LOCAL AND MISCELLANEOUS.

Church Meeting. The Annual Congregational Meeting of the Presbyterian Society will be held in the Church, this (Wednesday) evening, Aug. 7th, at 8 o'clock.

Rev. Elliot will occupy the pulpit of the Presbyterian Church next Sunday morning. Services commence at 11 o'clock.

Western tramps decline to work in the harvest fields for \$2.50 per day. They say "the world owes them a living and they are going to have it."

There is not very much change in the price of oil, which lingers around \$1.00. It doesn't look as if the price would advance very much for some time.

Alexander H. Stephens speaks of the Potter committee as "thimble-riggers." This man Stephens is becoming outrageously saucy since his renomination is assured.

At the convention in Oil City yesterday Wesley Chambers was made the nominee of the Greenback party for Congress, for the district composed of Erie, Warren and Venango counties.

It is now unlawful to catch brook trout, and those who have failed to catch them in season had better not try it now, for fear they might have better luck, and get themselves arrested.

The borough has but one case of small-pox on hands as present, the blacksmith, Beverly. The babe has recovered. It is supposed that Beverly will be entirely free from the disease in a week or two.

Several of our young men are now in Forest County, fishing and striking at the goats.—Brookville Graphic, 2d.

These young men have broken the law if they have caught any trout since the 31st day of July.

This morning's associated press reports give an account of a pigeon match between Bogardus and one Coventry, an Englishman, for £1000.

Some of the Erie delegates are dissatisfied at the nomination of Osmer, and are doing their best to have Mr. Reed run at the general election.

The amount of oil which the well on Chas. Hill's farm is producing is not known, probably on account of salt water being pumped up with the oil.

As we bend ourselves to our task this morning, we hear the cheerful notes of the hand-organ stealing gently up through the fog, and speculate upon the probable amount of lucre the musician will have when he strikes the other end of town.

The Greenbackers of this, the 25th Congressional District, met at Parkers on Monday, and nominated J. Mosgrove, of Armstrong, for Congress.

G. W. Bovard is figuring on a flag walk, which he contemplates having laid down in front of his store and warehouse. In the end the flag walk would be the cheapest, as it would not need repairing or rebuilding for two or three generations.

We had a big storm of rain and hail on Thursday afternoon last. The hailstones were sufficiently large to crack several panes of glass in town, and the wind was so violent that it blew down several trees within the borough limits, and took the top off Mr. Kelly's chimneys.

Work on the Woods Heirs well was stopped a little short of 1000 feet. On Monday last an attempt was made to explode a torpedo in the well, but, from the effect of the explosion, it was thought that the torpedo was a failure.

When it exploded it did not even fill up the hole, nor batter down the sides of the rock. The experiment was a failure in every sense of the word.

WAIT AND GO WITH US TO FAIR POINT!

An Excursion to Lake Chautauqua via Jamestown and steamer to Fair Point and Mayville, will leave Oil City SATURDAY, AUGUST 10th, 1878, at 6:50 A. M., stopping at all points on the P. T. & B. Ry.

The managers have visited Jamestown and Fair Point and secured the very lowest prices, and assure all who contemplate going that they can have a good time costing but a trifle compared with the regular charges.

Those who desire can return Saturday evening, giving time to go over the lake. But those who wish can remain at the Point or Jamestown, and return Monday evening, on the regular train, using their excursion ticket.

Parties returning home leave Fair Point at 3:00 P. M.; Jamestown at 7:00 P. M.

TICKETS can be procured from railroad agents at points mentioned above, and from the managers.

IMPORTANT.—In order to insure seats for all, a discount of ten per cent. will be allowed on all tickets purchased previous to Friday, August 9th, enabling us to order enough cars to accommodate all.

TAKE NOTICE.—Regular trains carry the party both ways. Don't make any mistakes, but be on hand promptly.

"Hickory Chips."

