Nearly two years since, we engaged in the Grocery and Provision husiness in this place, and how well we have succeeded in bringing the price of that class of goods to their proper value, as sold in neighboring cities, we leave to the surrounding community to decide; the surrounding community to decide: enough tor us to know that our business has increased beyond our most sanguine anticipations. To accommodate the liberal patronage extended to us, we have reral patronage extended to us, we have re-moved to the large and commodious rooms known as the Haslet Building, where we have largely increased our stock, both as-to quantity and variety, having added Tinware, Boots and Shoes, Gloves, No-tions, and the staple articles of Hardware to our former stock of Groceries and Pro-visions, Flour and Feed. A bear hunt is being loudly talked of by the veteran hunters of this place and vicinity. Bears are said to be very numerous up the creek, and if a hunt is organized and carried out in good shape there will undoubtedly be bear meat in the market ere long.

-We shall undoubtedly have a grand hunting season next winter, as this year has been so unfavorable that very deer have been killed. Two or three winters like the present one and a due observance of the law, would make deer so plenty that it wouldn't be much of a trick to kill them.

-The Greenbackers have started a paper in Meadville, called the People's Advocate. It is a joint stock company, and the paper is edited by Mr. A. A. Stelle. He branches out right lively in his first issue, cutting and slashing like a man running muck-a-muck.

-Some of the great ministers on both sides of the Atlantic are trying future punishment-or, in short, no hell. Henry Ward Beecher is a strenuous advocate of this doctrine. We were forcibly struck by a remark in the Venango Spectator, to the effect that "it might have made a material more orthodox in his views."
