#### LOCAL AND MISCELLANEOUS.

#### No Paper Next Week.

We have delayed our summer vaca tion one week for the purpose of giving our readers the result of the priopen for business as usual.

#### LOST,

The finder will confer a favor by leaving it at this office.

-Regular services at the M. E. Church on Sunday evening next. Rav. Allen will occupy the pulpit.

-Mr. Robt. Gillespie, of Whig Hill, a son of Mr. C. F. Gillespie, is at home enjoying his vacation. He has been attending normal school in Edinboro.

-Madison Church killed a yellow rattlesnake at West Hickory, on Wednesday last, which measured three and one-half feet in length and had eleven rattles.

may be expected.

petry thieving going on there.

-- We hear it rumored that Mr. Chas. Bonner, who has for a year or two been attending school and college, contemplates a trip to Europe for the purpose of finishing his education.

-- Our jail is tenantless at present, which, we might say is its normal condition. We suppose that Forest county is at less expense keeping prisoners than any other county in the State.

-Match games of base ball are to be played in nearly all of our neighboring towns to-day, but we don't hear of any movement in that direction in this place. The base ball fever hasn't struck us for a year or two.

-Tidioute is to celebrate largely to day, (4th) and we expect that quite a delegation from this place will attend. No pains have been spared by the committees, and the chances are that a big time will be had.

-It is now lawful to eatch bass with a book and line, but in no other manner. We were afraid some of our readers might lose some sport for fear of breaking the law if we did not inform them, hence we speak.

-Senator J. Donall Cameron has been making a trip in this part of the State recently. He did not favor Tionesta with a visit, but we caught a glimpse of him at Warren. We believe his visit had no political signifi- Messrs. D. W. Clark and W. R. Dunn

-From present indications there And fruits, berries, &c., promise to fund. Stated meetings of the board northeast of Jamestown, where the B. abound. So that notwithstanding the hard times, the probabilities are that each month. our people won't starve for some time nt least.

and dairymen of this region,

-Now for a glost story : One evening recently Messrs Albert and Park Grove were coming up the R. R. track to Tionesta from President, and when near Hunters Station they noticed a light, apparently on the track, about forty rods ahead of them. As it appeared to grow larger, one of the gentlemen remarked that it must be coming toward them rapidly, as it was continually growing larger. So they stepped off the track and took the wagon road until they were opposite the light, which then appeared stationary. They stopped and commented on the strange light, which appeared about a foot and a half in diameter. Finally Park remarked that he wished it would come up towards them, when lo! the light made a break for them, and approached within about a rod of them, and about ten feet in the air. Park heaved a stone at the light, and it moved off in nearly the same direction from which it came. The light was still there when they left, and they are unable to explain the phenomenon. It was undoubtedly a

plains on chemical principles. -Christian Korb, who lives in the Huddleson Settlement, met with a serious accident on Saturday evening last, which will disable him for some mary elections. Next week, however, time to come. We are without particwe shall follow our usual custom and ulars in the case, but as nearly as we issue no paper. The office will be can ascertain the circumstances were as follows: He was driving home from town with an ox team, which he drives with a rope; was in the wagon, On Friday last, a blue ostrich tip. which by some means became uncoupled; Korb kept hold of the rope, was jerked out of the wagon, and had one of his arms broken in two places, -above and below the elbow. Dr. Cuburn attended the case, but as we have not been able to see him we do not know how the unfortunate man is getting along.

will-o'-the-wisp, which Esq. Irwin ex-

- Even since the eleven Mollie Maguires were all hung in one day for their many crimes, members of the same organization have murdered Wm. O'Conner, near White Haven, and also assassinated John Geady, a miner employed in one of the Lehigh collieries. Jas. McDermett and Mi--Remember the Sunday School cheal O'Brien, who were witnesses picuic at the old place in the grove against several of the executed Mollies. above the Court House to-day (4th). have mysteriously disappeared, and If the weather is good a grand time fears are entertained they have been foully dealt with. It is high time that -A communication in the last the order as an order should be crush-Brookville Grophic says that that al. Their crimes are as bad as any county is full of thieves; and indeed reported of the Ku-Klux of the South, there does seem to be a good deal of and we have no objection whatever to having the troops called in.

