-As there are a great many public sales of personal property throughout the country at every season of the ear, says the Carlisle Mirror, we call the attention of auctioneers and vendors to a few principles of law, which do not seem to be generally understood by them. In a sale by auction there Derrick's report, foots up 565,162 barare three parties, namely, the owner of rels. The amount shipped in Decemthe property, to be sold, the auctioneer and a portion of the public. The articles put up must be sold without shipments for 1877 were 12,480,043reserve (unless conditions are announced in advance) and unless the vendor receives one open bid he cannot bid himself or have the auctioneer or any one else bid for him. There are cases on record where a bid was not received and the vendor had a bidder who bought a certain article in, and afterward suit was brought against the vendor by the highest outside bid- PHOTOGRAPHER ler for the article, and it was decided that he, the plaintiff, was the highest bidder, and entitled to the article as gainst the vendor. So, also, if an arlicle is struck off to a person, and it is fterwards ascertained that the vendor ir auctioneer practiced fraud, by biding himself or having puffers, it was uld by the Court in England, and, so speatedly decided by the Supreme bourt of Pennsylvania, that the purhaser could not be held, but the purhaser as soon as he discovers the fraud racticed upon him, must return or under the article to the vendor.

-For the year 1878, the days and lates of important events, anniversaries and holidays will fall as follows: Candlemas or groundhog day, Saturday, February 2; St. Valentine's day, Thursday, February 14; Washington's birthday, Faiday, February 22; Shrove Puesday, March 5; Ash Wednesday, ginning of Lent, March 6; St. Patek's day, Sunday, March 17; Good riday, April 19; Easter Sunday, pril 21 , Decoration day, Thursday, my 30; Whit Sunday and Monday, one 9 and 10; July 4, Thursday; Thristmas, Wednesday, December 25.

-Inventors are moving to have the ost of patents reduced from one hunfred to five dollars. It is proposed to olish models and the examination, nting patents to all who apply, as to be contested in the courts. orders direct.

-The people who are to be pitied most these days are those whose wealth is mostly in property, on which heavy taxes have to be paid and which bring nothing or comparatively little in return. Those who have no real estate often envy those who have, but they often envy those who have, but they often envy those who have, but they of the stomach, nausen, heartburn, disgust for food, fullness or weight in the stomach, some envetations, sinking or fluttering expense. Tenants often complain of had just cause in some cases, during preparation of iron he may say it is a good, but ask for Kunkel's Bitter Wind the flush times, but let them put themselves in their places now, and then say who is best situated, the landlord or the tenant. The man who to-day has a good situation, at fair wages, sufficient to maintain his family and leave a small surplus, is better off than the majority of business men or the owners of city property. - Eric Obser-

-Peterson's Magazine for February is already on our table, and more than maintains the popularity of this unrivalled lady's book. We thought the steel engravings, in the January number could not be excelled, but the principal one for February, "The Challenge," representing a mischievous girl about to throw a snow-ball, is, by all and, as a hair dressing, they are unrivalled; eradicate dandruff and prevent baldness. The shampoo cleans the Hair, rewhere, for years. The stories are even better than usual, and this is saying the property of the bondholders with hat of all others.

Fourth. The protection of the profits of labor against the extortions of the the property of the bondholders with the most that can be said. There are the work-table, etc., etc., besides the usual double-size colored steel plate of late Paris fashions. At its price, two dollars a year, this is simply the cheapest of the really good magazines. Fifth. Protection in its broadest and Specimens sent to get up clubs with. Address the publisher, Chas. J. Peterson, 306 Chestnut Street, Philadelphia,

> -The Journal de St. Petersburg says: "Russia, after her immense sacrifices, demands the right to discuss the conditions of peace with her enemy alone. Russia, however, recognizes the right of Europe to make known its appreciation of the peace conditions settled between the belligerents. It is, nevertheless, important not to admit pretentions which might mislead the vanquished concerning their position, and tions between the powers."

-The shipments from the entire oil region in December, according to the ber, 1876, was 1,170,521, and in the month of 1875, 8,830,896. The total an increase over 1876 of nearly three million barrels.

HARD PAN PRICES.

Only One Price for Cash, and a low one.

NO DEVIATION. We give no discounts.

We pay no agents' commissions, which double the prices of all Pianes. We look to the People, who want a first-class Piano at a fair profit over cost of manufacture. We appoint the People our agents, and give them our Pianos as low as any agent can buy equally good Pianos of any other manufacturer, giving the People, in a reduced price, what is usually expended in commissions, rent, freight,

traveling and incidental expenses. The "Modelssohn" Piano Co, can sell you a 71 octave resewood case Piano, 6 feet 10 inches long, with front round corners, carved legs, serpentine and plinth mouldings, with improvements, including

Full Iron Frame, Over Strung Bass,

Agraffe Treble, and French Grand Action, which only accompany the best Pianos of the most celebrated makers, at the very low price of \$250, \$275 or \$300, according to style of case, or with four round cor-

ners and full agraffe for \$150, and guarantee them in every respect equal to any Piane made of similar style, or no sale. The "Mondelssohn" Piane is manufac-tured from the very best materials, and by the most skilled and finished workmen. The manufacture is conducted by one of the most experienced Piano manufacturers in the country. This is no new

enterprise, turning out a poor and cheap piano, made from green wood, and by greener mechanics.

Our Piano is unsurpassed by any in the market for its rich and powerful tones, and its adaptation to the human voice in yrapathetic, mellow and singing qualities. It speaks for itself.

We are willing to place it beside any other make of Plano on its merits, either in beauty of case, or excellence of tone, and "at half the money" of equalty good instruments,

"The best the cheapest"--- When it costs the leat money. All Pianos fully warranted for five years, Send for our Illustrated and Pescrip-
