Time of Trains

At TIONESTA STATION, on and after May 24, 1875:

Table with 2 columns: Train No. and Time. Rows for SOUTH and NORTH directions.

On the River Division, a. c. from OHIO City to Irwin, up the river is North; down the river, south.

LOCAL AND MISCELLANEOUS.

The little bridge just north of J. S. Hood's residence is in a dangerous condition, offering a fine opportunity for some horse to break a leg.

Indians with bows and arrows for sale, passed through our place last week. Several of the towns juveniles are now making it lively for the little birds.

No tramps here as yet, and nobody feeling sorry that such is the case. Should they "take us in," they will undoubtedly meet with a warm reception.

Our correspondents fluctuate. We have not heard from any of them within the county limits for some time. If you have any news to write, just send in your contributions.

To-day opens up bright and beautiful. Looks like Indian summer. There will be no end of squirrels bought in before evening, as almost everybody will be out with guns.

Chestnutting is growing in favor with those who are industrious enough to club a tree half a day for a quart of chestnuts. There will not be a big chestnut trade in this section this fall.

The prisoner, Michael—who has been in the jail for several weeks past, has been adjudged insane, and is to be sent to Dixmont. He is evidently insane, but appears harmless.

The miners at Shenandoah are making it lively for the inhabitants of that section. Two men were shot and one had his throat cut on Saturday. Grape and cannister are badly needed there.

"Condignity" is a word which J. J. M. makes use of in Monday's Derrick, because the butter, at the boarding house which he patronizes, happens to be strong. He should receive condign punishment.

S. H. Haslet killed a fine buck, in the woods on Monday last, with that new gun of his. We had the pleasure of tasting a few slices of that same, and must say that we never ate nicer venison. Tally one for Haslet.

Croquet is dead; at least that in the rear of the Central House is no more. It died of "Pedro," whatever that may be. We believe the patrons of the former game concluded there was too much bodily exertion about it.

Petitions asking for regular passenger trains on the River Division of the O. C. & A. R. Ry., are in circulation here, and are receiving numerous signatures. Whether they will fetch the trains, is a question; but we live in hopes.

M. Einstein, has gone on a pilgrimage to the City of Brotherly Love, to examine the Centennial buildings, and see that they are properly constructed. It is also probable that he will visit his brother who lives in New York.

OHIO!

The news in this morning's papers afford no clue to the result of yesterday's election in Ohio. In forty-five precincts heard from the Republicans had gained 600 votes. We have tried in vain to get the returns up to noon to-day. There appears to be nothing passing over the wires.

This morning's papers contain news of the death of Attorney General Dimmick, of this State. The following announcement of the sad event is from the pen of the Governor:

EXECUTIVE CHAMBER,

HARRISBURG, Pa., Oct. 12th. To the people of the Commonwealth of Pennsylvania:

It is with profound sorrow that I make official announcement of the death of Hon. Samuel E. Dimmick, Attorney General of this Commonwealth, which took place in this city last evening. The high tone of his public life, the talents and the private virtues of this distinguished man will be his enduring memorial to the hearts of the people of Pennsylvania. Out of respect to his eminent services, the several departments of the Government will be draped in mourning for the period of thirty days, and closed on Friday, October 15th, when his funeral will take place.

—[Hon. J. A. Dale has this season raised about a half-ton of grapes on a couple of little strips of ground that do not interfere with his gardening. According to this exhibit, grapes are profitable crops. But it isn't everybody who understands their culture as well as the Judge. His corn, potatoes, and nearly an acre of beets, have turned out splendidly. He and Col. Thomas are about the best farmers we know of in this section.

—In another place in this issue will be found a notice of the Teachers' Institute of Forest county, which convenes in Tionesta on Monday next. Supt. Brockway is busily engaged in getting all things in readiness, and has engaged prominent instructors to assist him during the week. If the weather is pleasant, we have no doubt but the Institute will be largely attended, and prove a success in every particular.

—S. H. Haslet, one of the most successful deer-hunters of this section, has purchased himself a new gun, a Winchester Improved, which shoots sixteen times, and weighs, with cartridges in, nine and one-half pounds. If that gun is not paid for in deer hides before the season is over we'll miss our guess. Mr. Haslet also has an ambition to shoot a few bears this winter, and we do not doubt but he will succeed in so doing.