-We are having a little too much rain lately to suit the farmers. During the spring it was feared that there would be a drouth, but now if any danger to crops is anticipated, it i from continued wet weather. Potato bugs would have turned out well anyway if they had not been so well attended to. Unlike other garden sass, the more attention and care they recaive, the lighter the crop, is. New potatoes have been in the market for some weeks past, but they have been altogether too high to be reached.

-Mr. Canfield, one of the gentlemen who conducted the excursion from this section to Chautauqua Lake last summer, informs us that he has made all the arrangements for another excursion to the same place during the present summer. He thinks it will come off somewhere about the 7th of August. However, due notice will freight was switching at the Tionesta be given of the time. The fare will depot, one of the brakesmen who was be about the same as last year, and coupling cars, had one of his hands more time at the lake given to excur- caught between the bumpers and fearsionists. So save up your odd change fully mashed. The flesh was torn for the excursion.

either that Sam, is a goat or else a bigger nuisance than a goat.

ger," with which be brushes the bugs off the vines into a nice little box, and there keeps them until such time as he may have enough to get up some cremation exercises. The "bugger" is said to be a great improvement on the old method of taking them off by

-A road is being built along the shore between Little Hickory and East Hickory flats, to take the place of the one which now runs along the hill at a heighth of from twenty to sion was in favor of the Clarington thirty-five feet down to the river. The uper road is considered dangerous, and the new one is being put through as rapidly as possible.

-The primary elections for the borough and township were held at the Arbitration Room of the Court House, and passed off quietly. Although the bars in town were not closed, we noticed very few persons under the influence of liquor, which is a decided improvement on primaries held here within our recollection.

-The Metzgar Brothers, who keep a hotel at Irvineton and the Revere House at Warren, are gentlemen with whom it is a pleasure to stop; they do everything in reason to make their guests comfortable, and set the best tables in this section. The Revere House is new and complete in every detail. We advise our readers to patronize the Metzgar Bros.

-As to the Eastern war the only thing we can be certain of is that the Russians have crossed the Danube, and that things look dark for the Turks. As to the dispatches and accounts of fights and skirmishes, they are so contradictory that it is useless to try to keep the run of them. When the war is over and peace concluded, we suppose we shall know it.

-Wm. Moore, at Brookston has a used to keep at the Forest House. The Brookston bear is considerably larger than Varner's was when it left here, and latterly has been subject to fits or spasms of some kind, during which he fits is not known. A change of diet | ing prices : and location will probably bring him out all right.

-John J. Henderson, Esq., of Meadville, who has received the nomination for President Judge of Crawford County, is an emineut and honable lawyer. It is altogether probable that he will be elected. We know of no man in Crawford who is better qualified, mentally, morally and legally, for the position than Mr. Henderson. He has our very best wishes for

-A meeting of the boro council was called on Saturday evening last, but no quorum being present, no business was done. The principal business which was to have been transacted, was the passing of an ordinance prohibiting the carrying of nitro-glycerine through our borough. It is to be regretted that a quorum was not present, as the nitro-glycerine business is alarming our citizens greatly.

-On Monday morning, as the down from the hand and wrist, making a -The Tionesta School Board met frightful looking wound. Dr. Blaine was called and after examination re-

-Railroad engineers and other train men who arrived at this place from the east last night and this morning, report a heavy snow storm at Kennefirst report started that the snow was -A terrific hail storm passed over at least an inch deep, but later reports The snow seemed to be mixed with Tionesta, Pa., May 9, 1877.

-Sam. Young, of the East Brady hail, and large lumps of it were Independent recklessly made the state- brought as far as Corry this morning ment that "the biggest nuisance in on the mail train. The sight was a East Brady was a goat," and now all grand one last night, but a desolate his exchanges are trying to make out one followed to-day. Agnew has a potato "bug. markable event is substantiated by a number of the best engineers on the A. & G. W., their reports only differing as to the depth of the snow. We await further particulars with interest. -Meadville Republican, 30th ult.,

> -An election was held in Barnett township on Monday last, to decide whether the election in that township should hereafter be held in the school house at Clarington, or at Pleasant Grove School house, on the road from Clarington to Tylersburg. The decischool house by a majority of five votes.

