### LOCAL AND MISCELLANEOUS.

-Bills have been sent out by M W. Tate, Esq., for subscriptions due te the FOREST REPUBLICAN. These bills are not ours, but the company's, of whom we bought this office on Janmary 1st, 1873. We collect our own

-Rev. Elliot will preach in the Presbyterian church on Sunday next, morning and evening.

### -The Fisher House for Rent.

-Another fall of snow last night, the advance of oil. and a slight drizzling rain this moruing. Winter tarries.

-Mr. Carpenter yesterday suggested a raid on the woodchucks as the surest method of bringing on spring.

-Election of officers of Tionesta Lodge, No. 369, takes place on Friday evening next. A full attendance is desirable.

-The hens are doing nobly just now, and eggs are quite plenty in this market. Together with ham, they are quite a popular dish at present.

-On other streams of our State the bridges have suffered to a great etxent, but we have not heard of a bridge being taken away on the Allegheny.

-Prepare to Paper! is the cry. And in this connection we wish to say that Mr. Robinson has a stock of wall pabottom prices.

however, they are not first-class. The reign of mud will soon be here, and after that the house-cleaning.

-Several new buildings are talked of, to be put up during the coming summer. Let them come. There is hardly a vacant house in town for rent at present, and it is time some were put up.

-We learn that a Mr. Coleman, of Stewart's Run lost two barns, by fire, on Wednesday last. The barns contained a large amount of hay, grain and farming utensils. We are without particulars.

-Extensive robberies have been perpetrated round about us this winter. but we have heard of nothing more extensive than a little coal and a few chickens having been stolen in town. A moral community is this.

-The lumber is on the ground for an addition to the main part of the Forest House, said addition to be the same style and height of the present building and the dimensions to be 24x36. Business is flourishing up in that end of town;

-The frame of Samuel Clark's house, on his lot just north of the Rural House, is up, and the building will undoubtedly be ready for occupation soon. We believe it is to be occupied he will spend next winter at Harrisburg by Mr. W. West, as a residence and again. We published his character as

harness shop. -Gold closed yesterday evening, in New York, at 116. The rise in gold is attributed to the fact that the Secretary of the Treasury has signified his intention of calling in several millions The lumber is to be sawed here, and of 5-20 bonds, paying the face of the shipped to that point, where it will be same in gold.

### Fire in Tidioute.

A fire broke out, on Monday morning last at about 4 o'clock, in John Siggios' Store in Tidioute, and so furiously did it burn, that nine buildings were destroyed before it was controlled. The following are the losses so far as we can learn:

John Siggius lost all his stock, which was mostly new, as he had just returned from the east a few days before, bringing with him a large stock of fresh goods.

Allen & Thompson, Attorneys at Law and Insurance Agents Jost all their books, papers and furniture.

A. Simon, clothing store and residence, in one building, across the street leading to the depot, lost nearly

Dunn & Culver lost their entire stock of groceries and provisions.

A. J. Thompson & Co.'s coal office, and Mr. T.'s residence, in the same building, was destroyed, though the greater portion of the contents were saved.

The building occupied by D. C. Gillespie as a boot and shoe store was destroyed, but Mr. G. saved the greater portion of his goods.

J. Weible's gentlemen's furnishing store was burned out. We have not learned whether he succeeded in saving any of his goods. H. Chaffey's store, and a residence

in same building, was burned. Fuelbart's meat market and a small clothing store were destroyed.

Green's saloon was slightly damged, but the fire was checked at this point.

The loss in estimated at about \$90. 000; insured for about \$25,000.

This is a terrible disaster to Tid-When oil was up Tidioute was one of the best business points in the region. and it only waited for oil to bring a fair price to become again a thriving city. Whether the burnt district will ever

Western Correspondence.

LONE ROCK, RICHLAND Co., WIS., March 16, 1875. ED. FOREST REPUBLICAN:-

you a short sketch of this part of the Northwest, I will state that the past winter has been the most severe ever known to the white settlers. During January last, mercury congealed five times during one week, and our spirit thermometers marked fifty-two degrees below zero. From a record kept of the position of the mercury for seventy-three days preceding March 1st, 1875, during forty of those days the thermometer has averaged 27 degrees below zero, and the remaining thirtythree made an average of 8 degrees above. The snow at the present date is nearly two feet deep. On Spring Green Prairie, some places snow can be found to the depth of ten feet. Lone Rock is situated in the Wisconsin River Valley, forty miles from its mouth, where it empties into the Mississippi River. Generally, out here on the prairies, we are visited by Western winds which makes it very pleasant in summer. Wisconsin has never yet been troubled with the great western scourge, namely, the grasshopper; 'nor have they as yet ever visited any territory east of the Mississippi river. Corn is the principal crop here, of which fifty bushels per acre is an average yield, yet some raise as high as one hundred bushels per acre. Hops are very extensively cultivated, and I believe that the Wisconsin hops command as high prices in the Eastern markets as any. Fifteen hundred pounds per acre is considered an average yield. On Big Bear Valley, some ten miles north of this, dairying is very extenioute, and is universally mourned. sively carried on, and the milk of several thousand cows is used in the manufacture of cheese of a superior quality. H. L. Eaton, State Senator, owns a factory that turns out over two tons of choice cheese per week during be rebuilt, will probubly depend on grass season.
