LOCAL AND MISCELLANEOUS.

Bills have been sent out by M. W. Tate, Esq., for subscriptions due to the FOREST REPUBLICAN. These bills are not ours, but the company's.

Rev. Lusber will preach in the M. E. Church on next Sunday morning. Union Sabbath School at 10:00 a. m.

Dr. Blaine has for sale two horses, a buck-board, single harness, saddle, &c. To a good purchaser time will be given.

The Clarion Republican says that slab on the jail in that place cost \$270 instead of \$500. We accept the amendment.

A subscriber at Eau Claire, Butler Co., sends us a correct solution of the horse problem which we published a few weeks ago.

Hon. S. Newton Pettis of Meadville, and Mr. A. H. Steele of Titusville, were in town on Monday and Tuesday last, on business.

G. W. Robinson was called to Reynoldsville, on Monday last, by a telegram announcing that his father was very ill, and was not expected to recover.

Maple sugar is on sale at some of our stores at present, but none of this year's make, we believe. The fresh sugar will probably be on sale in a week or ten days.

Hard coal is still a scarcity in this market. Nearly everybody is out of this very necessary article, and are burning wood and soft coal in their hard coal stoves.

We would call attention to the programme of the School Exhibition, published in another column. It is to be hoped that parents and all others who take an interest in our schools will make it a point to be present.

We have been told that Mr. J. K. Shadman, Principal of the high school of this place, will be a candidate for Superintendent of Schools for next term. Mr. S. holds a professional certificate from the County Superintendent of Cambria County.

Some sly talking is being done about having a spelling school in town charging a small admission fee, and donating the proceeds to some charitable purpose. Something of this kind is needed just now to properly usher in the Spring.

A well was struck in Warren on Friday night, by one David Beatty, which well flowed above the top of the derrick for some time. It was quiet at last accounts, but was expected to flow again soon. If this opens up another big piece of good oil territory, then look out for 40 ct. oil again.

Lots of thunder and lightning on Sunday, which was made the basis of lots of prophecies that we would have some more cold weather; and now that we have a young winter again this morning, said prophecies are so proud that they sit around the stove and hug themselves, and brag about their foreknowledge of the weather.

TIONESTA, March 10, '75.

Mr. Editor:—Henry is one-fifth as old as his father, and in 25 years he will be three-fifths as old; what is the age of each.

The following is the only correct solution for questions of this description:

By the first condition of the question, 5 times Henry's age equals his father's age, and in 25 years 5 times Henry's age, now, plus 25 years will equal Henry's age; but Henry's age at that time is 2/5 of his father's age; hence his father's age is 5/2 of his age, and 1/2 times (Henry's age, now, plus 25 years) which is 1/2 times Henry's age now plus 12 1/2 years equals 5 times Henry's age, now, plus 25 years. Then, 5 times Henry's age, now, minus 1/2 times Henry's age now, must equal the difference between 12 1/2 years, and 25 years. Hence 9/10 times Henry's age, now, equals 12 1/2 years and his age, now, is 1 2/3 of 12 1/2 years, which is 5 years, and his father's age 5 times as much or 25 years.

Whoever gives this solution is welcome to his ticket.

J. K. SHADMAN.

[The answer to the above problem, and the work we have received from Miss Ellen Carney, Mr. P. M. Clark and Master Harlem Adams, but neither contains the solution above prescribed.—Ed.]

The following in regard to our Representative in the Legislature, we take from the Harrisburg Telegraph of Wednesday last, where it is published under the head of "Representative Law-Makers, as seen from a Reporter's Desk."