-- Satisfactory progress is being made in the work of the extension of the Emleuton, Shippenville & Clarion Railroad from its present terminus at Edenburg to this place. The grading is completed to Shippenville and the iron laid to Elk City. The company expect to run a train next week to Shippenville.

Mr. Friday, the contractor, is busily at work with an ample force, on the piers of the new bridge across the Clarion river, and will spare no effort to have it completed at the endiest possible date.

The survey is nearly completed, and we expect to have the cars running to Clarion early in October, and possibly in September. And this, in consideration of the large amount to do, will be rapid work. G. W. Arnold, Esq., the financial agent of the company informs us that the bonds issued for the completion of the extension to Clarion are selling rapidly, and that in a few weeks the entire loan will be disposed

No effort is being spared by the company to ensure the earliest possible completion of the road. And as all the arrangements are completed, our people can now prepare for the new order of things, so far as our lobear, a brother of the one Mr. Varner | cal prosperity is concerned .- Clarion Republican.

EVERY Scientist, Architect, Builder, Tinsmith and Property Owner should have a copy of the practical treatise on LIGHTNING PROTECTION, just issued by the undersigned. It exposes the serious defects of the lightning rods now erected, and gives explicit directions for properly protecting buildings, ships, oil tanks, steam boilers, wooden bridges, telegraph apparatus, etc. It shows and describes a simple method by which metal roofs and rain pines, or other suitable metallic conrain pipes, or other suitable metallic conductors about buildings, will effect absolute protection. Sent by mail, postage prepaid, on receipt of \$1.50. Henry W. Spong, Reading, Penna.

#### Red Hot! Spicy! Newsy! Oil City Daily Derrick, For 1877.

Better Than Ever! More and Fresher News, and More Read-ing Matter than any other Dally Paper in North-Western Pennsylvania!

THE OIL CITY DAILY DERRICK WIll begin the new year with a larger circulation than ever attained by any dally newspaper in Pennsylvania outside of the large cities. It has gained this by giving all the freshest news, and sparing no expense in ob-taining items. It has correspondents in every portion of the Oil Region, besides several reporters who are constantly traveling. The proprietors, editors and reportorial staff, are all young and energetic men, whose aim is to make the Derrick the leading newspaper of Western Pennsylvanian.

The DERRICK will be better than ever for 1877. It will have special reporters at Washington and Harrisburg, who will send daily specials of all important events Its readers will be kept posted on all the political news of the day, as reported from an independent standpoint, while a large reportorial force will keep them informe on local matters. It will also, as it does now, take the lead in discussing questions of importance to eilmen, and work faith fully for the interest of the Oil Region. It will maintain its position as authority in

oil statistics, and its market quotations will always be found reliable.

If you want spicy reading, fresh news, information concerning the Oil Region, and a red-hot paper, subscribe for the Oil City Daily Debrick. Terms, \$10 percent, at month is redyear; six months \$5; \$1 a month in advance. W. H. LONGWELL & CO., Publishers, Oil City, Pa.

A paper containing full information, will be sent upon application to CHRLES K. LANDIS, Vineland, N. J., free of cost. The following is an extract from a description for Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:

All the farmers were of the "well to do" and some of them, who have turned.

ort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small treams and occasional wet meadows which deposts of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of Hi natural fertility.

It is certainly one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farm ing, that we know of this side of the West-ern prairies. We found some of the old est farms apparently just as profitable productive us when first cleared of forer ifty or a hundred years ago.

The geologist would soon discover to cause of this continued fertility, whole country is a marine deposit, an through the soil we found evidence calcarcous substances, generally in proform of indurated calcarcous marl, show ing many distinct forms of ancient shell of the tertiary formation; and this mark substance is scattered all through the sc in a very comminuted form, and in texact condition most easily assimulated by such plants as the farm ir desires cultivata.
