

Hall, it appears that he turned up just where I located him all along. "I told you so."
MAXWELL.

Marshall Hall's Method.

1st. Treat the patient *instantly on the spot, in the open air, freely exposing the face, neck, and chest to the breeze, except in severe weather.*

2d. In order to clear the throat, place the patient gently on the face, with one wrist under the forehead, that all fluid, and the tongue itself, may fall forward, and leave the entrance into the windpipe free.

3d. To excite respiration, turn the patient slightly on his side, and apply some irritating or stimulating agent to the nostrils, as *Veratrine, dilute Ammonia, etc.*

4th. Make the face warm by brisk friction; then dash cold water upon it.

5th. If not successful, lose no time; but, to imitate respiration, place the patient on his face, and turn the body gently, but completely on the side, and a little beyond; then again on the face and so on, alternately. Repeat these movements deliberately, and perseveringly, fifteen times only in a minute.

6th. When the patient lies on the thorax, this cavity is compressed by the weight of the body, and expiration takes place. When he is turned on the side, this pressure is removed, and inspiration occurs.

7th. Rub the limbs upward, with firm pressure and with energy. The object being to aid the return of venous blood to the heart.

8th. Substitute for the patient's wet clothing, if possible, such other covering as can be instantly procured, each bystander supplying a coat or cloak, etc. Meantime, and from time to time, to excite inspiration, let the surface of the body be stepped briskly with the hand.

9th. Rub the body briskly till it is dry and warm, then dash cold water upon it, and repeat the rubbing.

AVOID the immediate removal of the patient, as it involves a dangerous loss of time—also, the use of bellows, or any forcing instrument; also, the warm bath, and all rough treatment.

JOB WORK of all kinds done at this office on short notice.

FOUND. DURING our experience of the past six months, in the **GROCERY, FLOUR, FLOUR & FEED** business in Tinesta, we have found the old maxim

"MONEY saved is money earned," a true one, and that we have seen a people of the borough and surrounding country a considerable amount.

Having had a long experience in the wholesale business, we have peculiar facilities for buying from first hands, which enables us to offer extra inducements to Cash Buyers, and having adopted the true system of doing business for

CASH only, we can sell goods for a much less profit, in fact, competing with prices in any of the cities in the State.

In thanking the citizens for liberal patronage in the past, we announce our removal from the Fish store, to the pleasant location known as the

ACOMB BUILDING, (immediately south of the Company Store) where, in consideration of the continued depression in the times, have again lowered our prices, believing that goods should not be sold at war prices, where the opportunities to make money are so much less.

In future our store will be kept open until 9 P. M., for the mutual benefit of the general public and ourselves.
