An independent little Canadian school-marm snubbed one of her big school-marm snubbed one of her big schoolars who tried to make love to her, and because he retalisted by disturbing the school she gave him a sound flogging. His parents sued her and recovered \$3.50 damages. The next day the girl opened school by saying:

"I have whinped a booby soundly, day the girl opened school by saying:

"I have whipped a booby soundly, which pleasure cost only \$3.50. Now, if any of my scholars are inclined to imitate him they will have the kindness to step forward, receive the money and the flogging, and then we will go on with our studies. I am here to instruct you, not to be courted." She retains the school and is the rost popular girl in town.

The manufacture is consumed fine most experienced Piano manufacturers in the country. This is no new enterprise, turning out a poor and cheap piano, made from green wood, and by greener mechanics.

Our Piano is unsurpassed by any in the market for its rich and powerful tones, and its adaptation to the human voice in sympathetic, mellow and singing qualities. It speaks for itself.

We are willing to place it beside any other make of Piano on its merits, either in beauty of case, or excellence of tone, and "at half the money" of equally good instruments.

The other day a resident of Cass avenue hired a boy to carry in a ton of coal and he forgot to make a bargain, and when the job had been completed he inquired :

"Well, bub, how much do I owe you?"

"Oh, I dunno." "Can't you name a sum."

"I could I s'pose," said the led, "but mother said if I left it to you, I'd get twice as much as the job was worth."

He received enough to convince him that truth always pays.

A tramp stopped at the house of Philip Harris, in Coleraine, Lancaster county, Pa., and was given something to eat. Noticing that John Harris, aged eighteen, was blind in one eye, he told him to cut a sour apple in two and rub the cut edge on the eye. The young man did as he was told and regained his sight. He had not been able to see out of the eye for seven years.

tomed to receive dainty bits from the mouth of its mistress. One day it perched, as usual, upon her shoulder, and inserted its beak between her lips, not, as it proved, to receive, but (as one good turn deserves another) the grateful bird dropped an immense mouth of its mistress. One day it grateful bird dropped an immense

Five nere, one acre, and town lots, in the towns of Landisville and Vineland, also for sale.

Whilst visiting the Centennial Exhibition, Vineland can be visited at small expresses.

A paper containing full information, will be sent upon application to CHRLES K. LANDIS, Vineland, N. J., free of cost. The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:

All the farmers were of the "well to do" sort, and some of them, who have turned their attention to fruits and market gard-

An Irish hod-carrier at work on a mailding, was complaining of his hard of. Said he: "If I thought I'd have carry a hod in heaven, I'd tie a big done around my neck and jump into the middle of the sea, and I'd stay there as long as I lived."

An exchange asks: "What is the farmers were of the "well to do sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is leam, varying from sandy to clayer, and surface gently undulating, intersected with small streams and occasional wet meadows in which deposts of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fortility.

It is certainly one of the most extensive It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole cauntry is a marine deposit, and all through the soil we found evidences of calcarcous substances, generally in the form of indurated calcarcous mari, showing many distinct forms of ancient shells,

'ud last a man a lifetime."

He who cannot feel the humanity of neighbor, because he is different a himself in education, habits, opinion, circumstances, is unfit if not unsupposed in the form of indurated calcareous mark, showing many distinct forms of ancient shells, of the testiary formation; and this marky substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimmilated by such plants as the farmer designs to collivate.

SIDDALLS

MAGNETIC SOAP

The Cheapest Soap that can be used for the following reasons:

1st. One bar will go as far as two of any other.

2d .- Only half the usual rubbing being required, there is a saving of more than the entire cost of the Soap in labor slope.

3d,-The clothes are made Sweet, Clean and white without Boiling or Scalding, thus all injury to them is a void-ed. There is a saving in fact and hard work, and the washing is done in about half the usual time.

It is also guaranteed under a ponalty of fifty dollars not to injure the clothes or hands, and as one trial will enable any person to ascertain the truth of these statements, it would never pay the pro-prietor to angage in an extensive system of advertising and claim such decided merit for his soap unless he knew from positive experience that it would prove to be in every respect what is claimed for it. This is also a superior Soap for Todlet. and Shaving purposes.

JOR WORK neatly executed at the RE-

APPLIBTON'S

ENTIRELY REWRIPTEN BY THE

ABLEST WRITERS ON EVERY SUBJECT. Printed from New Type, and illustrated with several Thousand Engravings and Mays.

The work originally published under the title of THE NEW AMERICAN CYCLO-PAGDIA was completed in 1863, since which time, the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thosough revision, and to issue a new edition entitled

THE AMERICAN CYCLOPÆDIA.

Within the last tenevous the progressor discovery in every department of knowledge has made a new work of reference to imperative want,

The movement of political affairs has The movement of political affairs has kept pace with the discoveries of science, and their fruish application to the industrial and useful arts and the convenience and refinement of seesal life. Oftent ward and consequent revolutions have occurred, involving uniform elunges of peculiar moment. The civil war of our two country, which was at its height when the last volume of the old werk appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

GEOGRAPHICAL ENGWLEDGE

Have been made by the indefatigable ex-

plorers of Africa.

The great political revolutions of the last itemic, with the natural result of the lapac of time, have brought into public view a multipacte of new men, whose names are in every one's mouth, and of who a lives overy one is curious to know the particulars. Great battles have been fought and important sloges maintained, of which the details are no yet preserved only in the newspapers or in the transient publications of the day, but which eught new to take their place in

PERHANENT AND AUTHENTIC HISTORY.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh preduction in Ilterature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

POLITICAL AND HISTORICAL RYEKTE.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination. None of the original stereotype plates have been used, but every page has been

PRINTED ON NEW TYPE, Forming in fact a new Cyclopadia, with the same plan and compass as its prede-cessor, but with a far greater pecuniary expenditure, and with subfilm prougments

in its composition as have been suggested by anger experience and enlarged knewl-edge. THE ILLUSTRATIONS

which are introduced for the first time in which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater in edity and force to the explana-tions in the text. They embrace all branches of science and of natural history, Grand Organ art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than equality and respectively. bellishment, no pains have been spared to

insure their

ARTISTIC EXCELLENCE. The east of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of its high char-acter.

This work is said to subscribers only, payable on delivery of each volume. It will be complete in Sisteen Large Octavo Volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous

colored Lithographic Maps, Price and Style of Binding:

In extra Cloth, per volume - 85 co In Library Leather, per vol. - 6 co Ir half Turkey moroeco, per vol. - 7 co In half Russia extra gilt, per vol. - 5 co In full moroeco, inhique, gilt edges per vol. - 10 co In full Russia, per vol. 10 co

Succeeding volumes, unfil completion, will be issued once in two months. Cyclopedia, showing type, illustrations, etc., will be sent graits on application. First-Class Conpussing Agenta Wanted.

TIFTEEN VOLUMES NOW READY.
