

There has been a separation between an uptown lover and his sweetheart. She presented him with her photograph, which he, on his bended knees, swore he would always wear next to his heart. Last Sunday evening he pulled out his handkerchief from his back pants pocket, when lo! the photograph fell at his lady's feet. She says he is either a liar or else his heart is not in the right place.

The Burlington, Vt., Free Press is responsible for the assertion that there are large quantities of Fenian arms and equipments stowed away in the northern part of the State in hogheads and boxes, in barns and other hiding places, in charge of Irish farmers along the frontier.

A little girl in Lewistown, Mo., was ordered by her stepmother to wear gloves to school as a means of curing her of biting her nails. The child returned home barehanded, and the stepmother not only replaced the gloves but sewed them fast to the flesh at the wrists.

There is an office in Paris where articles found and taken to be restored to their owners. They are daily registered by clerks, one of whom was lately heard to call off three umbrellas, one watch, two rings, one pair of boots, and five babies.

Tombs threaten to start a newspaper. His dream of calling the roll of his slaves at the foot of Bunker Hill Monument seems to have faded "into the infinite azure of the past," but his "cussedness" is going to keep to be buried with him.

The natives of northern India were greatly alarmed the other day, by what was supposed to be a large meteoric stone, shooting eastward with terrific velocity, but it afterwards transpired that it was only Dom Pedro on his way to China.

A North Carolina farmer, to catch the thieves who had been stealing his meat, put some strychnine on one of the hams in his smoke-house. He had forgotten which one, and the whole family dare not touch one of 150 hams.

About fifty missing letters were found recently in an old pump at Washington, having been slipped in by a mistake for a letter box. Doubtless the senders thought their missives had gone up the spout long ago.

"I say, ma," exclaimed a little mix of thirteen, "do you know what the pyrotechnical remedy is for a crying infant?" "Gracious goodness me, no; I never heard of such a thing!" "Well, ma it's a rocket."

"Pray, Mr. Professor, what is a periphrasis?" "Madame, it is simply a circumlocutory cycle of oratorical sonorosity, circumscribing an atom of ideality, lost in verbal profundity."

Said an old man to a young gamester: "Do you want me to tell you the best throw you can make with those dice?" "Yes," was the eager reply. "Throw them away," said the old man.

Susan Fletcher Smith, an American lady has bequeathed her body for dissection to the Royal College of Surgeons, London, only asking that women students shall have the first chance.

Byron wrote: "How sweet to hear the watch dog's honest bark!" From which we infer that Byron never attended a midnight soiree in a farmer's mellow patch.

Juvenile soliloquy: "I wonder what makes ma say she's not at home when Billy Donne's mother calls, and then send me to bed without my supper when I tell a lie?"

Every year a Georgia farmer cultivates a distinct piece of cotton, which he calls his "preacher patch," because the avails of the crop go to the support of his minister.

A young man in Jersey City was urged to marry, but he replied: "I don't see it. My father was a single man, and he always got along well enough."

"If there is no moonlight will you meet me by gaslight, dearest Julian-na?" asked he. "No, Augustus, I won't, I am no gas-meter," replied she.

Now, verily, the ulster creepeth out its summer coffin, and shaketh off the chips and cayenne pepper, and rouseth itself to a sense of its importance.

Patriot, lamenting his late better half, said, "Och, she was a jewel of a wife. She always struck me with the soft end of the mop."

It is not generally known that Maj. Andre's remains were taken from America and interred in Westminster Abbey in 1821.

When Job said, "My wife is swifter than a post," he probably meant a gate post, as that is always fast—to the fence.

An Irishman was once asked why he wore his stockings inside out: "Because there is a hole in the other side," he replied.

HARD PAN PRICES.
Only One Price for Cash, and a low one.
NO DEVIATION.

We give no discounts.
We pay no agents' commissions, which double the prices of all Pianos.
We look to the People, who want a first-class Piano at a fair profit over cost of manufacture. We appoint the People our agents, and give them our Pianos as low as any agent can buy equally good Pianos of any other manufacturer, giving the People, in a reduced price, what is usually expended in commissions, rent, freight, traveling and incidental expenses.

