are being continued by Rev. Allen. Everybody is invited to attend. Services begin promptly at 7 o'clock.

-Dr. Coburn has a bad case of fracture on hands which is rather too much for his school of medicine. He had the misfortune to break a hammer off his shot-gun yesterday morning, and doubtless many pigeons owe their life to the accident.

-It was supposed that we would have a change of time on the railroad, commencing last Sunday, but as we have received no notice to that effect, and the trains seem to be running as usual, we guess the change was not

-We have had a slight taste of winter-snow, frost, slush ice, bad colds and all the premonitory symptoms attendant upon the ushering in of the cold season. It now has more the appearance of a flood than of sleighing, as it is raining steadily.

-The new Court House at Warren was dedicated with appropriate ceremonies on Monday last. Among the items in the programme was an address in behalf of the County Commissioners, by Hon. W. D. Brown, and a response by Judge Wetmore.

-We hear very little in regard to deer this season. We saw Rob. Haslet wheeling a fine buck to the depot last week, but who the lucky chap who killed it was, we did not learn. Should a good tracking snow come within a week or so, we 'may expect to see a good many brought in.

-We understand that Rev. W. O. Allen, who has lately taken unto himself a wife, will shortly move to Stewart's Run, there to live and keep house during the balance of his stay on this circuit. We are truly sorry to have him leave town, for beside being at earnest pastor he is a good citizen.

- Prof. Brockway gives notice in this issue of the Teachers' Annual Institute. He has taken pains to engag instructors and lecturers for the occasion, and expresses his belief that this will be one of the best sessions of the Teacher's Institute ever held in Forest County. It is to be hoped that there will be a full attendance.

-Ex-Sher!ff Van Giesen visited his home on Saturday last, staying until yesterday. He is at present engaged on his lease on the Sloan farm, Elk City, and will commence drilling a well in a few days. If the good wishes of his Forest County friends could help him we are sure he could could count on a fifty-barrel well, at least.

-A crowd came over from Titusville yesterday in a four-horse conveyance which we took to be a bandwagon. We confidently expected a show of some sort on seeing the procession, but it turned out that the party were merely over for the purpose of giving our pigeons a benefit. They were all well armed and equipped, and appeared a fine set of fellows.

-The price of coal hauled in from the banks about Newmanville and Lickingville still keeps up to about 15 cts. per bushel, on account of the bad roads. As soon as we have a good run of sleighing we may expect a material reduction in the price. Coal can be shipped in by car now about as cheap as it can be purchased at home.

-John Hutton, the man who is to try to recover damages from P. O. Conver, for alleged libel, is in town, having come here to attend Court, which he understood convened on the first instead of the fourth Monday in December. As the juries have been notified not to appear, it is probable that his case will not come up at this high.

TEACHERS' INSTITUTE.

TO TEACHERS AND FRIENDS OF EDU

The Eleventh Annual Session of the Forest County Teachers' Institute will be held in the School House, Tionesta, commencing Monday, December 17, at 2 o'clock P. M., and closing Friday December 21. Efforts will be made to have the work done by all as practical as possible. Classes will be formed and practical lessons given in teaching. Every Teacher in the County should attend the Institute. Come the -The meetings at the M. E. Church first day and remain until the close. This is an opportunity for improvement, and you owe it to yourselves and your schools. If there are any teachers in the County so well qualified as not to need the benefit to be derived, they should be willing to be present and by their influence and example assist others more unfortunate. H. S. BROCKWAY, Co. Supt.

[A full programme of the exercises will be published next week.]

-As to oil news it is limited. The Balltown well to which we referred last week as being due, is down and

Mesars. Grove & Hart are to put down a well forthwith on Hemlock creek, on tract 2823, in Tionesta Twp. The well has been located and work will begin at once. .

Other ventures are going on as a last report.

-The ordinance forbidding the transportation of nitro-glycerine and other dangerous explosives through our borough, was duly passed, approved and published, and yet several parties have informed us that vehicles which they were satisfied contained nitro-glycerine have passed through our place on two or three occasions since. There is no use of passing an ordinance and going to the expense of having it published, unless means are taken ts enforce its provisions, Let the next batch be captured,

-Rev. Mr. Payne has been here for the past week, holding a series of meetings in the M. E. Church. The attendance on the whole was good, and some interest manifested. Mr. Payne was obliged to leave, on Monday last, on account of his health. He is an easnest, devoted, Christian worker, and it is the opinion of our people, that had circumstances not rendered it necessary for him to leave, he might, perhaps, have been the means of doing much good in this section.

-It will be observed in another column that the juries drawn for December Term of Court are notified that they need not appear. Of course, if the juries don't come in, some of those very interesting cases set down for this term cannot be tried, which will be a great disappointment to those of our holidays listening to learned arguments by the legal gentlemen who talk

-Z. T. Shriver, Albert and Wilbur Grove, John Hart and Chas, Hill, all whom pursue the greasy phantom of petroleum in other sections, are or have been in town during the past week. All are hearty and look as if the work agreed with them. "Ab." brought home with him a fine breech-loading double gun, with all the accourrements and now the pigeons will have to fly

-The sidewalks, and more particularly the stone steps about town became very slippery yesterday, by reason of the rain freezing as it fell. At such times there appears to enter into the heart of man a spirit of destruction, and many are the desperate measures resorted to. Yesterday afternoon we saw a gentleman trying to break a large stone step by sitting down violently upon it. The result was a sad disappointment to him, for the stone was not injured in the least.

-On Monday morning and evening and Tuesday morning the pigeons flew over Tionesta in vast clouds. Their number was variously estimated by several of our mathematicians, but as there was no means of proving or disproving their estimates, they were taken for what they were worth. Several of our sportsmen got fine bags of pigeous by shooting them as they flew

-We have discontinued the notice of rewards offered for the prisoners who escaped from the jail in October last. The Sheriff thinks that the reward has been offered long enough to bring in the wandering refugees if they were coming. We suppose they are "only waiting" until the season for hunting deer expires when they will come in themselves.

-I desire to call the attention of the citizens of Tionesta and vicinity to my stock of Boots and Shoes for fall trade. My increased trade this fall has made it necessary for me to put in a much larger stock than ever before, and consequently have bought at much lower prices than small dealers are obliged to pay. I sell Men's 3-sole Kip Boots, Hand-Made for \$3.50. Men's Crack Proof Rubber Boots \$3.25. Women's Best Tampico Goat Button Shoes \$2.50, and all kinds proportionately cheap, and a discount on the above prices on large purchases, or to customers from a distance.

Prisoners Rave Escaped! Large Rewards Offered!

READ! READ! READ!

T is well known to all that during the 1 past two years, in fact for years previous hard times has been gradually tightening his grip upon us; that our incomes grew "beautifully less," and as a result we must practice greater economy. Then the ques-tion arises, how can this be done? the auswer to which has prompted the writing of this short article. Nearly two years since, we engaged in the Grocery and Provision business in this place, and how well we have succeeded in bringing the price of that class of goods to their proper value, as sold in neighboring cities, we leave to the surrounding community to decide; enough for us to know that our business has increased beyond our most sanguino anticipations. To accommodate the libe-ral patronage extended to us, we have removed to the large and commodious rooms known as the Haslet Building, where we have largely increased our stock, both as to quantity and variety, having added Tinware, Boots and Shoes, Gloves, Notions, and the staple articles of Hardware to our former stock of Groceries and Provisions, Flour and Feed. To parties purchasing of us in quantity we offer a liberal discount on our low retail prices and will duplicate prices of goods in our line, wherever purchased. Cash paid for grain. 27 tf J. H.
