Selden Whitman's Paint Mine.

Following is an extract from a letter from Mr. John Frick of Philadelphia, to S. D. Irwin Esq., in regard to the paint mine on Selden Whitman's

"That mineral paint on Selden Whitman's place has been pronounced by Philadelphia chemists and paint manufactures to be a good article; superior, in fact, to that found and mined in Lancaster and Chester counties, where they have to go down from 100 to 180 feet to reach the veins. This crops out of the hill; is free from sand and grit; is of two shades naturally, and some twelve to fifteen colors could be produced by washing and roasting, Prominent paint manufactures in Philadelphia say they will give \$5 per ton here for it, the quality story, and we don't see as there is any being as good as the raw material from mines in Laucaster. This shows it has an unquestionable market value. This othre is remarkably fine; The trouble lies in the transportation. The R. R. and Express companies were applied Bend, found a den of fifty six rattleto for special rates, but the terms were so illiberal that it would take eighty per cent of the entire value of the sex may ramble through the forests in ochre in Philadelphia to transport it there. On the other hand to put up the factory here for washing and roasting would cost from \$8,000 to \$10,000. as our informents state. Could this Stemetz. ochre be handled in Pittsburgh it might be done to advantage for Western supply. As the quantity is said to be ample it may be an enterprise of the future that will remunerate some one."

-- The many friends of Rev. Elliot and family will regret to learn that Mr. Elliot's other charge. Their object -It is lawful now to tell big trout in moving was on account of Mrs. rious to her. While Mr. Elliot will continue to preach here as usual, we will miss him very much in the social intercourse of every day life. We understand that an effort will be made to have him give his entire time to the Tionesta Charge, and if successful he will remove to this place. There is no reason why this arrangement can not be carried out, as it would require a very little more in the way of subscriptions to secure his services all the time, and we doubt if there is one who now subscribes to his salary, who would not add largely to his subscription to accomplish this. Let our Presbyterian brethern put forth their efforts, and we have no hesitancy in saying that they will be successful. It is not often country churches are able to get so able a minister as Rev. Elliot. and it would not do for the Tionesta church to lose his services.

-The Calico party at Partridge's Hall last Thursday evening, was a most pleasurable affair. There was a goodly number present, and to say that all enjoyed themselves is putting it very mild. The costumes were very gay, but not more so than those who wore them. The dencing was kept up until about three o'clock in the morning, and the only drawback to the oc casion was the absence of supper; however, this was in a measure overcome by the introduction of a large panfull of crackers, which together with the joke, were very much enjoyed. The Calico hop will long be remembered by those who participated, and will no doubt be repeated in the
