 OF TIONESTA.

—At about two o'clock last Monday morning, Mr. E. W. Smiley, of the *Citizen*, was awakened by a burglar in his bedroom, who was trying to open a clothes-press. The thief had effected an entrance by turning the key of the front door with a pair of nippers, and had been in the bedroom a few minutes before, gathered up Mr. Smiley's clothes, carried them into the hall and packed them in a bundle, ready for transportation. Mr. S. and the burglar saw each other at the same time and there commenced a footrace around the house, the robber coming out a few feet ahead and making his escape as empty handed as he came. Times must indeed be hard when thieves begin to steal an editor's clothes.—*Venango Citizen*.

—The Butler Narrow Gauge Railroad is one of the successful enterprises of the day. It is a strong argument in favor of such roads in all mineral and mining regions. What is true of the Parker & Butler is also true of the Emlenton and Shipperville Railroad. The latter is also returning large profits on investments. Another road of this kind is badly needed, and doubtless attention will be given to it some time in the not very distant future. This is a road through the lumber, coal and oil regions from Shipperville, Clarion county, to Bradford, McKean Co. No doubt a road of this kind would pay well at this time, to say nothing of what is yet to develop there.—*Derrick*.

—Mr. Earnest Klein, who went home to the old country last spring, was arrested the 17th of August last, while celebrating his birthday, by the officers of the German government as a deserter from the army. The judge, before whom he was taken, proposed to fine him 225 marks, or six weeks imprisonment, which Klein would not have. He fell back on the American eagle and his U. S. citizenship, claiming the protection of the U. S. Consul, and he got it. He is expected to arrive in New York next week.—*Tid-oute News*.

Housework in the Old Time.
 An elderly lady was relating the other day in our hearing her experience in going out to do housework in her younger days. She engaged with a lady in Columbia to do general housework, no price being agreed upon, and entered upon her duties at once. About the first thing to be done outside the regular housework was to make soap—having assistance in putting up the leach, the rest of the work to make a barrel of soap she performed herself. Killing hogs came next in order, she trying the hard, taking care of the skins and helping to make sausages. Then came the butchering of beef, the tripe of which of course must be saved, and this she was required to dress alone. She spun the warp for thirty yards of all-wool carpet, and in the mean time the lady was sick and she officiated as nurse and did the washing, ironing and cooking for the family. At the end of four weeks she was to return home, and her bill was called for. Now, gentle reader, what do you think she charged for doing the amount of work narrated above? The first week seventy-five cents, the second eighty-three cents, and the last weeks one dollar each, making \$3.58 for four weeks' service. The lady thought the price decidedly too high, and she threw off twenty-five cents, leaving \$3.33 for four of the hardest weeks' labor ever put upon a woman to perform, and yet she never struck for higher wages, but served her time faithfully, and is to-day a hale, hearty old lady, fast approaching her fourscore years, able to do her own housework and lend a helping hand to a neighbor in need, or whenever duty calls.—*Willimatic Journal*.

—From No. 4, of that excellent publication, the *Floral Guide*, for 1877, we learn that James Vick, of Rochester, N. Y., intends issuing a new monthly floral or garden magazine under the above title. We have no hesitancy in assuring our readers that it will be a valuable and interesting publication, for James Vick is known in connection with nothing that is not valuable to his patrons. The price of the magazine is but \$1.25 per year, or \$5 for five copies.

—Our agricultural readers will be interested in the following from the *Olean Record*: "The following are the exact figures of the remarkable yield of early rose potatoes raised on the Oosterhoudt farm by Nelt Barber: Amount of ground three rods less than an acre; yield 216 bushels; seed planted 4 1/2 bushels. It was planted in drills 30 inches apart, a single eye carefully laid at intervals of eight inches in the drill. For the amount of seed planted, the yield is considered a remarkable one."

—Mr. Registrar-in-Bankruptcy Noyes, of Boston, holds that one of the causes of bankruptcy is that so few persons properly estimate the difference between a high and low rate of interest, and therefore often borrow money at so ruinous a rate that no legitimate business can stand. But few have figured the difference between six and eight per cent. One dollar loaned for one hundred years at six per cent. with the interest collected annually and added to the principal, will amount to \$340. At eight per cent it amounts to \$2,203, or nearly seven times as much. At three per cent, the usual rate of interest in England, it amounts to \$19.25, whereas at ten per cent. the usual rate in the United States, it is \$13,809, or nearly one thousand times as much. At twelve per cent. it amounts to \$84,095, or more than four thousand times as much. At eighteen per cent. it amounts to \$15,145,007. At twenty-four per cent. (which we sometimes hear talked of) it reaches the enormous sum of \$2,551,799,401.

ONLY REMEDY FOR HARD TIMES. CHANGE YOUR SURROUNDINGS.
 All wanting Fruit Farms, especially adapted to the growth of the Vine, where it is an established success and pays large profit. The land is also adapted to the growth of Peaches, Pears, Apples and small fruits; also Grain, Grass and Vegetables.
 Many hundred of excellent Vineyard, Orchards and Farms, can now be seen. The location is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.
 The place is already large, successful and prosperous. Churches, Schools, and other privileges are already established. Also, manufactories of Shoes, Clothing, Glass, Straw Goods, and other things, at which different members of a family can procure employment.
 It has been a health resort for some years past for people suffering from pulmonary affections, Catarrh, Ague, and debility; many thousands have entirely recovered.
 A new brick hotel has just been completed, 100 feet front, with back buildings, four stories high, including French roof, and all modern improvements for the accommodation of visitors.
 Price of Farm Land \$25.00 per acre, payable in installments, within the period of four years. In this climate, planted out to vines, 20 acres of land will count fully as much as 100 acres further north.
 Persons unacquainted with fruit growing can become familiar with it in a short time on account of surroundings.
 Five acre, one acre, and town lots, in the towns of Landisville and Vineland, also for sale.
 Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense.
 A paper containing full information, will be sent upon application to CHARLES K. LANDIS, Vineland, N. J., free of cost.
 The following is an extract from a description of Vineland, published in the New York Tribune, by the well-known Agriculturist, Solon Robinson:
 "All the farmers were of the 'well to do' sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fertility.
 It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairie. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.
 The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farm requires to cultivate."

SIDDALL'S MAGNETIC SOAP
 The Cheapest Soap that can be used for the following reasons:
 1st.—One bar will go as far as two of any other.
 2d.—Only half the usual rubbing being required, there is a saving of more than the entire cost of the Soap in labor alone.
 3d.—The clothes are made Sweet, Clean and white without Boiling or Scalding, thus all injury to them is avoided. There is a saving in fuel and hard work, and the washing is done in about half the usual time.
 It is also guaranteed under a penalty of fifty dollars not to injure the clothes or hands, and as one trial will enable any person to ascertain the truth of these statements, it would never pay the proprietor to engage in an extensive system of advertising and claim such decided merit for his Soap unless he knew from positive experience that it would prove to be in every respect what is claimed for it.
 This is also a superior Soap for Toilet and Shaving purposes.
