-Elm St. is now passable by way of Council Run bridge. The culvert is not finished, but part of it has been made passable. The job of stonework looks solid.

-Mrs. L R. Freeman is visiting friends in Maryland at present. Before she returns she contemplates a visit to the sea-shore and a somewhat extended stay at the Centennial Exhibition. We believe her husband is to join her in a few days.

Lacylown Correspondence. DACYTOWN, June 16, 1876. ED. REPUBLICAN :-

-The summer school opened last week with good attendance ; Miss Salady is the teacher. It is to be regretted that many of the children living on this side of the creek are compelled to miss, on account of danger in cross-

ing the pond. -That bad piece of road by the

thing that croquet players and teamsters will appreciate: -Report has had Jim Forman sore-

ly afflicted of late,-small pox, scarlet fever and measles being the ills. These developed into a common heat rash. and Jim laughs at the fright he occasioned.

-Mrs. Legnard, Mrs. Sharp and Mrs. Blaine, accompanied by Mr. H. H. May and Lawyer Lathy, visited Lacytown yesterday; they were the guests of Mr. Arner.

-Mrs. G. D. Ackerly and her little daughter, Mabel, return home to-morrow.

-Every few days we hear complaints of the bad condition of the road from Tionesta here. Wonder if the commissioners are sleeping! if so, we hope they take foot races over them in their dreams.

-We have not heard of any rattlesnakes being killed near here this season. This is unusual for such warm weather.

I DE CLARE.

-A little rise in the creek on Saturday night last caused some stir among the lumbermen, but we believe there was not much run out. Chas. lumber out into the river and tied them up. Time was when June floods were as reliable as our regular spring floods, and large quantities of lumber were floated to Pittsburgh at this time of year. But that time is past, on account, the lumbermen say, of the timber having been taken off the banks of the river and large tributaries.

-Now brush your pees; also your progeny, when they need it. Likewise apply paris green, arsenic, strychnine and prussic acid to your potato bugs. Moreover devote your spare moments in the evening to the dextrous use of the hoe. Further see that your setting hens attend strictly to business

and do not eat their eggs, and hire a small boy to keep your neighbors chickens out of your garden, and then, if nothing happens you will have something to eat during the cool weather between October and April next.

-Scribner's Monthly for July has the following list of contents: The roy, chapters XLIV-XLVIII.: To Allegheny Valley Rail Road Lines and Connections.

The Allegheny Valley Rail Road has projected a series of Excursions at very low rates, which offer extraordinary attractions to the Centennial pilgrim.

These Excursions embrace an extended tour of the most noteworthy portions of the American Continent, a trip to the highest navigated waters in the United States, Lake Chautauqua, whose salubrious air and lovely scenery, hunting parks, and game fish, make it a favorite popular resort ; and a visit to the most notable sights in the world-Niagara Falls and the Centennial.

It will be seen by the following summary, that the journey as a whole, will prove one of vivid interest, varied incident, and diversified sight seeing. The tour of the marvelious Oil Belt, Pituzesque Chautauqua Highlands, and Central New York; a daylight Excussion by the Hudson floating palaces through the romantic Catskills, the scenery of the most charming legenus; from the metropolis to the Centennial, through the garden lands of New Jersey, and a jaunt of unexampled interest over the Allegheny Mountains. One of the most instructive and interesting diversions to the visitor, will be an inspection of the wonderful industrial works of Pittsburgh, the great iron, glass, steel and coal mart of America.

making things look more neat, but not quitely so romantic.

-Mr. S. C. Sloan and family have moved to Edenburg, starting this morning. Mr. S. proposes to engage lively around there. The family have the best wishes of friends here for their success in their undertakings.

-The Fourth of July fever is simmering. Every night the soul-stirring music of the fife and drum enlivens she darkness. We have enough of a dozen celebrations, and yet it will all probably be called into requisition for the grand blow-out here.

-Invitations have been issued for a grand party at the Lawrence House on the evening of July 4th. The best of music will be furnished, and the refreshments will be first-class. This will be Mr. Lawrence's last effort in -those who "trip the light fantastic" should be on hand.

-When we issued our paper last week, we considered Geo. Sawyer nearly well he being up and around. Directly afterward, however, he was again laid up, and has suffered severely since. His sickness is the result of a spider bite, and the result is a hard lump on the right side of his neck, which it was at one time thought would gather and break. It has not . done so, and George is again on the streats, but is looking badly. He lost twenty-five pounds of flesh in ten days, which is cutting a man down pretty fast. It will probably be some time before he is able to do his usual & C's. amount of manual labor.