—Sheriff Van Giesen, while hunting, on Wednesday last, met with an accident which is the occasion of his staying in the house at present, and probably will be for some days to come. Traveling briskly through the woods he stepped on a log which proved to be rotten, and let him down, running a pine knot into his left leg a few inches above the knee. An ugly wound was the result. He hopes to be about again in a few days.

—Saturday was a day which witnessed a diminution of the deer tribe about here. Ben. Fleisher caught a fawn and Jim. Graham cut its throat. Mr. Gunning, ye pedagogue, shot a fawn in the woods, and Charles Hinton killed a large buck with a stone. We understand that there was another buck swam the river just below town, but was not secured. Mr. Gunning has our thanks for a liberal portion of his kill.

—Derickson & Co. have a business local in to-day's issue, which will be important to those who are out of work and money. Workmen are busy preparing stone work for the machinery in the building in the rear of the Lawrence House, and the stove mill will soon be in motion. This will benefit our town, and supply work for several who are now idle.

—Some of our amateur thieves got away with upward of half a dozen fine citrons, a few nights ago. When they came to eat them they found they weren't the watermelons they intended to steal. Look out, boys, the penitentiaries are nearly full now, and you are educating yourselves to occupy some of their cells.

—Crops were generally good in this county, excepting fruit. The potato yield is probably heavier this fall than ever before. Apples and cider, however, are short. The latter will be sadly missed during these long winter evenings.

—Snow, not a large quantity, but still, snow—fell in Monday, much to the disgust of those who have not yet laid in their winter's fuel. If everybody was wealthy, wouldn't Florida just be crowded within the next two months?

—As nearly as can now be guessed, there will be no preaching in town next Sabbath. We are somewhat guarded in our language, because the last time we advertised no services, the pulpits of both churches were occupied.

—We see no agile anglers with rod in hand, endeavoring to entice numbers of the funny tribe from the placid waters of the Allegheny, nor yet from the turbid waves of Dithridge's pond. We fear that the fisherman's sport is finished for this season.

—A squirrel hunt,—a friendly contest between two parties, is talked of, to come off on Saturday next. All interested in this subject, are requested to meet at the Lawrence House tomorrow (Thursday) evening, at 7 o'clock, to arrange preliminaries.

—Col. Reisinger, editor and proprietor of the Meadville Republican, was in town on Monday evening, leaving on Tuesday morning. He was on his way east, where he proposes to buy a new power press for his office, to accommodate his increasing business.

—The past week has been rough on squirrels and pheasants in this neck of woods, and it is hard to find a man or boy who has not given some time to hunting them. The game is not plenty enough to make it a drug in the market, however, but nearly every one gets a little.

—Buckwheat, that old three-cornered grain which conduces to heat, longevity and the scratches, has made its appearance in the shape of flour, and now nearly everybody is indulging in flap-jacks. Fresh pork is very much esteemed taken in connection with the same.

—Wild geese were observed flying south, on Monday, which is undoubtedly a sign of cold weather—if any one is dumb enough to need a sign. It is the opinion of weather-prophets that this flock was merely on a wild goose chase, and that we will yet have warm weather.

—Grove & Sons are busily engaged constructing stump machines, for which they say they receive orders faster than the can manufacture them. This is only partially the old machine; a great many improvements having been made upon it during the past season, for which they have applied for patents.

—The Derrick of Saturday contains an item which would lead one to infer that Col. Thomas was a prominent oil man. If the people wish to vote for an actual producer, and one who has given his whole attention for years to that business, they must vote for W. P. Finley, Republican candidate for State Senator.

—The November number of Ballou's Magazine appears in new type and with many new features. It is a popular magazine and enjoys a large circulation; but it should be in the hands of every family in the country, for it is just what is wanted in a household. The January number will commence the publication of a new serial story by M. Quad, of the Detroit Free Press, one of the most popular and humorous writers in the country. His court scenes are read by every one, and most of the fun and frolic which now appears in the paper are from his pen. Published by Thomas & Talbot, 23 Hawley St., Boston, at \$1.50 per year, postage paid.

