LOCAL AND MISCELLANEOUS.

-Regular services at the M. E. Church on Sanday evening pext. Rev. Allen will occupy the pulpit.

-Dr. Blaine arrived home from Cincinnati on Monday evening last: He left his family well, and their relatives as usual.

-Mrs. G. W. Sawyer started to Boston on Wedpesday last on a visit to her family and friends there. She is a native of that city.

-M. Thiers, ex-President of France, died last week, and was buried with all the honors which could be conferred by a mourning nation.

-Each day further confirms the sad report-no squirrels. The brow of the hunter is sad, the barrels of bis gun are rusty, and his mind is filled with gloom.

-Harvey Foreman and Jas. Carson learn whether or not there are any squirrels in Forost County. Harvey will hunt them out if they exist.

-The chestnut crop looks at present as if it was going to be a failure, and the hickory-nut crop ditto. The beech-nuts, on the contrary, are plenty in those sections where beech trees happen to grew.

The improvements about the Court house out-buildings are coming on apace-a slow pace. A mistake was made by somebody in tearing down the old building before the new one was completed.

-- It was due to the efforts of some of our enthusiastic sportsmen that the John's Run oil well was not located right in the middle of a first-class deer-lick. The lick is a bird in band; oil is yet in the bush, as it were.

we would not be surprised if he struck thing he doesn't strike at.

-Mr. & Mrs. Jas. Kelly, of Pittsburgh, returned home on Thursday last, taking with them their granddaughter, Miss May Keily, who will attend school in the Smoky City this fall and winter.

-- An agent for Appleton's artistic publications was in town on Monday, but didn't succeed in taking many subscribers. Our citizens appreciate art in all its forms, but prefer to wait a little to see how that lease of theirs is going to turn out.

-The Oil City Daily Devrick came to us yesterday moraing, enlarged, improved, and having a new head on. It takes this method of celebrating its sixth birthday. The success of this paper is something wenderful, but is fully merited by the enterprise and get-up of its proprietors.

On the Woods Heirs' tract, four miles east of Tionesta, the rig is up for a well, and operations will begin at once, under the superintendence of Capt. Baldwin.

At the mouth of Little Coon, six miles up Tionesta creek, Messrs. Fox & Fink are building a rig, and business is to be pushed as fast as circumstances will permit.

Dr. Towler is still penetrating into the bowels of the earth in Jenks township near Marienville, and may be expected to strike the sand at any time. Mr. D. Palmer, formerly of Childs & Palmer, lumbermen, is putting up a rig on the Bon I tract, on Bear Creek, and is to put down several wells there

On the Balltown property it is understood that a good deal of leasing is going on, and that there is a prospect of several wells going down there soon.

On the Cornwell leases, on Dutch Hill, nothing is yet being done, but it is expected that work will be commenced there shortly. Enough has been contracted for that we can see that the operators mean business.

It will be seen from the above showing that Forest County is now liable. to receive a thorough test, and cousequently we may hope for better times in the future. We have never talked to a practical oil man who did not believe that we had oil in paying quantities in a good part of our county, and, taking the belt theory, we are are in town from below. We will now liable to have some of the best territory yet discovered. Truly the day is dawning.

> -At a meeting of the School Board held on Saturday evening last, the question of school books for this borough was taken up, and the following books adopted:

> Osgood's Readers and Spellers; Guyot's Geographies; Stoddart's Arithmetics; Ray's Algebra; Bullion's revised series of Grammars; Anderson's Grammar School History and Bryant & Stratton's System of Book-Keeping.

These books will be introduced into our schools at a reduced rate, and will be on hand soon. Due notice of their arrival will be given. It will be necessary for all pupils to procure these books, as no others will be allowed to be used in the schools.

G. Dale. He moved girl is better, and is liable to recover. to this section in 1826, and remained here until 1865, when he moved to Vineland, N. J., and from there to Waterford, where he resided until his death. He was a man of whom all who were in any way associated with him, and, in fact, all who knew him, speak well. He was evidently a just and good man, and his death is sincerely mourned by all his old friends and acquaintances.

-A Clarington correspondent writes us the following particulars of a fatal accident which occurred in that section recently:

Mr. Saul was assisting the other hands on Mr. Chadwick's section of the R. R., to remove a tree from the side hill to below the truck, when the "jackets" formed a hollow square and charged on him. He could not let go his hold without endangering the life and limbs of himself and the others, who had hold of the tree, so he had to accept their bills -- under protest -- as presented. When he finally got out he was panetured as full of holes as a seive. No serious results followed.

-We notice Col. Hunt, P. V. Mercilliott, the Mesers. Hettish and some others, in from Jenks township, to testify in the matter of the Bg Level Road business. It appears that more taxes have been collected in Forest County than has been expended on the road in the county, and an effort is being made to get back the surplus.

-We call the attention of our read ers to the advertisement of the Parker Guo, which appears in this issue. This gun has a reputation second to none manufactured in the U.S., and those in want of a good breech-loading gun cannot do better than to send their order to Parker Bros., West Mediden, Connectiont.

-There is an immense amount of freighting done over the P. T. & B. R. R. at present, and the road must be paying immensely. The stock is on the rise, and if the work continues it will soon be one of the best stocks in the market. D. McCargo, the Superintendent is doing a big business with this and the A. V. Road.
