HARD PAN PRICES.

Only One Price for Cash, and a low one.

NO DEVIATION.

We give no discounts.

We pay no agents' commissions, which
double the prices of all Pianos.

We look to the People, who want a first-
class Piano at a fair profit over cost of
manufacture. We appoint the People our
agents, and give them our Pianos as low
as any agent can buy equally good Pianos
of any other manufacturer, giving the
People, in a reduced price, what is usually
expended in commissions, rent, freight,
traveling and incidental expenses.

The "Mendelssohn" Piano Co. can sell
you a 7 1/2 octave rosewood case Piano, 6 feet
10 inches long, with front round corners,
carved legs, serpentine and plinth mould-
ings, with improvements, including

Full Iron Frame,

Over Strung Bass,

Agraffe Treble and

French Grand Action,

which only accompany the best Pianos of

the most celebrated makers, at the very

low price of \$250, \$275 or \$300, according
to style of case, or with four round cor-
ners and full agraffe for \$350, and guaran-
tee them in every respect equal to any
Piano made of similar style, or no sale.

The "Mendelssohn" Piano is manufac-
tured from the very best materials, and
by the most skilled and finished work-
men. The manufacture is conducted by
one of the most experienced Piano man-
ufacturers in the country. This is no new
enterprise, turning out a poor and cheap
Piano, made from green wood, and by
greener mechanics.

Our Piano is unsurpassed by any in the
market for its rich and powerful tones,
and its adaptation to the human voice in
sympathetic, mellow and singing qualities.
It speaks for itself.

We are willing to place it beside any
other make of Piano on its merits, either
in beauty of case, or excellence of tone,
and "at half the money" of equally good
instruments.

"The best the cheapest"
When it costs the least money.

All Pianos fully warranted for five years.

All wanting Fruit Farms, especially ad-
apted to the growth of the Vine, where it
is an established success and pays large
profit. The land is also adapted to the
growth of Peaches, Pears, Apples and
small fruits; also Grain, Grass and Veg-
etables.

Many hundred of excellent Vineyards,
Orchards and Farms, can now be seen.

The location is only 34 miles south of
Philadelphia, by Railroad, in a mild, de-
lightful climate, and at the very doors of
the New York and Philadelphia Markets.
Another Railroad runs direct to New
York.

The place is already large, successful
and prosperous. Churches, Schools, and
other privileges are already established.

Also, manufactories of Shoes, Clothing,
Glass, Straw Goods, and other things, at
which different members of a family can
procure employment.

It has been a health resort for some
years past for people suffering from pul-
monary affections, Catarrh, Ague, and de-
bility; many thousands have entirely re-
covered.

A new brick hotel has just been com-
pleted, 100 feet front, with back buildings,
four stories high, including French roof,
and all modern improvements for the ac-
commodation of visitors.

Price of Farm Land \$25.00 per acre,
payable in installments, within the period of
four years. In this climate, planted out
to vines, 20 acres of land will count fully
as much as 100 acres further north.

Persons unacquainted with fruit grow-
ing can become familiar with it in a short
time on account of surroundings.

Five acres, one acre, and town lots, in
the towns of Landisville and Vineland,
also for sale.

Whilst visiting the Centennial Exhi-
bition, Vineland can be visited at small ex-
pense.

A paper containing full information,
will be sent upon application to CHARLES
K. LANDIS, Vineland, N. J., free of cost.

The following is an extract from a de-
scription of Vineland, published in the
New York Tribune, by the well-known
Agriculturist, Solon Robinson:

All the farmers were of the "well-to-do"
sort, and some of them, who have turned
their attention to fruits and market gar-
dening, have grown rich. The soil is loam,
varying from sandy to clayey, and surface
gently undulating, intersected with small
streams and occasional wet meadows, in
which deposits of peat or muck are stored,
sufficient to fertilize the whole upland sur-
face, after it has been exhausted of its
natural fertility.

It is certainly one of the most extensive
fertile tracts, in an almost level position,
and suitable condition for pleasant farm-
ing, that we know of this side of the West-
ern prairies. We found some of the oldest
farms apparently just as profitably pro-
ductive as when first cleared of forest
fifty or a hundred years ago.

The geologist would soon discover the
cause of this continued fertility. The
whole country is a marine deposit, and all
through the soil we found evidences of
calcareous substances, generally in the
form of indurated calcareous marl, show-
ing many distinct forms of ancient shells,
of the tertiary formation; and this marly
substance is scattered all through the soil,
in a very comminuted form, and in the
exact condition most easily assimilated
by such plants as the farmer desires to
cultivate.

