Bad language easily runs into bad deeds. Select any society you please; suffer yourself to converse in its dia-lect, to use its slang, to speak in the character of one who relishes it, and I need not tell how soon your moral sense will lower down to its level. Becoming intimate with it, you lose your horror of it. To be too much with bad men and bad places, is not only unwholesome to a man's morality, bat unfavorable to his faith and trust in God. It is not every man who could live as Lot did in Sodom, and then be fit to go out of it under God's convoy. This obvious principle, of itself, fur-nishes a reason not only for watching the tongue, but for keeping ourselves as much as possible out of the company of bad associates.

A paper in that State says the mean-est man in Michigan is a constable in Marquette, who levied on an old lady's chickens, and after running them down one at a time, sat down and fig-ured how far he had run and charged millage mileage.
