The Pope of Rome died in that city on the 7th, after a long illness. The following is a sketch of his life: Pope Pius IX—Giovanni Maria Masiai Ferretti—was born of a noble family at Sinigaglia, neer Ancona, on May 13, 1792. Ho visited South America on a religious mission in 1823. In 1827 he was made Archbishop of Spoleto, and he attained the dignity of Cardinal in 1840. In June, 1846, he was elected by acclamation the successor of Pope Gregory XVI. After the French revolution of 1848, the I alian liberals demanded greater concessions than the Pope was willing to grant. concessions than the Pope was willing to grant. After several violent demonstrations on the part of the Roman Population, Pio Nino escaped to Gacta in disguise in November, 1848. Myths are but Symbols of Truth.

As the scholar sees in the vain but beautiful mythologies of the ancients the embodied expressions of the hungry human soul, blindly groping after the Infinite, so the physician seer groung after the infinite, so the physician sees in that popular myth of the sixte nth cellury the fountain of perpetual health and youth an expression of the longings of suffering humanity for a remedy that should forever prevent the incursion of disease. The wilds of Europe were ransacked for this wonderful fountain, and Ponce de Leon sought for it in the cycress aways and tangled accordance. the cycress swamps and tangled everglades of our sunny Florida. Men have searched for it everywhere and anywhere but where it really is
—in the human body itself. The blood is the
real fountain of perpetual health and youth
When this cource is corrupted, the painful and sorrow-producing effects are visible in many shapes. The multifarious forms in which it manifests itself would form subjects upon which I might write volumes. But as all the varied forms of disease which depend upon bad blood are cured, or best treated by such medicines as take up from this fluid and ex-crete from the system the noxious elements. it is not of practical importance that I should describe each. For instance, medical authors describe about fifty varieties of skin disease, describe about fifty varieties of skin disease, but as they all require for their cure very similar treatmen, it is of no practical utility to know just what name to apply to a certain form of skin disease, so you know how best to cure it. Then ag-in, I might go on and describe various kinds of scrofulous sores, fever sores, white scrolling the scrolling and sores. sores, white swellings, colarged glands, and ulcers of varying appearance; might describe how virulent poison may show itself in various forms of cruptions, ulcers, sore throat, bony tumors, etc.; but as all these various appearing manifestations of bad blood are cured by a uniform means. I doem such a course "uneciniform means, I doem such a course unnecessary. Thoroughly clearse the blood, which is the great fountain of life, and good digestion, a fair skin, buoyant spirits vital strength, and soundness of constitution will all return to us. For this purpose Dr. Pierce's Golden Medical Discovery and Purgative Pellets are pre-eminently the articles peopled. They are pre eminently the articles needed. They are warranted to cure tetter, salt-rheum, scald head St Authony's fire, rose rash or erysipelas, ring-worms, pimples, blotches, spots, eruptions, pustules boils, carbuncles, sore eyes, rough skin, scurf, scrofulous sores and swellings, fever sor. s, white swellings, tumors, old sores or swellings, affections of the skin, throat and bones, and ulcer; of the liver, stomach, kidneys and lungs.

A Wonder-Working Remedy.

No remedial agent has ever been offered to
the sick and debilitated at all comparable to Hostetter's Stomach Bitters, in cases of remittent and intermittent fevers, constipation, nervous ailments, rheumatism and disorders involving constitutional weakness or physical decay. It literally "works wonders." The botanic ingredients which its spirituous basis holds in solution, act like a charm upon the stomach, and through the stomach upon the brain, liver and bowels and nervous system. There is nothing in its composition that is not salubrious. It contains some of the most po-tent tonics of the vegetable kingdom and the juices of the best aperient and auti-bilious roots and herbs, combined with a perfectly pure stimulating element. The Bitters are peculiarly adapted to those engaged in exhausting or unhealthy occupations, as by its use strength is sustained and the ability of the system to resist atmospheric and other in-fluences prejudical to health largely increased.

IMPORTANT

It is well known to the medical profession that

IRON

Is the VITAL PRINCIPLE or LIFR ELEMENT of the blood. This is derived chiefly from the food we est; but if the food is not proposity degested, or if from any cause chairses the necessary quantity of Iron is not taken into the circulation, or becomes reduced, the whole system suffers. The had blood will irritate the heart, will eleg up the lungs, will stupsfy the brain, will obstruct the liver, and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever or you may be predisposed to disease. It is only since the discovery of that valuable combination known as PERUVIAN SYRUP that the great power of this VITALIZING AGENT over disease has been brought to light.

Protoxide of Iron.

A new discovery in medicine, which strikes at the root of disease by supplying the blood with its vival principle or life element.

ALL DISEASES ORIGINATING IN A

Bad State of the Blood, OR ACCOMPANIED BY DEBILITY. OR

A Low State of the System. Being free from Alcohot in any form its energizing effects are not joiltuned by corresponding reaction, but are permanent, infusing STRENGTH, VIGOR and NEW LIFE into all parts of the system, and bu 'ling up.

AN IRON CONSTITUTION.

It is an excellent substitute for wine or brandy where a stimulant is needed.

One element of the restorative power of Iron as a medicine is its magnetic action and the electricity developed thereby. For female weaknesses it is a specific To take medicines to ours diseases occasioned by a