—The Republic Magazine, for October, is full of valuable political material. The article by Judge Lawrence, of Ohio, The People's Nation—the Union Perpetual, will command wide attention. It places the States Rights heresy in a strong light, and advances proof to show that it had no respectable following in our early history. A Manufacturing South; and The Free South—Ordeal of Emancipation, are thoughtful articles, containing a great amount of rich material for others to build upon. Democratic Rule in Georgia; Finance and Politics; Carpet-Baggers, North and South; High and Low Tariffs; What Democracy has cost the South; are among the many able articles which make the October number one of the best yet issued. The Republic is published at Washington, D. C. Send \$2.00 to Republic Publishing Company, and obtain the Magazine for one year.

—We enclose to-day a supplement, with political matter which, owing to the small size of our paper, we are unable to put into our columns. We invite the attention of our readers thereto, and desire them to give it a careful perusal. Facts which cannot be successfully controverted, enough to convince all who are looking for light, appear in a shape at once enlightening and convincing.

MONEY.

—We will pay cash on delivery at our mill in Tionesta, for white oak stave and heading bolts at the following prices:

Stave bolts, 35 inches long, per cord of 8 ft. by 4 ft., \$1.50. Heading bolts 22 inches long, per cord of 8 ft. by 4 ft., \$4.00. Heading bolts must be made from timber at least 20 inch in diameter. Office at Lawrence House. J. H. DERICKSON & Co. 27 1/2

Teachers' Annual Institute.

The Ninth Annual Institute of Forest county, will be held at Tionesta, commencing on Monday, October 18, at 2 o'clock P. M., and continue in session five days.

All teachers, school directors and friends of education are respectfully invited to attend.

Prof. C. A. Gilbert, Principal of Reid Institute, Reidsburg, Pa., will be with us during the greater part of the week and give instruction on methods of teaching, with practical suggestions in conducting the general exercises of the school room, and night lectures.

Superintendent W. H. Curtis, of McKean county, will be present during the entire session, and will give instructions in Elocution, English Grammar, Geography, Arithmetic, and in other branches.

S. D. Irwin Esq., will deliver a lecture on "Local Geology," during the session.

No pains will be spared to make the session both pleasant and profitable. Teachers are requested to make all necessary arrangements to give full and prompt attendance. Let no ordinary circumstances keep you away, but come prepared to take part in the exercises.

The committee on Permanent Certificates will be elected on Wednesday afternoon.

Directors Day on Thursday, 21st. An examination will be held on Saturday, Oct. 23d, commencing at 9 o'clock A. M. H. S. BROCKWAY, Sept. 20, 1875. Co. Supt.

READ THIS VERY CAREFULLY.

DR. CRUMB, established for many years in Buffalo, by an entirely new system of medication, treats successfully Catarrh, Bronchitis, and Diseases of the Lungs, Liver and Kidneys, also Difficulties of a Constitutional Nature, wherein skill and experience are required. Dr. Crumb has developed a practice which from its unparalleled success in thousands of cases, many of a very aggravated character, is able to positively guarantee a perfect and permanent cure in every case he undertakes. He sends no Circulars or Treatises on these diseases to his patients, as it is undeniable that such knowledge is in general extremely prejudicial, exercising an injurious effect by relaxing and frequently counteracting a cure, tending to alarm the patient, which is the principal object of such productions, and excites and exaggerates his fears as to the curability of his complaint. The Doctor requires simply a brief history of the case and a candid plain statement of present symptoms—a thorough examination will then be made, and if considered remediable—a sincere, conscientious opinion will be given promptly and such medicine as will be applicable will be sent by express, accompanied by full and explicit directions. Charges very moderate and within the reach of all, and success guaranteed. Such cases as have failed under other treatment particularly desired. All letters must enclose \$1.00 for consultation fee and correspondence during treatment, and addressed to DR. W. R. CRUMB, 102 Pearl St., Buffalo, N. Y. 26 1/2

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious. Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Vigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In this treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Serofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Incontinent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Rheumatism and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Disease of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itch, Scald, Pimples, Pastilles, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Herpetic, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Cleanse the blood pure, and the health of the system will follow.
