptions due to the FOREST REPUBLICAN. These bills are not ours, but the company's, of whom we bought this office on January 1st, 1873. We collect our own bills.

Rev. Elliot will preach in the Presbyterian church on Sunday next, morning and evening.

FOUND.—A Fur Muffler. The loss can get it by applying at this office and paying for this notice.

The James oil well in Clarion county is the deepest well in the United States, its depth being 2,303 feet.

There is talk of a dance at the Lawrence House on the 22d inst., but we have heard nothing from official sources.

W. H. Butler wants it distinctly understood that he is not a candidate for constable; the Press to the contrary notwithstanding.

Dr. Robertson, of Cambridge, who announced through this paper that he would take up his residence in Tionesta, has concluded that he will not do so.

Davis' law office is being rushed through, notwithstanding the inclemency of the weather. It will doubtless be ready for occupancy in the course of a month.

Mrs. M. Riddle is said to be quite sick with something resembling pneumonia. Miss Kate Cobb is improving, and Mr. W. Grove is almost well again. Judge Dale improves slowly.

The stone wall in front of the M. E. Church progresses not. The severity of the weather will doubtless prevent the contractors from finishing the job until the glad spring arrives.

From the Titusville papers we learn that Gurdon S. Berry, Esq., proprietor of the Soldiers' Orphans' School of that place, is hopelessly insane. Financial troubles are said to have been the cause.

On Tuesday the morning train down, due here at 10:45, ran off the track above Jamieson's. Not much damage was done, but the mails were delayed, and the wrecking car called into action.

A fence has been built across the road between the depot and Hunter's grocery building, for the purpose, we suppose, of obliging freight to be handled by those hauling it away, in the rear of the depot.

Ferd. Weik went through the ice with his team, a few days ago, near Quil. Mong's, about two miles up the river. They got out in pretty good shape, excepting an ugly cut one of the horses received. Ferd. has a weakness for winter baths.

The following valuable agricultural hints were handed us by one who knows the wants of the country:

Now is the proper season of the year to look well to the farm and the garden, preparatory to spring. We would also remind stock raisers that now is the time to put in the Missouri receipt with regard to hogs, viz: If you have any long-nosed, hand-spike hogs of the "white oak breed," you can change them to Berkshire and Chester Whites, by simply tying the hog's head to a bent sapling; this, when unloosed, will bring the hog into a perpendicular position, his hind toes touching the ground. The farmer can then readily with a mallet (a billet of stove wood will do in a pinch) drive the snout back according to fancy, after which the hog or shoit can be killed. When dressing, be careful to leave a small lock of hair on the hams, the smoke will bleach this out yellow, and the ham will fetch several cents on the pound less than if it was trimmed in the usual way, and be less beneficial and useful to the purchaser.

On Friday last the Civil Rights bill was passed by the lower house of Congress by a vote of 162 to 100. Mr. Shanks, of Indiana, offered the following, which was taken from the Democratic platform of 1872, as a preamble to the bill:

"We recognize the equality of all men before the law, and hold that it is the duty of Government in its dealings with the people, to mete out equal and exact justice to all, of whatever nativity, race, color or persuasion, religious or political."

The Democrats generally voted for the preamble, but when it came to the bill, which was to make the sense of the preamble a law, they voted solid against it. This is an illustration of their consistency. The bill now goes back to the Senate for further consideration.

The U. S. Shipping Commissioner at New York has sent us a proposition to become one of a large party to charter a vessel and go over the ground and water which Mark Twain traversed and described in his Innocents Abroad, proposing to furnish us victuals and state room while on-board the vessel during the trip for \$1,500, stating that our expenses while on land "over there," will average about \$5 per day in gold, beside our passage money. We would enjoy the trip hugely, and would undoubtedly make one of the party, but we cannot spare the time.

