FOUND.

DURING our experience of the past six months, in the **GROCERY, PROVISION, FLOUR & FEED** Business in Tionesta, we have found the old maxim

"MONEY

saved is money earned," a true one, and that we have saved the people of the borough and surrounding country a considerable amount.

Having had a long experience in the wholesale business, we have peculiar facilities for buying from first hands, which enables us to offer extra inducements to Cash Buyers, and having adopted the true system of doing business for

CASH

only, we can sell goods for a much less profit, in fact, competing with prices in any of the cities in the State.

In thanking the citizens for liberal patronage in the past, we announce our removal from the Fisher store, to the pleasant location known as the

ACOMB BUILDING,

(immediately south of the Company Store) where, in consideration of the continued depression in the times, have again lowered our prices, believing that goods should not be sold at war prices, where the opportunities to make money are so much less.

In future our store will be kept open until 9 P. M., for the mutual benefit of the general public and ourselves.

HARD PAN PRICES.

Only One Price for Cash, and a low one.

NO DEVIATION.

We give no discounts.

We pay no agents' commissions, which double the price of all Pianos.

We look to the People, who want a first-class Piano at a fair profit over cost of manufacture. We appoint the People our agents, and give them our Pianos as low as any agent can buy equally good Pianos of any other manufacturer, giving the People, in a reduced price, what is usually expended in commissions, rent, freight, traveling and incidental expenses.

The "Mendelssohn" Piano Co. can sell you a 7 1/2 octave squarewood case Piano, 6 feet 10 inches long, with front round corners, carved legs, serpentine and plinth mouldings, with improvements, including

Full Iron Frame,
Over Strung Bass,
Agraffe Treble, and
French Grand Action,

which only accompany the best Pianos of the most celebrated makers, at the very low price of \$250, \$275 or \$300, according to style of case, or with four round corners and full agraffe for \$350, and guarantee them in every respect equal to any Piano made of similar style or no sale.

The "Mendelssohn" Piano is manufactured from the very best materials, and by the most skilled and finished workmen. The manufacture is conducted by one of the most experienced Piano manufacturers in the country. This is no new enterprise, turning out a poor and cheap piano, made from green wood, and by greener mechanics.

Our Piano is unsurpassed by any in the market for its rich and powerful tones, and its adaptation to the human voice in sympathetic, mellow and singing qualities. It speaks for itself.

We are willing to place it beside any other make of Piano on its merits, either in beauty of case, or excellence of tone, and "at half the money" of equally good instruments.

"The best the cheapest" -
When it costs the least money.

All Pianos fully warranted for five years. Send for our Illustrated and Descriptive Circular.

CHANGE YOUR SURROUNDINGS.

All wanting Fruit Farms, especially adapted to the growth of the Vine, where it is an established success and pays large profit. The land is also adapted to the growth of Peaches, Pears, Apples and small fruits; also Grain, Grass and Vegetables.

Many hundred of excellent Vineyards, Orchards and Farms, can now be seen. The location is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.

The place is already large, successful and prosperous. Churches, Schools, and other buildings are already established. Also, manufactures of Shoes, Clothing, Glass, Straw Goods, and other things, at which different members of a family can procure employment.

It has been a health resort for some years past for people suffering from pulmonary affections, Catarrh, Ague, and debility; many thousands have entirely recovered.

A new brick hotel has just been completed, 100 feet front, with back buildings, four stories high, including French roof, and all modern improvements for the accommodation of visitors.

Price of Farm Land \$25.00 per acre, payable in installments, within the period of four years. In this climate, planted out to vines, 20 acres of land will cost fully as much as 100 acres farther north.

Persons unacquainted with fruit growing can become familiar with it in a short time on account of surroundings.

Five acre, one acre, and town lots, in the towns of Landisville and Vineland, also for sale.

Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense.

A paper containing full information, will be sent upon application to CHARLES K. LANDIS, Vineland, N. J., free of cost.

The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:

"All the farmers raise of the 'well to do' sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows in which deposits of peat or muck are stored, sufficient to fertilize the whole inland surface, after it has been exhausted of its natural fertility.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate.

SIDDALL'S

MAGNETIC SOAP

The Cheapest Soap that can be used for the following reasons:

1st.-One bar will go as far as two of any other.

2d.-Only half the usual rubbing being required, there is a saving of more than the entire cost of the soap in laboriousness.

3d.-The clothes are made Sweet, Clean and white without Boiling or Soaking, thus all injury to them is avoided. There is a saving in fuel and hard work, and the washing is done in about half the usual time.

It is also guaranteed under a penalty of fifty dollars not to injure the clothes or hands, and as one trial will enable any person to ascertain the truth of these statements, it would never pay the proprietor to engage in an extensive system of advertising and claim such decided merit for his Soap unless he knew from positive experience that it would prove to be in every respect what is claimed for it.

This is also a superior Soap for Toilet and shaving purposes.

APPLETON'S AMERICAN CYCLOPEDIA.

NEW REVISED EDITION.

ENTIRELY REWRITTEN BY THE ABLEST WRITERS ON EVERY SUBJECT.

Printed from New Type, and Illustrated with several thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1863, since which time, the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled

THE AMERICAN CYCLOPEDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

GEOGRAPHICAL KNOWLEDGE

Have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one
