Chairman.

-A Venaugo county gentleman fa vors us with the following items:

On Wednesday afternoon, 16th inst. David Thompson, of Pinegrove township, Venango Co., attempted to commit suicide by shooting himself. He has been ailing for about a year, and has been treated for consumption by several physicians in that locality. About two weeks age he seemed somewhat deranged, and made several strange threats, when on the above date he determined to "shuffle off this mortal coil." His father was out in highly their services to the State and the field, husking corn, and his mother was attending to household duties, when she was startled by the report of a gun, and upon entering the room, found the would-be suicide, snugly covered up in bed. Further examination showed that he had hidden the gun in the bed before lying down. The out, also, in the evening, to hear the ball entered about midway between views of our Governor, and also those the chin and throat, passed up through of the Soldier and the Statesman who the tongue, roof of the mouth, and accompany him. Mr. Davis, we belodged just below the brain and back lieve, has secured the services of a of the left eye. Dr. France, of Fryburg, was summoned, but could de nothing to relieve him. He is at present writing, still living, but is unable to swallow anything. He will undoubtedly die, not from the effects of the shot, but for want of food and drink. This ought to be a warning to all who contemplate committing sui-

John L. McGraw, of McGraw_Cen ter, Warren Co., was out fishing, on Wednesday afternoon, 16th inst., in company with DeWitt Waldo, near Eagle Rock, when he suddenly became dizzy, and fell from a rock about nine striking his head upon a rock which lay a little out of water. At the time, Waldo was four or five rods distant, and by the time he reached McGraw, he found him dead. His body was sent to his home (McGraw Center) for interment.

-We are pained to learn of the sudden and violent death of Joseph McCray, formerly of this section, which occurred near Clear Lake, Polk Ce., Wis., on the 9th inst. From the account of the accident, published in the Wisconsin News, we extract the following particulars: It appears that Joseph and two brothers, Chauncey and Wesley, were in a clearing camp, and on the morning of the accident the deceased took his gun and started off, stating that he would be back before evening. He had not been gone long before his brothers heard the report of a gun, and immediately after an agonized cry. They ran in the direction of the sound, and found him lying on the ground, with a frightful wound in his side. When he saw them, he said, "I have killed myself!" They carried him to camp and sent for medical assistance. He informed them that at the time of the accident he was on top of a stump, looking over some land he was thinking of buying, and had his hand on the muzzle of the gun, while the stock rested on the stump; the gun slipped and the hammer struck the side of the stump, discharging the gun, and lodging the whole charge of shot into his right side, a large portion of which went through between the ribs, and lodged in the trunk. He took off his amunition and his coat, which was on fire and extinguished the fire, and then ination in the Warren and Venango started for camp, sinking down when District has at length been made, and his brothers found him. He died nominee. We have been well acquaint- He was 24 years of age, and was a son ed with Mr. Lee for a number of years, of Samuel McCray, who settled and and can conscientiously say that we cleared the farm now owned by Fitzbelieve there is no man in either Ve- gerald's, two miles below this place. nango or Warren county better quali- Joseph will be remembered by many fied to fill a seat in the Senate with in our place as a pleasant, steady, and honor to himself and profit to his con- companionable young man. -Yesterday morning the boiler of the mill at Red Hot, on Big Coon creek, blew up, injuring Mr. Elmer Lacy quite seriously, and Cyrus Murphy slightly. The boiler went through the side of the mill, and sailed through the air, lighting on the side hill, twenty rods distant, and at a point twentyfive feet higher than the point from whence it started. Mr. Lacy was thrown into the air about twelve feet and alighted with his back across one of the rails of the carriage track, injuring his spine severely. He was also scalded on one arm and one leg. Murphy was hit between the eyes by some flying object, and cut slightly. Mr. Lacy will have a tedious time before he recovers. Dr. Blaine, who was called, furnishes us the above particulars. Murphy, the engineer, avers that there were three gauges of water in the boiler when it exploded. Others about the mill say that the boiler was dry, or nearly so, and that Murphy turned on a cold stream of water which caused the explosion.

-By a notice in another column, it will be seen that Governor Hartranft and some other distinguished gentlemen are to arrive in town next Monday afternoon. It is proper and right that this party should be met and welcomed in a spirit which will show how Nation are appreciated by the people. Our County Chairman is making all necessary preparations to receive them in a manner becoming their position and worth, and it is not to be supposed that he will lack the assistance of our citizens of every party. Let all turn brass band, to furnish music for the occasion. Turn out, everybody, and do honor to the Chief Executive of the Commonwealth.

LIVER COMPLAINT.

A few of the symptoms are pain in the side, shoulders and back, bitter taste in the mouth, particularly on rising in the morning, dizziness in the head, pain and smarting of the eyes, constipation of the bowels, high colored urine, brick dust deposits or gravel, nervous debility, and loss of appetite, &c., for which Barosma, Backache, Liver and Kidney Cure, taken in confeet high, on which he was sitting, drake Pills, is a specific or cure in 99 nection with the Dandelion and Man-

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asth-ma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. (From the Pittsburgh Loader, March 22, 1878.)
"I Must Lie Down and Die," The following is an extract from a letter dated July 21, 1877, to the discoverer of Bethesda Water. The writer is the Rev. T. B. Fuller, D. D., D. C. L., Rector of St. Gregory's Church, Toronto, Archdeacon of of Niagara, etc., etc. The writer, at the age of 60 years was a victim of Saccharine Diabetes. His physician said (to use Dr. Fuller's words) "he could do no more for me than he had done; that my disease was incurable, and that I must lie down and die," [We should state here, en parenthesis, that our townsman, Joseph Fleming, Esq., is the sole and only authorized agent for this wonderful water for this State, as well as for Ohio and West Virginia.] To return to Dr. Fuller: "In four days," he writes, "after taking the Water, I obtained relief, and since that time I have taken no medicine, consulted no medical man, and presume, if I could give myself reasonable rest, I would be quite well."

Such testimony, from such a source, should indeed have convincing weight. Sole agent for Pennsylvania, Ohio and
