LOCAL AND MISCELLANEOUS.

—On account of the meeting of the Synod, at Mercer the latter part of this week, on which Rev. Elliot is obliged to attend, there will be no services at the Presbyterian Church next Sunday, Sabbath School as usual, at 3 o'clock P. M.
—Those parties who have contracted to bring in potatoes for us, are reminded that we are almost out, and are ready to receive them at once.
—Rev. Allen preached his first sermon on his second year to a good-sized congregation on Sunday evening last. Hereafter he will preach here morning and evening, every other Sunday.
—The School Board has procured a full set of Guyot's wall maps for the use of the upper school room. They are reliable, and will doubtless be of great use in teaching the young idea geography.
—A legal gentleman, Mr. Baker, from Providence, R. I., spent about a week in town, starting for home yesterday. He was here on business, but found time to make himself agreeable to several social acquaintances.
—For a few days past, morning and evening, pigeons have been flying herabouts. Not many have been taken, but if they get much colder and more numerous they can depend upon losing several of their number during the fall.
—Some of our sportsmen who have been out six or eight miles from town, report ruffed grouse, or pheasants, as they are called, quite numerous in places. Just about here they are not very plenty, and but few have been bagged.
—This is about the time of year that stoves have to be put up, and it is just as well to haul your energies to the fitting together of the stove-pipe as to rack your brain trying to find expletives wherewith to express your disgust and disapprobation of civilized life.
—We are informed by Mr. T. B. Cobb that the bass-fishing at President is splendid just now. He took a number of these gamey fishes last week, among them one which weighed three pounds and twelve ounces. The trolling hook is used almost entirely at this season of the year.
—On the second page we give the address of the Republican State Committee. Let all voters read it closely, and may it have the effect to bring them all out to the polls, where we hope that the bright Republican ticket will be voted for each and every one of them.
—This fine weather is being improved by some of our veteran hunters in fixing up their hunting shanties snug and tight for the winter. The old business is gathering upon the hunters' shanties, especially about Balltown, but they are willing to stand that.
—Col. Thomas' condition remains about the same. His son, Capt. Geo. Thomas, of Philadelphia, and his son-in-law, Dr. Price, of West Chester, arrived in town last evening. Capt. Thomas spent the winter of 1876 in this place, and made numerous friends here.
—Wm. Richards has made an excavation in the rear of his house for an addition thereto, which we presume will be built forthwith. According to the plans and specifications, which he explained to us some time ago, he will have a good residence when the improvement is made.

Forest County Oil News.

We have no news, or next to none, in this direction this week. We confidently looked for a communication in regard to the Cooksburg well, but have received none. The Palmer well, at Bear Creek, is not yet started. The Red Hot well is not yet down. The Woods Heirs' well has suffered a delay since our last issue, by breaking their auger-stem and having to send it away to be repaired. The wells at Balltown are still drilling. The Copeland well, on the Kepler farm, in Harmony township, is producing about ten barrels per day, if we are correctly informed. The McLaughlin well is pumping, but what it is producing, no man appears to know. We have heard it estimated at from 8 to 40 barrels. Mr. H. H. May has taken a lease on the Kepler farm, and the timbers are being taken out for the rig. Operations will commence as rapidly as possible. The Cornwell well, on Dutch Hill, is located on Mr. Bonner's land, adjoining Lowire's, instead of on Lowire's place, as stated last week. The machinery for this well went through town yesterday, and the work will doubtless be pushed through rapidly.
—Mr. Jas. H. Foote, who formerly kept the drug store at this place, met with a sad accident on Saturday last, which will render him a cripple for life. About 4 o'clock p. m. he was unloading a car of lumber at Imperial, or Siverlyville, as it is called by the old inhabitants, when the car upon which he was working was run into by an engine, knocking him off the car in such a manner that his left arm was caught under the moving wheels, and cut off about two inches below the elbow. Amputation was performed the same evening, by Drs. Davis and Egbert, and the sufferer is getting along as well as could be expected, having good care. All his friends will be grieved to learn of his misfortune. He is a member of the Odd Fellows' Lodge of this place, and it is a comfort to know that he receives a substantial benefit until his recovery. He is stopping at the house of his uncle, Walter Siverly.
—We feel ashamed, as a citizen of Tionesta, to report the fact that during our absence, last week, some illegitimate son of-a-goat-thief lugged off three large Hubbard squashes from our garden. We suffered the same loss last year, with the addition of a couple more squashes; and it is not long since our crop of grapes was stolen. Now we are filled with the milk of human kindness, and, moreover, since the oil market declined we have been rather short of currency, but we stand ready to pay \$4.50 for a pop at the thief or thieves with our shot gun—50 yards rise, 75 yard boundary; 34 drams powder, 11 oz. No. 6 shot; dead jailbirds to the field. Let the illustrious cuss come forth.
—By reference to the Borough Ordinance published to-day, it will be seen that our borough fathers do not propose to stand idly by and allow themselves and their constituents to be sent to Paradise by means of nitro-glycerine, dynamite, gun-cotton, phosphorus, or other explosive or other dangerous compounds, as long as they are able to raise a voice or pass an ordinance. Long live our borough fathers! May their eyesight never falter, their ears never grow dull nor their hands palsied until there are no more suspicious vehicles to spy out, no more nitro-glycerine explosions to hear, and no more ordinances to ordain.
—Our woods are now radiant in their most beautiful colors. In the fall, when the life-blood of the leaves is poured forth like the death-song of the swan, and in the spring, when they come forth garlanding with beauty the graves of their predecessors, our scenery is as enchanting as that of the Alps. Of course, when a person tramps all day over these everlasting hills after game which he doesn't get, he cannot properly appreciate the beauty of the scenery about him, but it is there, nevertheless.
—Randall captured the Speakership of the House without any trouble, getting 107 votes out of 140 in the Democratic caucus. Little Sunset Cox was withdrawn before the first ballot. We are very much afraid that he will never "get there."
—A rumor was prevalent last Sunday that Samuel Varner had been captured and was in jail at Brookville, but we could trace it to no reliable source; probably it is a mistake.