A patent medicine man came in to our office one day last week, and, without solicitation on our part, proceeded to tell us of a terrible argument he had had with an editor in North East, in regard to the finances, and went on to tell us the arguments he had used, which he apparently thought were pretty good. They were old with us, however, as we had read them all some days previous. We finally told him to hire a hall, and we would come and hear him out, if he had to sit all night. He indignantly departed.

The Clarion River Navigation Company is making an effort to compromise with the lumbermen. Disinterested persons are to examine and report the actual value of the improvements made, and toll sufficient to pay for the improvements is to be collected, after which the charter is to be lifted, and the company dissolved. This seems the easiest way out of the difficulty.

P. O. Conner, of the Press, has our thanks for "helping us out," last week, during the illness of our foreman, who, by the way, is not yet on duty, which will account for any shortcomings in this issue. All our money has been spent telegraphing to the surrounding towns for help, without avail. Mr. Butler came up to our help yesterday, and we hope to get through on time.

The Spring Elections take place on Tuesday next. There is generally a caucus for town officers held at the Court House on the Saturday evening before these elections, and a full ticket nominated, after which somebody flies the track, calls another caucus, and nominates another ticket. We presume the regular programme will be carried out this year.

On Thursday evening last, a party of young folks from town, took a sleighride to Neillsburg, and had a supper and dance at Maj. Woodcock's hotel. All profess to have enjoyed themselves highly.

Mr. Thomas Petherick, of Pottsville, Pa., one of the oldest coal operators in the State, took a tour of inspection through our county last week. No report as to his convictions in regard to our coal lands escaped him, but we have no doubt but his observations will be made known "where they will do the most good," and will bear fruit in due time.

The festive woodchuck rather overdid the matter on the 2d inst. He must have seen double, or he could never have prognosticated such terribly cold weather as has been experienced since his advent. If this state of weather continues, we shall be in favor of the extermination of the whole woodchuck tribe.

The road on the other side of the river, from the Holman place to the mouth of Stewart's Run, is in a very dangerous condition. The river, however, is an excellent highway from here to President, being smooth and level. There may be some airholes in the ice, but we have heard of none.

On Wednesday last an attempt was made to break up the ice above the river bridge, by blasting. A can containing a pound and a half of powder, was put under the ice and set off, blowing a hole in the ice about five feet in diameter.

John Hart and wife have returned from a somewhat extended visit east, both seeming much benefited by their trip. Mr. Hart says they have not experienced as cold weather there by several degrees as we have here.

We publish this week a market report, made out for us by Mr. Robinson. If there are any articles that our readers would like to see quoted, we will be glad to accommodate them, if they will send us word.

Protracted meetings will be held in the M. E. Church of this place, beginning on Monday evening next, and will continue so long as may be deemed advisable by the pastor and officers of the church.

CAUTION.

A note drawn in favor of R. Shotts, signed by Geo. T. Latimer, and endorsed by R. Shotts, for \$119.60, dated sometime in October, 1874, has been lost. All persons are hereby warned not to buy or negotiate said note. The finder will please leave it with G. T. Latimer, Tionesta, Pa. 39tf

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of this world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease as well as a Tonic, relieving Congestion of the Liver and Visceral Organs in Bilious Diseases.

The properties of Dr. Walker's VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Diuretic, Febrifuge, Stimulant, Sudorific, Alterative, and Blood Purifier.

Grateful thousands proclaim VINEGAR BITTERS to be the most wonderful Laxative that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Rappahock, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Stomach, Constipation, Tightness of the Chest, Palpitation, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Pain in the Lungs, Pain in the region of the kidneys, and a hundred other painful ailments, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrophula, or King's Evil, Yaws, Eruptions, Itch, Erysipelas, Scald Head, Gout, Rheumatism, Inflammation, Lumbago, Inflammation of the Stomach, Uterine Affections, &c. &c. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Liver, Kidneys and Bladder, these Bitters have no equal. Such diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Typographers, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blisters, Spots, Pimples, Pustules, Itch, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Piles, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no cathartics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
