

Some Points Established.

From the New York Tribune.

"A solid South" is answered by a solid North, Indiana and Oregon alone excepted. Those who were defeated in their attempt to destroy the Union will not be permitted to avenge themselves by wronging public creditors and destroying public faith.

Looking to the next Presidential contest, it plainly appears that no inflationist or repudiator can be elected. New York, New Jersey and Connecticut stand as firm as a rock against every assault upon the public faith.

The obvious consequence is that the Greenback heresy dooms the Democratic party to another defeat. A sound, unflinching, hard-money candidate will offer that party the only chance of success in New York, New Jersey and Connecticut.

Another conclusion is inevitable, and it is one of the utmost importance to the industrial and commercial interests of the country. The resumption of specie payments will not be hindered by any action of Congress this winter.

At the last session, when the current in favor of inflation seemed almost irresistible, the Republicans were still able with a President's veto, and with the aid of a few sound Democrats, to stop mischievous legislation.

The campaign has taught Republicans all over the country that their only hope is in steadfast defence of the public faith. They will be more united on that question this winter than they have been at any season since the Resumption Act was passed.

Yesterday we closed our Sabbath School for the year. The Secretary informed us that the average attendance was 60; the largest attendance was 100 and the smallest 47. Prizes were awarded to Misses Vinnie Blair and Ida Berlin.

It is equally certain—so grandly have the people rallied to the defense of their honor and their welfare—that the repudiators will be impotent for at least two years from March next.

free North, the President will not be slow to strike down with a veto any weapon aimed at the honor, prosperity or peace of the country.

It was a grand day's work. Millions of industrious workers will enjoy its fruits, in more regular employment and better wages for their toil.

William White.

Last week we published a brief notice of the death of Judge Wm. White, at Delphos, Kansas, on the 26th ult.

Wm. White came into this section about the year 1837, and in company with Jno. Hunter took a raft of timber up Hunter's Run, for William Hunter.

Mr. Stow left the country. From that time until he moved West, some six or seven years ago, he jobbed for Wheeler & Dusenbury.

Whig Hill Letter. ED. REPUBLICAN:—Thinking that a few items from this place might be interesting, we produce the following: The farmers have gathered their crops for this year, and all are bountifully supplied with vegetables, etc., for this winter.

Yesterday we closed our Sabbath School for the year. The Secretary informed us that the average attendance was 60; the largest attendance was 100 and the smallest 47.

There was a shooting match on the Hill on the 16th inst., which, we hear, went off handsomely.

Hunters are as plenty in the woods as candidates were on the roads a month ago, and we hear of them killing no deer, so we think they have no better success than the Greenbackers did.

—Kunkel's "Parfume de Paris," the pleasantest and most delightful perfume extant, for sale at Bovara's. Price 75 cts. per bottle.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows.

"I Must Lie Down and Die."
