FOREST COUNTY OFFICERS.

President Judge—L. D. WETMORE, Associate Judges—JOS. G. DALE, EDWARD FERR...

LOCAL AND MISCELLANEOUS.

NOTICE.

There will be a meeting of the Republican County Committee at the Arbitration Room in the Court House...

Rev. Elliot will preach in the Presbyterian Church, on Sunday next, morning and evening.

The Grand Lodge of Odd Fellows of this State will meet in Erie on the 15th inst.

If anybody wants a new double-barrel Remington breech-loading shotgun, below cost, let him speak now.

Benj. W., son of Mr. H. H. May, returned home from his school at Andover, Mass., yesterday.

M. Einstein has gone to New York and Philadelphia on business.

Jas. Furman, of Elk City was in town on Monday looking around.

A daily paper has been started at Edenburg, by Mr. J. M. Gifford, publisher of the Herald.

A slight fall of snow occurred yesterday morning, to the dismay of all our early gardeners who have all their early "garden sass" in and up.

The wildest kind of wild-cattling is going on at present. Rigs are up and wells going down in nearly every county in the western part of this State.

We notice by the Republican that there is loud talk of establishing an oil exchange in Meadville.

The departure of fifty-four families from Scranton for the far West on the 19th ult., was the occasion for a demonstration such as has not been witnessed in Scranton since the stirring scenes characteristic of the civil war.

Prof. G. Adolphus Weber, whom all our citizens will remember, and who went back to the Fatherland some two years ago, has returned to the Land of the Free.

The Game Law of 1877.

Black bass may be taken any time with rod, hook and line.

Wild ducks may be killed any time. Wood and summer ducks may be killed any time from October 1 to January 1.

Fish can not be taken with any set net, fish basket, pound net, gill net, or anything in the nature of seines in any waters of the State, except tidal waters, with gill nets whose meshes are under three inches, under a penalty of \$25.

There shall be no fishing or hunting on Sunday under a penalty of \$25. Grouse, partridge or pheasant may be killed from October 1 to January 1.

Hare and rabbits may be killed from October 15 to December 15. Plover may be killed from August 15 to January 1.

Quail may be killed from October 25 to December 15. Squirrels may be killed from July 1 to January 1.

Speckled trout may be taken from April 1 to August 1. Woodcock may be killed from July 4 to January 1.

Lake trout may be taken from March 1 to December 1. We haven't seen a string of trout for two or three weeks.

The trout fever is spasmodic in its action, more particularly when the fish are scarce. Ex-President Grant and family will sail for Europe on the 15th inst.

We hope he won't get mixed up in the war between Russia and Turkey. Several sets of the New American Cyclopaedia were delivered in town yesterday by the agency of Mr. Jos. Clary.

This is a work which every one who is able to buy should possess. The extension of the Emlenton & Shippenville railroad to Clarion seems to be a fixed fact.

The building of the road from Edenburg to Clarion, including a bridge across the Clarion river, has been let, and the company expects to have the road completed by the 10th of September.

This will be a good thing for Clarion. The war in the East, it seems has actually begun. An engagement is reported to have taken place between some of the forces of Russia and Turkey on Thursday last.

In which the Russians were driven back with a loss of about 800 men. From the tone of eastern dispatches there is every reason to believe that this war must inevitably draw other powers into the conflict.

If so we may expect a long and bloody struggle. Black Hills emigration continues brisk. The arrivals at Sioux City are from fifty to seventy-five daily.

Mr. D. E. Davenport, of New York, has contracted to build 75 miles of the Covington, Columbus and Black Hills Railroad this season.

which will extend the road to O'Neill City. Other sections will soon be let to contractors, insuring the building of the road 150 miles west of Ponca before next winter, and to the Black Hills within eighteen months.

Judge Jenks with his usual promptitude has looked sharply after the constable's returns at this term of court. One result of his previous care in this matter is the return of no less than eighteen persons from Elk City alone, for violations of the liquor law.

In fact all the townships have made fair returns, which adds materially to the list of Commonwealth cases. A most excellent judge. May he continue the good work of justice so well begun.—Clarion Republican.

By the Greeley (Col.) Tribune, of the 25th ult., we notice that Mr. Chas. L. Hanna, for several years a resident of this county, has been appointed sheep inspector for Weld County, that State.

Treasurer Setley proposes to visit the various townships of the county for the purpose of collecting taxes. The times and places are advertised in to-day's paper.

Andy Weller is moving into the house at the east end of the bridge. He informs us that Jno. Hulings proposes to occupy the house he is leaving shortly.