The "Mendelssohn" Piano Co. can sell you a 7 1/2 octave rosewood case Piano, 6 feet 10 inches long, with front round corners, carved legs, serpentine and plinth mouldings, with improvements, including Full Iron Frame, Over Strung Bass, Agraffe Treble, and French Grand Action,

which only accompany the best Pianos of the most celebrated makers, at the very low price of \$225, \$275 or \$300, according to style of case, or with four round corners and full agraffe for \$350, and guarantee them in every respect equal to any Piano made of similar style, or no sale.

The "Mendelssohn" Piano is manufactured from the very best materials, and by the most skilled and finished workmen. The manufacture is conducted by one of the most experienced Piano manufacturers in the country. This is no new enterprise, turning out a poor and cheap piano, made from green wood, and by greener mechanics.

Our Piano is unsurpassed by any in the market for its rich and powerful tones, and its adaptation to the human voice in sympathetic, mellow and singing qualities. It speaks for itself.

We are willing to place it beside any other make of Piano on its merits, either in beauty of case, or excellence of tone, and "at half the money" of equally good instruments.

"The best the cheapest!"
When it costs the least money.
All Pianos fully warranted for five years.

All wanting Fruit Farms, especially adapted to the growth of the Vine, where it is an established success and pays large profit. The land is also adapted to the growth of Peaches, Pears, Apples and small fruits; also Grain, Grass and Vegetables.

Many hundred of excellent Vineyard, Orchards and Farms, can now be seen. The location is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.

The place is already large, successful and prosperous. Churches, Schools, and other privileges are already established. Also, manufactories of Shoes, Clothing, Glass, Straw Goods, and other things, at which different members of a family can procure employment.

It has been a health resort for some years past for people suffering from pulmonary affections, Catarrh, Ague, and debility; many thousands have entirely recovered.

A new brick hotel has just been completed, 100 feet front, with back buildings, four stories high, including French roof, and all modern improvements for the accommodation of visitors.

Price of Farm Land \$25.00 per acre, payable in installments, within the period of four years. In this climate, planted out to vines, 20 acres of land will put fully as much as 100 acres further north.

Persons unacquainted with fruit growing can become familiar with it in a short time on account of surroundings.

Five acre, one acre, and town lots, in the towns of Landisville and Vineland, also for sale.

Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense.

A paper containing full information, will be sent upon application to CHARLES K. LANDIS, Vineland, N. J., free of cost. The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:

All the farmers were of the "well to do" sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows in which deposits of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fertility.

SIDDALL'S
MAGNETIC SOAP

The Cheapest Soap that can be used for the following reasons:

1st.—One bar will go as far as two of any other.
2d.—Only half the usual rubbing being required, there is a saving of more than the entire cost of the Soap in labor alone.

3d.—The clothes are made Sweet, Clean and white without Boiling or Scalding, thus all injury to them is avoided. There is a saving in fuel and hard work, and the washing is done in about half the usual time.

It is also guaranteed under a penalty of fifty dollars not to injure the clothes or hands, and as one trial will enable any person to ascertain the truth of these statements, it would never pay the proprietor to engage in an extensive system of advertising and claim such decided merit for his Soap unless he knew from positive experience that it would prove to be in every respect what is claimed for it.

This is also a superior Soap for Toilet and Shaving purposes.

APPLETON'S
AMERICAN CYCLOPEDIA
NEW REVISED EDITION.
ENTIRELY REWRITTEN BY THE ABLEST WRITERS ON EVERY SUBJECT.

Printed from New Type, and Illustrated with several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1865, at which time, the wide circulation which has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled

THE AMERICAN CYCLOPEDIA.
Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts, and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

GEOGRAPHICAL KNOWLEDGE
Have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in

PERMANENT AND AUTHENTIC HISTORY.
In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down their information to the latest possible date, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

POLITICAL AND HISTORICAL EVENTS.
The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been PRINTED ON NEW TYPE.

Forming in fact a new Cyclopaedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

THE ILLUSTRATIONS
which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and display the most famous and remarkable features of scenery, processes of art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their

ARTISTIC EXCELLENCE.
The cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be complete in *Seventeen Large Octavo Volumes*, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

Price and Style of Binding:
In extra Cloth, per volume - \$5 00
In Library Leather, per vol. - 6 00
