-Peterson's Magazine (the Lady's National) is already on our table for September, and is an unusually fine number, even of this popular periodical. The principal cograving is a beautiful steel plate, "The Little Marauders," after a picture by Bougereau, the great French artist. The doublesized, colored, steel fashion-plate gives the early fall styles, all very elegant; and is beautiful even as a picture. The price of "Peterson's" is only two dollars a year, postage pre-paid ; and to clubs it is even lower; the publishor claims it is the cheapest and best lady's book in the world. Address Chas J.