Mrs. Dewees, who has been stopping with her parents in town since last fall, left for Pittsburgh yesterday, where her husband, Col. Dewees has a contract on the Connellysville Railroad.

Prit. Agnew has moved into the house at the other end of the creek bridge, heretofore occupied by Wm. Hood. The latter has moved into the Robb house a mile or more up the creek.

The nineteenth regular session of the Northwestern District Convention, I. O. G. T. of Pennsylvania, will convene, pursuant to adjournment, in the city of Titusville, on Tuesday, May 15th, 1877, at 11 o'clock a. m.

Alex. Wilson, of the boat "Venture," which is anchored over along-side Dithridge's Mill, builds a very superior skiff, and if any of our readers wish to invest in a good boat, they should give him a call.

A silly young lady of Titusville got enraged because the man she expected to marry didn't come up to the scratch, and in revenge married a colored waiter at the Parshall House. Her parents are very respectable people.

Mr. Ross Freeman returned from the West last week, bringing with him a couple of prairie dogs, which are curiosities in this part of the country. Mr. F.'s father whom he went to see, was very much improved in health and came east with him as far as Indianapolis.

Three tramps called at our office on Friday last "to get some exchanges to read." They were hard-looking customers, but they believe in the old saying that "he who runs may read." There is an ordinance in force here in regard to tramps, but we believe it wasn't enforced last Friday.

The machinery for Derickson & Co's new saw mill, at Tylersburg passed through town on Friday last. It is the purpose of this firm to put up a good mill, pay good prices for bolts, make good staves and get good prices for them. They have contracted for a large amount of bolts in that vicinity.

On Wednesday last Judge Jenks sentenced a man to a certain term in the Clarion jail. When the man heard the sentence, he seemed to think it was funny, and so burst out laughing. That laugh cost him ten days additional in jail. It is not wise to provoke the Court when it has your liberty or freedom in its hands.

Mr. J. T. Dale arrived home from Pittsburgh on Friday last, and informs us that when he came up he observed the steamer Iron City, stuck on Pithole Riffle. We are not informed whether she has yet been got off. Should the boat be obliged to wait for high water it will prove a dear trip to the owners.

At Knox's mill, on Wednesday last, Prit. Agnew got one of his hands too near the saw and got the flesh torn somewhat. No bones injured, we believe, but he is carrying that hand very carefully in a sling and will probably not be ready to take his usual place in the mill for a few weeks to come.

An Allegheny merchant has put up a sign: "In God we trust; all others cash." This is a safe way of doing business, but when laborers get only about a dollar a day, and are obliged to pay \$12 per barrel for flour, and \$1.25 to \$1.50 per bushel for potatoes, it is going to be hard for him to make ends meet, if the merchants trust only their maker.

There appears to be a gang of highwaymen in the neighborhood of Elk City. We hear of one Mr. Long, a resident of that place, who, while going from that place to the Stone Church, one evening recently, was attacked by three men, struck on the head with a bludgeon, his skull fractured, and his pocket-book, containing upward of thirty dollars, taken. One Cummings was also attacked and robbed of twenty-five dollars. Vigilance Committees are in order.

A big lot of Cane Fishing Rods just received, at Robinson & Bonner's.

Finding of the Body of P. P. Bliss.

CLEVELAND, April 29. On Friday last a party of sportsmen of this city, while gunning along the lake shore at Euclid village, ten miles east of here, found a dead body of a man on the beach. The head was burned on the back, one leg broken and the other had a large flesh wound. The head was perfect and covered with black hair and the face with whiskers. There was no clothing on the body.

LATER.

CLEVELAND, April 30. Henry W. Stager, of the Lake Shore Railroad, and D. W. Whittle went down to Euclid this afternoon on a special engine and had the body thought to be the remains of P. P. Bliss disinterred. The body is not that of Mr. Bliss. The corpse is that of a man about five feet eight inches high, thick set and in appearance a German.

White, smooth and soft any lady's hands, arms or neck may become, who uses Glenn's Sulphur Soap. Pimples or other disfigurements of a complexional nature, are surely obliterated by this healthful promoter of beauty.

Persons unacquainted with fruit growing can become familiar with it in a short time on account of surrounding. Five acre, one acre, and four lots, in the towns of Landisville and Vineland, also for sale.

Whilst visiting the Centennial Exhibition, Vineland, visited at small expense. A paper containing full information, will be sent upon application to CHAS. K. LANDIS, Vineland, N. J., free of cost.

The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:

All the farms are of the "well-to-do" sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of manure are stored, sufficient to fertilize the whole plant surface, after it has been exhausted of its natural fertility.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies.

We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous shells, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate.
