**"MENDELSSOHN" PIANO CO.**  
 HARD PAN PRICES.

Only One Price for Cash, and a low one.  
 NO DEVIATION.

We give no discounts.  
 We pay no agents' commissions, which double the prices of all Pianos.  
 We look to the People, who want a first-class Piano at a fair price, as our only agents, and give them our Pianos as low as any agent can buy equally good Pianos of any other manufacturer, giving the People in a reduced price, what is usually expected in commissions, rent, freight, traveling and incidental expenses.  
 The "Mendelssohn" Piano Co. can sell you a 7 1/2 octave rosewood case Piano, 6 feet 10 inches long, with front round corners, carved legs, serpentine and plinth mouldings, with improvements, including Full Iron Frame, Over-String Bass, and

French Grand Action, which only accompany the best Pianos of the most celebrated makers, at the very low price of \$250, \$275 or \$300, according to style of case, with four round corners and full agraffe for \$350, and guarantee them in every respect equal to any Piano made of similar style, or no sale.  
 The "Mendelssohn" Piano is manufactured from the very best materials, and by the most skilled and finished workmen. The manufacture is conducted by one of the most experienced Piano manufacturers in the country. This is no new enterprise, turning out a poor and cheap piano, made from green wood, and by crooked mechanics.  
 Our Piano is unsurpassed by any in the market for its rich and powerful tones, and its adaptation to the human voice in sympathetic, mellow and singing qualities. It speaks for itself.  
 We are willing to place it beside any other make of Piano on its merits, either in beauty of case, or excellence of tone, and "let the money" of equally good instruments.

**CHANGE YOUR SURROUNDINGS.**  
 All wanting Fruit Farms, especially adapted to the growth of the Vine, where it is an established success and pays large profit. The land is also adapted to the growth of Peaches, Pears, Apples, and small fruits; also Grain, Grass and Vegetables.  
 Many hundred of excellent Vineyard, Orchards and Farms, can now be seen.  
 This location is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.  
 The place is already large, successful and prosperous. Churches, Schools, and other privileges are already established. Also, manufactures of Shoes, Clothing, Hats, Straw, and other things, at which different members of a family can procure employment.  
 It has been a health resort for some years past for people suffering from pulmonary affections, Catarrh, Acute, and debility; many thousands have entirely recovered.  
 A new brick hotel has just been completed, 100 feet front, with back and high, four stories high, including French roof, and all modern improvements for the accommodation of visitors.  
 Price of Farm Land \$25.00 per acre, payable in installments, within the period of four years. In this climate, planted out to vines, 20 acres of land will count fully as much as 100 acres further north.  
 Persons unacquainted with fruit growing can become familiar with it in a short time on account of surroundings.  
 Five acres, one acre, and town lots, in the town of Landisville and Vineland, also for sale.  
 Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense.  
 A paper containing full information, will be sent upon application to CHARLES K. LANIER, Vineland, N. J., free of cost.  
 The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:  
 "All the farmers were of the 'well to do' sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is light, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fertility.  
 It is certainly one of the most extensive fertile lands, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.  
 The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate."

**AMERICAN CYCLOPEDIA.**  
 NEW REVISED EDITION.  
 ENTIRELY REWRITTEN BY THE ABLEST WRITERS ON EVERY SUBJECT.  
 Printed from New Type, and Illustrated with several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the rapid developments which have taken place in every branch of science, literature and art, have induced the editors and publishers to undertake its an exact and thorough revision, and to issue a new edition entitled

**THE AMERICAN CYCLOPEDIA.**  
 Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts, and the consequent and rapid changes of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civilization of our own country, which was at its height when the last volume of the old work appeared, has happily been met, and a new era of commercial and industrial activity has been commenced. Large accessions to our

**GEOGRAPHICAL KNOWLEDGE**  
 Have been made by the indefatigable explorers of Africa.  
 The great political revolutions of the last decade, with their natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers, and the most recent publications of the day, but which ought now to take their place in

**PERMANENT AND AUTHENTIC HISTORY.**  
 In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible date, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

**POLITICAL AND HISTORICAL EVENTS.**  
 The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it to a successful termination.  
 None of the original stereotype plates have been used, but every page has been

**PRINTED ON NEW TYPE,**  
 Forming in fact a new Cyclopaedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

**THE ILLUSTRATIONS**  
 which are introduced for the first time in the present edition have been added not for the sake of a photographic effect, but to give greater fully and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and manufactures, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than entertainment, no pains have been spared to insure their

**ARTISTIC EXCELLENCE.**  
 The cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of the high character of the work.

This work is sold to subscribers only, payable on delivery of each volume. It will be complete in *eleven large octavo volumes*, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographs, Maps.