ED. REPUBLICAN:—Thinking that an item or two from this township might not be out of place at this time, I venture the following items for your columns:

Men have been at work upon the "Narrows" between East Hickory and the mouth of Little Hickory Creek for some time. It is to be hoped that a good road may be opened between the above places, and thus form a direct road from this and other points in Hickory Twp. to Tionesta, where most of our citizens have, for some time past, had considerable business.

A new road is also being built from East Hickory creek, at a point about two miles above the mouth, up Beaver creek, which promises to be a good, substantial road. With the opening of roads comes prosperity, generally.

Farmers are nearly all through with their harvest in this section, with the exception of a few fields of oats. Crops were very good, hereabouts, considering the late frosts in this part of the county, which seem to have done but very little damage.

The schools of this District are, at present writing, in a prosperous condition. Teachers manifest more interest in their work than formerly, and the patrons work more with the teachers to raise the efficiency of the schools.

In some of the schools the children have collected quite a number of curiosities. In the Church Hill school, taught by F. F. Whitekin, the pupils have collected one hundred specimens of woods, all that were obtainable in this part of the country in a living or growing state.

Fourteen specimens of woods and some stones, ten or twelve different varieties, were brought from the vicinity of Niagara Falls, by their teacher, on the 24th ult. All are carefully labeled and kept in the school as the property of the children.

All the other schools have something equally interesting, collected by the teachers and pupils.

The first labor riot of the season occurred at the capital of the nation some days since, and was on a small scale. A crowd of three hundred or more attempted to drive the workmen from the new building being erected for the Printing and Engraving bureau.

A collision occurred between the crowd and the mounted police, in which several of the former were shot, and one of the latter severely wounded.

The mob posted up notices threatening the workmen with death if they persisted in working at the low wages they were receiving.

One of the rioters has been sent to jail for three months, and the other ringleaders will probably keep him company.

None of them are workmen. They are demagogues who live upon the labor of others. The authorities are determined to protect men who are willing to work, and if the police shall prove inefficient troops will doubtless be used.

The annual congregational meeting was held in the Presbyterian church on Wednesday evening last, on which occasion Mr. G. G. Butterfield was made Chairman, and W. R. Dunn Secretary of the meeting.

The Treasurer, Mr. A. B. Kelly, submitted a statement of the funds for the year, ending Sept. 1st, by which it appeared that the amount subscribed for the ministers salary was in arrears about \$30.

Messrs. A. B. Kelly, C. A. Randall and W. R. Dunn were appointed a committee to circulate a paper for subscriptions to the minister's salary for the ensuing year.

Adjourned to meet this evening, when the committee will report and officers be elected for the coming year.

Some dastardly thief took from Mrs. Heath's clothes line last night, some garments, four pieces, belonging to Miss Maggie Cogan.

The young lady, who is a soldier's orphan, has been preparing to go away to school, and the fruits of her labor, as well as of her money, goes to benefit some thief.

It is to be hoped that justice may overtake the guilty.

The following item is taken from the Derrick of the 5th inst: "On Friday evening, as Mr. Porter Haskell, of Tylersburg, was driving along the road not far from that place, he was thrown violently from his buggy to the ground, and was very badly injured. His horse ran away and made a wreck of the buggy. He is a man well up in years and is one of the largest dealers in lumber in Clarion county."

The School Board of Tionesta Borough met at the Commissioners' office on Monday evening last, and elected Miss Woodin, of Jamestown, N. Y., to take charge of the lower school.

The choice of a teacher for the upper school was deferred until next Monday evening, when it is expected that the board will be better informed as to the qualifications of the applicants.

An excursion train of three coaches passed up the road this morning, with Jerry Gosh's picnic party to Brokenstraw Island.

A brass band accompanied the excursion and discoursed some sweet music at the Tionesta Depot while the train stopped.

If it don't rain the excursion will probably be a success.

Hon. W. C. Plummer has received the Greenback nomination for Congress in the District composed of Butler, Crawford and Mercer.

The convention was held in Butler, and was very bitter and disorderly. Mr. P.'s record on the Free Pipe Bill will probably operate against him in the general election.