J. B. Agnew, Esq., Representative from Forest county, has had but two month's experience as a legislator. Short, however, as is that time, he has not been a silent member; and from the short speeches we have seen him volunteer our impression is that he will be a member of some activity from inclination. He possesses a clear understanding and much coolness and self-possession. His mind is not remarkable for its vigor; but his judgment may in most cases be confidently relied on. The distinguishing feature of his mind is its practical good sense. As a speaker he is one of the most unequal in the House. Those who hear him at one time will often have difficulty in persuading themselves it is the same person when hearing him at another time. His matter is always clear. Not only do the ideas he means to express stand forth distinctly and in their proper order in his own mind, but the dullest comprehension cannot fail to perceive them. It is often otherwise as regards his manner of expressing himself. Though sometimes as clear, smooth and natural as it were possible for man to be, he is at others confused, hesitating for want of proper terms, then recalling them and afterwards supplying their places with others scarcely less unhappy. To be sure, there is excuse for this, as first efforts at speaking in a legislative body very often disconcert even the most experienced speakers.

Mr. Agnew's ideas are generally good, though there is nothing original or profound in them. He always takes the common-sense view of a subject, and employs those arguments in favor of it which would naturally occur to a man of sound understanding who applied his mind to the question. He makes use of no tropes or figures, and never attempts oratory. He contents himself with humbler aims; he is satisfied if he has convinced the House that his is the right view of the subject without troubling himself as to what opinion is formed of the speech.

This is followed by a description of his personal appearance, &c., which is so well known in this county that we do not deem it necessary to reproduce it.

Among the bills pending at Harrisburg, which are being discussed before the House and Senate, are the following, which are of general importance: 1st. A bill in which it is proposed to stay all writs of execution for the collection of debts for one year from the passage of the act. This is meeting with a great deal of opposition. It is in its nature a relief act.

2d. A bill to abolish the tax on professions, and occupations, and in lieu thereof an enactment to lay a per capita tax of 50 cents on every citizen or voter.

3d. The act to allow criminals to testify in their own behalf.

The "tidal wave" of lobbying seems to have reached Harrisburg, and the closing hours of the Legislature are likely to be as lively as in any year heretofore, notwithstanding the supposed mollifying influence of the Constitution.

A bill has passed the House appropriating \$150,000 to the building of the Insane Asylum at Warren.

Andy Johnson denies that he bought his way into the United States Senate, and with refreshing frankness gives as the principal reason why he did not do so, that since he lost his money in the Jay Cooke failure, he has not had enough to buy the place and power at the "usual" rates.

On Sunday the rain descended at intervals all day, and much anxiety was felt because of the numerous gorges in the river, and because the ice had not yet gone out of the creek. A violent flood was anticipated, but is not now feared. The ice is still, at this writing, unbroken in the creek.

Sheridan will continue at New Orleans until the difficulties there are finally settled by the adoption of the pending compromise. It is stated that the people generally favor the compromise, only a few of the rabid politicians opposing it. Sheridan's course is fully approved by the President.

"The Prophet," Hyren, has gone from our gaze, "like a beautiful dream," not, however, without leaving his benediction in the shape of a communication in last week's Press. We are well rid of him, and, as he says he will not come back until he is sent for, we shall doubtless never look upon his countenance again. So mote it be.

The gorge above Tidioute appears to have been broken yesterday morning, as at about 5 o'clock a. m. the river began to rise rapidly, and the ice ran past this place until about 9 o'clock a. m., the river being covered with it continually. The indications are that "nothing nor nobody," was hurt, for which everybody is devoutly thankful.

A review of the Forty-Third Congress—of its work, its failures, and success, the acts passed, and its close on the 4th of March, is given in the three leading papers in the Republic Magazine for March. It contains also fifteen or sixteen well prepared papers on the current topics of the day, including a twenty-page article on the origin and results of the great rebellion. The historical papers in the March number are the "Shays" and "Anti-Rent" rebellions of 1786 and 1839, and the election of Salmon P. Chase to the United States Senate in 1848. The Republic is the best political publication in the United States. It is a neatly printed monthly, issued at only \$2.00 a year, by the "Republic Publishing Company," Washington, D. C.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California; the medicinal properties of which are extracted therefrom without the use of Alcohol. This question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the grand blood purifier and life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Constipation, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Serofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Scrofula, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever nature or origin, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. A system of medicine, no vernacular, no salubrious will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