Borough Council Meeting.

We are under obligations to S. D. Irwin, Esq., the Clerk of the Borough Council, for the following minutes of a meeting of that body held on Saturday evening last, Oct. 13:
Council met at office of D. S. Knox, Esq., pursuant to call of Burgess. Present—Burgess, Councilmen Setley, Knox, Kelly, Randall and Richards. Minutes of meeting of July 12th, read and approved.
The ordinance on the transportation of nitro-glycerine and other dangerous compounds through the borough, was read, and an ordinance passed prohibiting parties from carrying the same through the borough, all the members of the Council voting affirmatively. It was approved by the Burgess.
It was then resolved that the property-owners of the borough repair side walks in front of their respective lots forthwith, and keep the same in good order. Also that the Street Commissioners repair all crossings now in bad condition.
Resolved, That a side-walk four feet wide be built from the corner of Walnut and Water streets to H. O. Davis' lot; also that the street commissioner of the North Ward build a crossing over Water street to the north side of the bridge from the said walk.
Resolved, That ten days notice be given property-owners to build said walk, stating that if not so built within the time stated in the ordinance in such case made and provided that the same will be built by the borough at their expense, under the penalties of said ordinance.
Bill of H. W. Roberts (use of S. J. Setley) for repairing side-walks, 75 cts., presented and allowed. Also bill of D. S. Knox for lumber for side-walks \$1, allowed.
Resolved, That the ordinance relative to Nitro-Glycerine be published in both newspapers of the borough.
On motion adjourned to meet at the call of Burgess.
—Mr. Thara Savage, who had been suffering for some weeks past with paralysis and asthma, died last evening at 8 o'clock, at the house of James Swailes. Mr. Savage has been for many years past a resident of Tionesta and although for the last ten years or more he has been in ill health, yet he was always cheerful, always trying his best to make a respectable living for himself. As far as we knew, he leaves the world with few enemies, and was satisfied to go hence and end his earthly sufferings. May he rest in peace.
—A poor tax of three mills has been levied for the borough, and has been, or soon will be, placed in the hands of Kepman the Irresistible. The wail of the poor tax-payers is already heard in the laud. In this connection, it is occasionally stated that the valuation of the borough is higher in proportion than that of the townships. If this statement is correct this discrimination is unjust to the tax-payers of the borough, and should be remedied at once by the proper authorities—the County Commissioners.
—What won't people complain of? Philadelphia complains of having too much silver! We hope to see the day here when silver will be so plenty that every man will have to procure a strong box to hold it; but when that glorious day arrives, if we ever hear any one complain of having too much silver, we will recommend that he be shot to death with five-cent nickles.
—Geo. W. Bovard it about to build a large granary on the lot south of his store building, which he recently purchased from the M. E. Church. We believe the dimensions are to be 16 feet in height, 24 feet in length, and 16 feet in width, and is to be finished off and painted in good shape. Messrs. Knox & Sawyer have the job.
—The following couples were married by D. S. Knox Esq., on Monday last, 15th inst.:
Mr. O. P. Smith of Cobham, Warren Co., Pa., and Miss Ida Kightlinger of Tidouie, Pa.
Mr. John B. French, of Union City, Pa., and Miss Lizzie E. Slocum, of Washington Twp., Clarion Co., Pa.

—The November number of *Bullon's Magazine* is a marvel of beauty and interest. The first article is an illustrated subject on Chinese Life and Character, by the authors of "The Gold Hunters," and then follows some ten or fifteen stories of great interest and several pieces of poetry of merit. The "Child of the Wilderness" is continued, and increases in interest as it approaches completion. The humor department, prepared by the great wit and genius of Michigan, is unusually brilliant and attractive, and will be read with interest by all lovers of the good things of this country. This magazine is one of the best and cheapest publications of the kind in the country, and it is only 15 cents a single copy, or \$1.50 per year, postpaid. During 1878 a monthly supplement containing a full sized paper pattern for a lady's or child's dress, will be given, and five original copy-right novels beside a hundred shorter stories, will be published. READ! READ! READ!

It is well known to all that during the past two years, in fact for years previous hard times has been gradually tightening his grip upon us; that our incomes grew "beautifully less," and as a result we must practice greater economy. Then the question arises, how can this be done? The answer to which has prompted the writing of this short article. Nearly two years since, we engaged in the Grocery and Provision business in this place, and how well we have succeeded in bringing the price of that class of goods to their proper value, as sold in neighboring cities, we leave to the surrounding community to decide; enough for us to know that our business has increased beyond our most sanguine anticipations. To accommodate the liberal patronage extended to us, we have moved to the large and commodious rooms known as the Hasket Building, where we have largely increased our stock, both as to quantity and variety, having added Tinware, Boots and Shoes, Gloves, Notions, and the staple articles of Hardware to our former stock of Groceries and Provisions, Flour and Feed. To parties purchasing in quantity we offer a liberal discount on our low retail prices and will duplicate prices of goods in our line, wherever purchased. Cash paid for grain. *J. H. DERICKSON & Co.*