SIDDALL'S

MAGNETIC SOAP

The Cheapest Soap that can be used for
the following reasons:

1st.—One bar will go as far as two of any
other.

2d.—Only half the usual rubbing being
required, there is a saving of more
than the entire cost of the Soap in
labor alone.

3d.—The clothes are made Sweet, Clean
and white without Boiling or Scald-
ing, thus all injury to them is avoid-
ed. There is a saving in fuel and
hard work, and the washing is done
in about half the usual time.

It is also guaranteed under a penalty of
fifty dollars not to injure the clothes or
hands, and as one trial will enable any
person to ascertain the truth of these
statements, it would never pay the pro-
prietor to engage in an extensive system
of advertising and claim such decided
merit for his Soap unless he knew from
positive experience that it would prove to
be in every respect what is claimed for it.
This is also a superior Soap for Toilet
and Shaving purposes.

APPLETON'S
AMERICAN CYCLOPEDIA.

NEW REVISED EDITION.

ENTIRELY REWRITTEN BY THE
ABLEST WRITERS ON
EVERY SUBJECT.

Printed from New Type, and Illustrated
with several Thousand En-
gravings and Maps.

The work originally published under the
title of THE NEW AMERICAN CYCLO-
PEDIA was completed in 1903, since
which time, the wide circulation which it
has attained in all parts of the United
States, and the signal developments which
have taken place in every branch of
science, literature, and art, have induced
the editors and publishers to submit it to
an exact and thorough revision, and to
issue a new edition entitled

THE AMERICAN CYCLOPEDIA.

Within the last ten years the progress of
discovery in every department of knowl-
edge has made a new work of reference as
imperative want.

The movement of political affairs has
kept pace with the discoveries of science,
and their fruitful application to the indus-
trial and useful arts and the convenience
and refinement of social life. Great wars
and consequent revolutions have occurred,
involving national changes of peculiar
moment. The civil war of our own coun-
try, which was at its height when the last
volume of the old work appeared, has hap-
pily been ended, and a new course of com-
mercial and industrial activity has been
commenced. Large accessions to our

GEOGRAPHICAL KNOWLEDGE

Have been made by the indefatigable ex-
plorers of Africa.

The great political revolutions of the
last decade, with the natural result of the
 lapse of time, have brought into public
view a multitude of new men, whose
names are in every one's mouth, and of
whose lives every one is curious to know
the particulars. Great battles have been
fought and important sieges maintained,
of which the details are as yet preserved
only in the newspapers or in the transient
publications of the day, but which ought
now to take their place in

PERMANENT AND AUTHENTIC HISTORY.

In preparing the present edition for the
press, it has accordingly been the aim of the
editors to bring down the information to
the latest possible dates, and to furnish an
accurate account of the most recent dis-
coveries in science, of every fresh produc-
tion in literature, and of the newest inven-
tions in the practical arts, as well as to
give a succinct and original record of the
progress of

POLITICAL AND HISTORICAL EVENTS.

The work has been begun after long and
careful preliminary labor, and with the
most ample resources for carrying it on to
a successful termination.

None of the original stereotype plates
have been used, but every page has been
PRINTED ON NEW TYPE.

Forming in fact a new Cyclopaedia, with
the same plan and compass as its prede-
cessor, but with a far greater pecuniary
expenditure, and with such improvements
in its composition as have been suggested
by longer experience and enlarged knowl-
edge.

THE ILLUSTRATIONS

which are introduced for the first time in
the present edition have been added not
for the sake of pictorial effect, but to give
greater lucidity and force to the explana-
tions in the text. They embrace all
branches of science and of natural history,
and depict the most famous and remark-
able features of scenery, architecture, and
art, as well as the various processes of
mechanics and manufactures. Although
intended for instruction rather than em-
bellishment, no pains have been spared to
insure their

ARTISTIC EXCELLENCE.

The cost of their execution is enormous,
and it is believed they will find a welcome
reception as an admirable feature of the
Cyclopaedia, and worthy of its high char-
acter.

This work is sold to subscribers only,
possible on delivery of each volume. It
will be complete in Sixteen Large Octavo
Volumes, each containing about 800 pages,
fully illustrated with several thousand
Wood Engravings, and with numerous
colored Lithographic Maps.
